(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2020

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission file number: 001-39447

DRAGONEER GROWTH OPPORTUNITIES CORP.

(Exact name of registrant as specified in its charter)

Cayman Islands
(State or other jurisdiction of
incorporation or organization)

98-1546280
(I.R.S. Employer
Identification No.)

One Letterman Drive
Building D, Suite M500
San Francisco, CA
(Address of principal executive offices)

94129
(Zip Code)

Registrant's telephone number, including area code: (415) 539-3099

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Units, each consisting of one Class A ordinary share, \$0.0001 par value, and one fifth of one redeemable warrant	DGNR.U	New York Stock Exchange LLC
Class A ordinary shares included as part of the units	DGNR	New York Stock Exchange LLC
Redeemable warrants included as part of the units, each whole warrant exercisable for one Class A ordinary share at an exercise price of \$11.50	DGNR WS	New York Stock Exchange LLC

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Non-accelerated filer

Accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management’s assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

There was no aggregate market value of voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2020, the last business day of the registrant’s most recently completed second fiscal quarter, because the registrant’s common equity was not trading on any exchange on that date.

As of March 29, 2021, there were 69,000,000 Class A ordinary shares, \$0.0001 par value and 17,250,000 Class B ordinary shares, \$0.0001 par value, issued and outstanding.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements contained in this Annual Report on Form 10-K (this “Form 10-K”) constitute “forward-looking statements” for purposes of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this Form 10-K may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial Business Combination;
- our expectations around the performance of a prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial Business Combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial Business Combination;
- the proceeds of the forward purchase units being available to us;
- our potential ability to obtain additional financing to complete our initial Business Combination;
- our pool of prospective target businesses;
- our ability to consummate an initial Business Combination due to the uncertainty resulting from the recent COVID-19 pandemic;
- the ability of our officers and directors to generate a number of potential Business Combination opportunities;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the Trust Account or available to us from interest income on the Trust Account balance;
- the Trust Account not being subject to claims of third parties; or
- our financial performance following our Initial Public Offering.

The forward-looking statements contained in this Form 10-K are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking

[Table of Contents](#)

statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “Risk Factors.” Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

SUMMARY OF RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this Annual Report on Form 10-K, before making a decision to invest in our securities. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment. Such risks include, but are not limited to:

- We are a recently incorporated company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.
- Past performance by our management team or their respective affiliates may not be indicative of future performance of an investment in us.
- Our shareholders may not be afforded an opportunity to vote on our proposed initial Business Combination, which means we may complete our initial Business Combination even though a majority of our shareholders do not support such a combination.
- Your only opportunity to affect the investment decision regarding a potential Business Combination may be limited to the exercise of your right to redeem your shares from us for cash.
- If we seek shareholder approval of our initial Business Combination, our sponsor and members of our management team have agreed to vote in favor of such initial Business Combination, regardless of how our public shareholders vote.
- The ability of our public shareholders to redeem their shares for cash may make our financial condition unattractive to potential Business Combination targets, which may make it difficult for us to enter into a Business Combination with a target.
- The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable Business Combination or optimize our capital structure.
- The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial Business Combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.
- The requirement that we consummate an initial Business Combination within 24 months (or 27 months, as applicable) after the closing of our Initial Public Offering may give potential target businesses leverage over us in negotiating a Business Combination and may limit the time we have in which to conduct due diligence on potential Business Combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to complete our initial Business Combination on terms that would produce value for our shareholders.
- Our search for a Business Combination, and any target business with which we ultimately consummate a Business Combination, may be materially adversely affected by the recent coronavirus (COVID-19) outbreak and the status of debt and equity markets.
- We may not be able to consummate an initial Business Combination within 24 months (or 27 months, as applicable) after the closing of our Initial Public Offering, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate.
- If we seek shareholder approval of our initial Business Combination, our sponsor, directors, executive officers, advisors and their affiliates may elect to purchase public shares or warrants, which may influence a vote on a proposed Business Combination and reduce the public “float” of our Class A ordinary shares or public warrants.
- If a shareholder fails to receive notice of our offer to redeem our public shares in connection with our initial Business Combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

[Table of Contents](#)

