

CCC Introduces CCC® Build Sheets with Detailed Vehicle Specifications to Streamline Repair Process

July 16, 2024 at 8:00 AM EDT

New Offering Integrates Detailed Vehicle Information into CCC ONE® to Help Repairers Work Faster and Make More Informed Decisions

CHICAGO--(BUSINESS WIRE)--Jul. 16, 2024-- [CCC Intelligent Solutions Inc.](#) (CCC), a leading cloud platform powering the P&C insurance economy, announces today the launch of [CCC® Build Sheets](#), a new solution designed to streamline the repair process. Integrated directly into [CCC ONE®](#), CCC® Build Sheets provides collision repairers with detailed vehicle specifications based on the Vehicle Identification Number (VIN), helping them write more complete estimates the first time and better understand the parts needed for the repair.

CCC Build Sheets delivers detailed vehicle information from leading Original Equipment Manufacturers (OEMs) and third-party providers with information about the vehicle as it was manufactured, including vehicle packages, paint codes and specific parts options on the vehicle being repaired. When a VIN is decoded in CCC ONE, vehicle options and estimate prompts are automatically provided, reducing the need for manual research, removing the need to evaluate choices that do not apply to the VIN, and minimizing errors in parts ordering.

Key Benefits of CCC Build Sheets Include:

- **Faster Estimates:** Reduces time spent researching trim packages and vehicle options, allowing for quicker estimate creation.
- **Better Parts Orders:** Displays fewer incorrect parts options for the vehicle being repaired, enabling repairers to select the correct parts the first time.
- **Less Manual Work:** Provides access to VIN-specific information throughout the estimating, parts ordering, and repair process, so less time is spent researching and calling suppliers for parts details and paint code information.

"In an industry where labor shortages are a growing concern and every minute counts, our goal with CCC Build Sheets is to empower repair shops to have the most complete information at their fingertips," said Mark Fincher, vice president, product management, automotive services at CCC. "By integrating comprehensive vehicle information directly into CCC ONE, we're helping repairers access information faster, improve efficiency, and enhance overall shop productivity."

CCC Build Sheets is available to CCC ONE users through cccis.com/marketplace.

Special Note Regarding Forward-Looking Statements

This press release contains forward-looking statements that are based on beliefs and assumptions and on information currently available. In some cases, you can identify forward-looking statements by the following words: "may," "will," "could," "would," "should," "expect," "intend," "plan," "anticipate," "believe," "estimate," "predict," "project," "potential," "continue," "ongoing" or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words. These statements involve risks, uncertainties and other factors that may cause actual results, levels of activity, performance or achievements to be materially different from the information expressed or implied by these forward-looking statements. Forward-looking statements in this press release include, but are not limited to, statements regarding future use and performance of CCC's digital solutions. We cannot assure you that the forward-looking statements in this press release will prove to be accurate. These forward-looking statements are subject to a number of risks and uncertainties, including, among others, competition, including technological advances and new products marketed by competitors; changes to applicable laws and regulations; and other risks and uncertainties, including those included under the header "Risk Factors" in CCC's filings with the Securities and Exchange Commission ("SEC"), including the Form 10-K filed February 28, 2024, which can be obtained, without charge, at the SEC's website (www.sec.gov). The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments will cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this press release.
