

## CCC Launches CCC® Payroll to Streamline Payroll Management for Collision Repair Shops

September 4, 2024 at 8:00 AM EDT

*New Solution Enables Shops to Track Production and Labor and Streamline Payroll Together in the CCC ONE® Platform*

CHICAGO--(BUSINESS WIRE)--Sep. 4, 2024-- [CCC Intelligent Solutions Inc.](#) (CCC), a leading cloud platform powering the P&C insurance economy, announces today the launch of [CCC® Payroll](#), a new solution designed to streamline payroll management for collision repair shops. Integrated into the [CCC ONE®](#) platform, CCC Payroll enables shops to track production and labor, and streamline payroll within a single system, simplifying the payroll process from start to finish and giving employees greater visibility into how their pay is calculated. The payroll services will be managed by [Check](#), the leading payroll platform that pioneered the ability for companies to differentiate and open up new revenue streams by embedding payroll into their platforms.

Designed specifically for repair shops, CCC Payroll supports the unique compensation structures of the collision repair industry, such as flat-rate, commission, and hourly pay. The solution streamlines payroll processing and related activities throughout each pay period. Labor data from CCC ONE combines with Repair Order (RO) tracking to generate precise, transparent calculations for each staff member as well as real-time pay tracking via mobile application. This allows technicians to see how their work on each job directly impacts their paycheck, offering greater clarity. This transparency can help build trust and retain employees, a critical issue for an industry facing ongoing labor shortages. Key features tailored to the collision industry include digital pay corrections, compliance maintenance, and general ledger management.

"Payroll management in the collision repair industry is complex with unique challenges that generic solutions often fail to address," said Mark Fincher, vice president of product management at CCC. "CCC Payroll is purpose-built for collision repair to simplify this process while enhancing transparency and trust within the shop."

Key features of CCC Payroll include:

- **Integration with CCC ONE:** Provides a unified system for managing labor, production, and payroll, reducing potential errors and the need to export data.
- **Real-Time Pay Data:** Allows technicians to view RO-level pay and hour data in the CCC ONE Mobile App in real-time, increasing understanding of paycheck details.
- **Data-Driven Insights:** Supports management of the general ledger and compliance, while also providing alerts to potential payroll processing errors.
- **Payroll Services:** Helps process payroll accurately and on time, cut checks, and manage cash flow.

"Labor shortages continue to challenge the collision repair industry, and one of the key contributors to retention issues can be friction in the payroll process," added Fincher. "CCC Payroll addresses these challenges by streamlining payroll management and giving technicians clear and immediate access to their earnings information, which helps build trust and satisfaction, ultimately supporting a more stable workforce."

CCC Payroll is available to CCC ONE users. For more information, visit [cccis.com/payroll](https://cccis.com/payroll).

### About CCC

CCC Intelligent Solutions Inc. (CCC), a subsidiary of CCC Intelligent Solutions Holdings Inc. (NASDAQ: CCCS), is a leading cloud platform for the multi-trillion-dollar P&C insurance economy, creating intelligent experiences for insurers, repairers, automakers, part suppliers, and more. The CCC Intelligent Experience (IX) Cloud™ platform, powered by proven AI and an innovative event-based architecture, connects more than 35,000 businesses to power customized applications and platforms for optimal outcomes and personalized experiences that just work.