- You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.
- The NYSE may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.
- You will not be entitled to protections normally afforded to investors of many other blank check companies.
- If we seek shareholder approval of our initial Business Combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a "group" of shareholders are deemed to hold in excess of 15% of our Class A ordinary shares, you will lose the ability to redeem all such shares in excess of 15% of our Class A ordinary shares.
- Because of our limited resources and the significant competition for Business Combination opportunities, it may be more difficult for us to complete our initial Business Combination. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.
- If the net proceeds of our Initial Public Offering and the sale of the private placement warrants not being held in the trust account are insufficient to allow us to operate for the 24 months (or 27 months, as applicable) following the closing of our Initial Public Offering, it could limit the amount available to fund our search for a target business or businesses and our ability to complete our initial Business Combination, and we would depend on loans (if any) from our sponsor, its affiliates or members of our management team to fund our search and to complete our initial Business Combination.
- The other risks and uncertainties discussed in "Risk Factors" and elsewhere in this Annual Report on Form 10-K.

PART I

References in this Annual Report on Form 10-K to "we," "us," "our," "Company" or "our company" are to Dragoneer Growth Opportunities Corp. References to our "management" or our "management team" are to our executive officers and directors, and references to our "sponsor" are to Dragoneer Growth Opportunities Holdings, a Cayman Islands limited liability company. References to our "initial shareholders" refer to our sponsor and the Company's executive officers and directors.

ITEM 1. BUSINESS.

Introduction

We are a blank check company incorporated on July 3, 2020 as a Cayman Islands exempted company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (a "Business Combination"). We have reviewed a number of opportunities to enter into a Business Combination and intend to enter into the Proposed Business Combination described below under "Recent Developments." We have neither engaged in any operations nor generated any revenue to date. Based on our business activities, the Company is a "shell company," as defined under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), because we have no operations and nominal assets consisting almost entirely of cash.

[Table of Contents](#)

On August 18, 2020, we consummated our Initial Public Offering of 69,000,000 units (the “Units”), which included the full exercise by the underwriters of the over-allotment option to purchase an additional 9,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$690,000,000 (the “Initial Public Offering”). Each Unit consists of one Class A ordinary share of the Company and one-fifth of one redeemable warrant (the “Warrants”). Each whole Warrant entitles the holder thereof to purchase one Class A Ordinary Share for \$11.50 per share. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of an aggregate of 15,800,000 private placement warrants to our sponsor at a price of \$1.00 per warrant, generating gross proceeds of \$15,800,000 (the “Private Placement Warrants”).

Prior to the consummation of the Initial Public Offering, on July 10, 2020, our sponsor paid \$25,000, or approximately \$0.001 per share, to cover certain of our offering and formation costs in consideration of 17,250,000 Class B ordinary shares, par value \$0.0001 (the “Founder Shares”), of which an aggregate of up to 2,250,000 shares were subject to forfeiture to the extent that the underwriters did not exercise their over-allotment option. As a result of the underwriters’ election to fully exercise their over-allotment option, such Founder Shares are no longer subject to forfeiture. In July 2020, our sponsor transferred 75,000 Founder Shares to each of our independent directors.

On August 12, 2020, we entered into (i) a forward purchase agreement pursuant to which Dragoneer Funding LLC (“Dragoneer Funding”) agreed to subscribe for an aggregate of 15,000,000 forward purchase units, consisting of one Class A ordinary share and one-fifth of one warrant to purchase one Class A ordinary share for \$10.00 per unit, or \$150,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of our initial Business Combination and (ii) a forward purchase agreement pursuant to which entities managed by or associated with Willett Advisors LLC (the “Willett Purchasers”) agreed to subscribe for an aggregate of 2,500,000 forward purchase units, consisting of one Class A ordinary share, or a forward purchase share, and one-fifth of one warrant to purchase one Class A ordinary share, or a forward purchase warrant, for \$10.00 per unit, or \$25,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of our initial Business Combination.

The obligations under the forward purchase agreements will not depend on whether any public shareholders elect to redeem their shares and provide us with a minimum funding level for the initial Business Combination.

As of December 31, 2020, there was \$690,000,000 in cash held a segregated trust account located in the United States, with Continental Stock Transfer & Trust Company acting as trustee (the “Trust Account”) and \$605,009 of cash held outside the Trust Account. As of December 31, 2020, no funds had been withdrawn from the Trust Account to pay taxes.

On October 1, 2020 we announced that the holders of our Units may elect to separately trade the Class A ordinary shares and Warrants included in the Units commencing on October 5, 2020 on the New York Stock Exchange (“NYSE”) under the symbols “DGNR” and “DGNR WS,” respectively. Those Units not separated will continue to trade on the NYSE under the symbol “DGNR.U”.

Recent Developments

On February 2, 2021, the Company, Chariot Opportunity Merger Sub, Inc., a Delaware corporation (“Chariot Merger Sub”) and Cypress Holdings, Inc., a Delaware corporation (“CCC”) entered into a Business Combination Agreement (the “Business Combination Agreement,” and the transactions contemplated thereby, the “Proposed Business Combination”), pursuant to which on the closing date, among other things and subject to the terms and conditions contained therein:

- (i) the Company will become a Delaware corporation (the “Domestication”) and, in connection with the Domestication, (A) the Company’s name will be changed as determined by CCC in its sole discretion, (B) each outstanding Class A ordinary share of Dragoneer and each outstanding Class B ordinary share of the Company will become one share of common stock of the Company (the “Dragoneer Common Stock”), and (C) each outstanding warrant of Dragoneer will become one warrant to purchase one share of Dragoneer Common Stock; and

Table of Contents

- (ii) following the Domestication, Chariot Merger Sub will merge with and into CCC, with CCC as the surviving company in the merger and, after giving effect to such merger, continuing as a wholly owned subsidiary of the Company (the “Merger”).

In accordance with the terms and subject to the conditions of the Business Combination Agreement, all outstanding shares, together with all outstanding equity awards, of CCC will be exchanged for shares of Dragoneer Common Stock or comparable equity awards that are settled or are exercisable for shares of Dragoneer Common Stock, as applicable, based on an implied CCC equity value of \$5,740,750,000, subject to adjustment in accordance with the Business Combination Agreement. Additionally, the current CCC equityholders and the sponsor each have an earn out tied to the trading price of shares of the combined company after the closing of the Merger.

Under the Business Combination Agreement, the obligations of the parties to consummate the transactions contemplated thereby are subject to a number of closing conditions, including, but not limited to, (i) the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, (ii) the approval of the Company’s shareholders, (iii) the approval of CCC’s shareholders and (iv) the Company having at least \$5,000,001 of net tangible assets (as determined in accordance with Rule 3a51-1(g)(1) of the Securities Exchange Act of 1934, as amended) remaining after the closing of the Proposed Business Combination.

In addition, the obligation of CCC to consummate the Proposed Business Combination is subject to the fulfillment of other closing conditions, including, but not limited to, (i) the aggregate cash proceeds from the Company’s trust account equaling no less than \$207,000,000 (after deducting any amounts paid to the Company’s shareholders that exercise their redemption rights in connection with the Proposed Business Combination and net of the Company’s unpaid transaction expenses and the Company’s unpaid liabilities), (ii) the approval by the NYSE of the Company’s initial listing application in connection with the Proposed Business Combination, (iii) the aggregate cash proceeds from the Company’s forward purchase agreements equaling no less than \$175,000,000, at least \$150,000,000 of which shall be provided by the sponsor, (iv) the consummation of the Domestication and (v) the Company having made all necessary arrangements to cause the trustee to release the funds from the Company’s trust account available to the Company.

The Business Combination Agreement may be terminated at any time prior to the closing of the Proposed Business Combination by mutual written consent of the Company and CCC and, among other things, if the Proposed Business Combination is not consummated by August 2, 2021. As such, the closing of the Proposed Business Combination cannot be assured.

Concurrently with the execution of the Business Combination Agreement, the Company entered into the following agreements:

- Transaction Support Agreements, pursuant to which the CCC shareholders agreed to, among other things, vote in favor of the Business Combination Agreement and the Proposed Business Combination and to be bound by certain other covenants and agreements related to the Proposed Business Combination;
- An Amended and Restated Registration and Shareholder Rights Agreement, pursuant to which certain shareholders of CCC and our sponsor were provided with certain governance and board nomination rights;
- Subscription Agreements with certain qualified institutional buyers and accredited investors (collectively, the “Investors”), pursuant to which, among other things, the Investors agreed to subscribe for and purchase, and the Company agreed to issue and sell to the Investors, an aggregate of 15,000,000 newly issued shares of Dragoneer Common Stock in connection with the closing of the Proposed Business Combination for aggregate gross proceeds of \$150,000,000 (the “Pipe Financing”); and
- A Sponsor Letter Agreement with the holders of the Company’s Class B ordinary shares, including our sponsor, pursuant to which such holders agreed to, among other things, (i) vote in favor of the Business Combination Agreement and the transactions contemplated thereby (including the Merger), (ii) waive any adjustment to the conversion ratio set forth in the governing documents of the Company or any other anti-

[Table of Contents](#)

dilution or similar protection with respect to the Class B ordinary shares (whether resulting from the transactions contemplated by the Subscription Agreements or otherwise), (iii) be bound by certain other covenants and agreements related to the Proposed Business Combination and (iv) be bound by certain transfer restrictions with respect to their shares in the Company prior to the closing of the Proposed Business Combination, in each case, on the terms and subject to the conditions set forth in the Sponsor Letter Agreement. Additionally, pursuant to the Sponsor Letter Agreement, the holders of Class B common stock have agreed that, if the earn out conditions have not been satisfied before the tenth anniversary of the Closing (as defined in the Business Combination Agreement), the portion of the Company's shares subject to such earn out, and any dividends that have been paid in respect thereof (which will be retained by the Company and be paid to the holders of Class B common stock only if and when the earn out conditions are satisfied), will automatically be forfeited to the Company on the tenth anniversary of the Closing (as defined in the Business Combination Agreement).

Other than as specifically discussed herein, this annual report on Form 10-K does not give effect to the Proposed Business Combination or the transactions contemplated thereby.

Effecting our initial Business Combination

General

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time. We intend to effectuate our initial Business Combination using cash from the proceeds of our Initial Public Offering and the sale of the private placement warrants and the forward purchase warrants, our equity, debt or a combination of these as the consideration to be paid in our initial Business Combination. We may seek to complete our initial Business Combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial Business Combination is paid for using equity or debt, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial Business Combination or used for redemptions of our Class A ordinary shares, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-Business Combination company, the payment of principal or interest due on indebtedness incurred in completing our initial Business Combination, to fund the purchase of other companies or for working capital.

Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely affect a target business.

In addition, we believe our ability to complete our initial Business Combination will be enhanced by our having entered into the forward purchase agreements pursuant to which the forward purchase investors have agreed to purchase an aggregate of 17,500,000 forward purchase units, consisting of one Class A ordinary share, or a forward purchase share, and one-fifth of one warrant to purchase one Class A ordinary share, or a forward purchase warrant, for \$10.00 per unit, or \$175,000,000 in the aggregate, in a private placements to close substantially concurrently with the closing of our initial Business Combination.

Sources of Target Businesses

Target business candidates have been brought to our attention from various unaffiliated sources, including investment market participants, private equity groups, investment banking firms, consultants, accounting firms and large business enterprises. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since some of these sources will be familiar with the Company and know what types of businesses we are targeting. Our officers and directors, as well as their affiliates, may also bring to our attention target business candidates that they become aware of through their business contacts

as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the business relationships of our officers and directors. We may engage professional firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of finder's fees is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. In no event, however, will our sponsor or any of our existing officers or directors, or their respective affiliates paid by us any finder's fee, consulting fee or other compensation prior to, or for any services they render in order to effectuate, the completion of our initial Business Combination (regardless of the type of transaction that it is). Some of our officers and directors may enter into employment or consulting agreements with the post-Business Combination company following our initial Business Combination. The presence or absence of any such fees or arrangements will not be used as a criterion in our selection process of an acquisition candidate.

We are not prohibited from pursuing an initial Business Combination with a company that is affiliated with our sponsor, Marc Stad or Pat Robertson (our "Founders"), or our officers or directors. In the event we seek to complete our initial Business Combination with a company that is affiliated with our sponsor or any of our Founders, officers or directors, we, or a committee of independent directors, if required by applicable law or based upon the decision of our board of directors or a committee thereof, will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions that such initial Business Combination is fair to the Company from a financial point of view. We are not required to obtain such an opinion in any other context.

Each of our officers and directors presently has, and any of them in the future may have, additional, fiduciary or contractual obligations to other entities, including entities that are affiliates of our sponsor, pursuant to which such officer or director is or will be required to present a Business Combination opportunity to such entity. For example, in November 2020, our sponsor and officers launched a second blank check company, Dragoneer Growth Opportunities Corp. II ("Dragoneer II") and in March 2021, our sponsor and officers filed a registration statement with the SEC for a third blank check company, Dragoneer Growth Opportunities Corp. III ("Dragoneer III"). Our sponsor and officers may form additional blank check companies in the future. Accordingly, if any of our officers or directors becomes aware of a Business Combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations (including Dragoneer II and Dragoneer III), he or she will honor his or her fiduciary or contractual obligations to present such Business Combination opportunity to such entity, subject to their fiduciary duties under Cayman Islands law.

Evaluation of a Target Business and Structuring of Our Initial Business Combination

In evaluating a prospective target business, including the Proposed Business Combination, we conduct an extensive due diligence review which may encompass, as applicable and among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities and a review of financial and other information about the target and its industry. We will also utilize our management team's operational and capital planning experience. If we determine to move forward with a particular target, we will proceed to structure and negotiate the terms of the Business Combination transaction.

The time required to select and evaluate a target business and to structure and complete our initial Business Combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of, and negotiation with, a prospective target business with which our initial Business Combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another Business Combination. We will not pay any consulting fees to members of our management team, or their respective affiliates, for services rendered to or in connection with our initial Business Combination. In addition, we have agreed not to enter into a definitive agreement regarding an initial Business Combination without the prior consent of our sponsor.

Our Business Strategy

Our business strategy is to identify and complete a Business Combination that can create value for our shareholders over time. We believe our investment team's prior experience and our network of relationships should allow us to identify a wide range of attractive opportunities for the Company. Our networks include, among others, entrepreneurs, public and private company management teams (from early stage venture to the Fortune 500), venture capital and private equity investors, investment bankers, attorneys, and management consultants.

Dragoneer's investment philosophy is rooted in several core tenets:

- Sustainable competitive differentiation. Dragoneer believes that identifying and deeply dissecting the “moat” around a company is the most critical element of understanding that company, as true differentiation can provide years of durable, compounding growth and expanding margins.
- Growth as primary driver of returns. Dragoneer's underwriting is primarily predicated on the topline growth potential of a business—while maintaining an attractive financial model—as opposed to valuation arbitrage or financial leverage. It is not coincidental that Dragoneer's investments have generally been in disruptive sectors such as internet, software, and financial services.
- Superior economic model. Ultimately, a business must have the ability to generate high levels of cash-flow over time, even if it chooses to use that cash to re-invest for the future. Dragoneer spends significant time evaluating a company's financial model and unit economics to seek to discern the trajectory of its margin profile in the coming years.
- World-class management teams. Dragoneer seeks to partner with creative and ambitious management teams that have a track record of success to help them execute against their vision.
- Analyzability. Dragoneer generally looks for businesses that are mature enough to have a wealth of financial and operating data which it can utilize to conduct thorough analyses and build high-fidelity forecasts. Ultimately, isolating and forecasting drivers of growth with a high degree of conviction allows Dragoneer to initiate large, concentrated investments. Early stage venture businesses typically do not fit this mold as there is insufficient information to complete the due diligence process, and there are even public companies Dragoneer does not believe are sufficiently analyzable yet. Dragoneer also generally avoids businesses with highly unpredictable elements such as broad macroeconomic cyclical or binary technological or regulatory risk.
- Large addressable market relative to current company size. Dragoneer has found success in broad “platform” businesses as well as dominant vertical players. Dragoneer has also historically found opportunities both in markets and segments that themselves are growing (for example, due to new consumer behavior or new technology), as well as with companies that are taking share in more stable markets. However, with both types of opportunities, we seek companies that we believe have a clear runway for sustained growth in their existing core businesses, well beyond Dragoneer's expected investment horizon.

This philosophy is combined with Dragoneer's approach to investing:

- Opportunistic and flexible application of these principles. Dragoneer invests in both public and private markets in a range of sectors and geographies, with a rigorous focus on seeking to identify the highest quality businesses.
- Global Orientation. Different markets are evolving on different timelines and in different ways, with some consumer trends and corporate behaviors showing maturity in some markets, while those same trends are more nascent in other markets. Or as William Gibson quipped, “The future is already here—it's just not evenly distributed.” Dragoneer is also seeing new companies being formed around the world (and particularly in China) that are going to compete more aggressively globally than they ever have before, and Dragoneer believes a broad lens is required to evaluate a given company's competitive landscape and growth prospects.

Table of Contents

- Deep, fundamental analysis. Dragoneer’s investment team spends significant time conducting primary due diligence, availing itself of access to management when appropriate and a wide variety of third-party resources. Dragoneer’s goal is to be the foremost expert on the businesses in which it invests.
- Long investment horizon. While staying closely attuned to a company’s development along the way, Dragoneer attempts to analyze its prospects for many years into the future. Dragoneer seeks to carefully analyze the extent to which a company’s “moat” will continue to deepen as it scales and what future product and financial implications that may have in the fullness of time. When Dragoneer invests, it is generally with a strong view that a business has a long and clear runway for compound growth.
- Concentration. There are very few companies that meet Dragoneer’s selective criteria, and it attempts to maintain its discipline across market cycles. Dragoneer is also a believer that concentrated investments based in rigorous analysis are more likely to produce superior outcomes over time, compared to a portfolio approach with wide dispersion among winners and losers.
- Preservation of capital. In addition to earning an attractive rate of return on Dragoneer’s investments, Dragoneer also seeks a significant margin of safety in each investment. Dragoneer is very focused on preservation of capital and pursues a nuanced evaluation of numerous downside scenarios. Its historical losses as a firm have been limited as a result.

Consistent with our investment philosophy and strategy, we plan to identify high-quality businesses run by exceptional teams pursuing large market opportunities. We expect to be guided by the criteria outlined above in evaluating opportunities, but we may decide to complete our initial Business Combination with a target business that does not meet any or all of these criteria.

The criteria set forth above are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial Business Combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management and our investment team may deem relevant.

So long as our securities are listed on the NYSE, our initial Business Combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the net assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of signing a definitive agreement in connection with our initial Business Combination. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or an independent valuation or appraisal firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board will not be able to make an independent determination of the fair market value of a target business or businesses, it may be unable to do so if the board is less familiar or experienced with the target company’s business, there is a significant amount of uncertainty as to the value of the Company’s assets or prospects, including if such company is at an early stage of development, operations or growth, or if the anticipated transaction involves a complex financial analysis or other specialized skills and the board determines that outside expertise would be helpful or necessary in conducting such analysis. Since any opinion, if obtained, would merely state that the fair market value of the target business meets the 80% of net assets threshold, unless such opinion includes material information regarding the valuation of a target business or the consideration to be provided, it is not anticipated that copies of such opinion would be distributed to our shareholders. However, if required under applicable law, any proxy statement that we deliver to shareholders and file with the SEC in connection with a proposed transaction will include such opinion.

We may, at our option, pursue an acquisition opportunity jointly with one or more entities affiliated with Dragoneer and/or one or more investors in funds managed by Dragoneer, which we refer to as an “Affiliated Joint Acquisition.” Any such parties may co-invest with us in the target business at the time of our initial Business Combination, or we could raise additional proceeds to complete the acquisition by issuing to such parties a class of equity or equity-linked securities. We refer to this potential future issuance, or a similar issuance to other specified purchasers, as a “specified future issuance” throughout this Annual Report on Form 10-K. The amount and other terms and conditions of any such specified future issuance would be determined at the time thereof. We are not obligated to make any specified future issuance and may determine not to do so. This is not an offer for any

[Table of Contents](#)

specified future issuance. Pursuant to the anti-dilution provisions of our Class B ordinary shares, any such specified future issuance would result in an adjustment to the conversion ratio such that our initial shareholders and their permitted transferees, if any, would retain their aggregate percentage ownership at 20% of the sum of the total number of all ordinary shares outstanding plus all shares issued in the specified future issuance, unless the holders of a majority of the then-outstanding Class B ordinary shares agreed to waive such adjustment with respect to the specified future issuance at the time thereof. We cannot determine at this time whether a majority of the holders of our Class B ordinary shares at the time of any such specified future issuance would agree to waive such adjustment to the conversion ratio. If such adjustment is not waived, the specified future issuance would not reduce the percentage ownership of holders of our Class B ordinary shares, but would reduce the percentage ownership of holders of our Class A ordinary shares. If such adjustment is waived, the specified future issuance would reduce the percentage ownership of holders of both classes of our ordinary shares.

We anticipate structuring our initial Business Combination so that the post-Business Combination company in which our public shareholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial Business Combination such that the post-Business Combination company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders or for other reasons, but we will only complete such Business Combination if the post-Business Combination company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-Business Combination company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to the Business Combination may collectively own a minority interest in the post-Business Combination company, depending on valuations ascribed to the target and us in the Business Combination. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial Business Combination could own less than a majority of our outstanding shares subsequent to our initial Business Combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-Business Combination company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the Business Combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses. In addition, we have agreed not to enter into a definitive agreement regarding an initial Business Combination without the prior consent of our sponsor. If our securities are not then listed on the NYSE for whatever reason, we would no longer be required to meet the foregoing 80% of net asset test.

Our Acquisition Process

In evaluating a potential target business, we expect to conduct a comprehensive due diligence review to seek to determine a company's quality and its intrinsic value. That due diligence review may include, among other things, financial statement analysis, detailed document reviews, multiple meetings with management, consultations with relevant industry experts, competitors, customers and suppliers, as well as a review of additional information that we will seek to obtain as part of our analysis of a target company.

We are not prohibited from pursuing an initial Business Combination with a company that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial Business Combination with a company that is affiliated with our sponsor, officers or directors, we, or a committee of independent directors, if required by applicable law or based upon the decision of our board of directors or a committee thereof, will obtain an opinion from an independent investment banking firm or an independent accounting firm that our initial Business Combination is fair to the Company from a financial point of view.

Members of our and Dragoneer's management teams, including our officers and directors, directly or indirectly own our securities and, accordingly, may have a conflict of interest in determining whether a particular target company is an appropriate business with which to effectuate our initial Business Combination. Each of our officers and directors, as well as our and Dragoneer's management teams, may have a conflict of interest with respect to evaluating a particular Business Combination if the retention or resignation of any such officers, directors, and management team members was included by a target business as a condition to any agreement with respect to such Business Combination.

[Table of Contents](#)

Each of our directors and officers presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a Business Combination opportunity. Accordingly, if any of our officers or directors becomes aware of a Business Combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial Business Combination.

Our amended and restated memorandum and articles of association provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of the Company, and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Our Founders, sponsor, officers, and directors may sponsor, form or participate in other blank check companies similar to ours during the period in which we are seeking an initial Business Combination. Any such companies, including Dragoneer II and Dragoneer III, may present additional conflicts of interest in pursuing an acquisition target, particularly in the event there is overlap among investment mandates. However, we do not currently expect that any such other blank check company would materially affect our ability to complete our initial Business Combination. In addition, our Founders, sponsor, officers, and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating management time among various business activities, including identifying potential Business Combinations and monitoring the related due diligence.

Redemption Rights for Public Shareholders upon Completion of Our Initial Business Combination

We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of our initial Business Combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of the initial Business Combination, including interest earned on the funds held in the trust account and not previously released to us to pay our income taxes, if any, divided by the number of then-outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. The redemption rights will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. There will be no redemption rights upon the completion of our initial Business Combination with respect to our warrants. Further, we will not proceed with redeeming our public shares, even if a public shareholder has properly elected to redeem its shares, if a Business Combination does not close. Our sponsor and each member of our management team have entered into an agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and public shares held by them in connection with (i) the completion of our initial Business Combination, and (ii) a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association (A) that would modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial Business Combination or to redeem 100% of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or during any Extension Period or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares.

Limitations on Redemptions

Our amended and restated memorandum and articles of association provides that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 either prior to or upon consummation of an initial Business Combination (so that we do not then become subject to the SEC's "penny stock" rules). However, the proposed Business Combination may require: (i) cash consideration to be paid to the

target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed Business Combination. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed Business Combination exceed the aggregate amount of cash available to us, we will not complete the Business Combination or redeem any shares, and all Class A ordinary shares submitted for redemption will be returned to the holders thereof.

Manner of Conducting Redemptions

We will provide our public shareholders with the opportunity to redeem all or a portion of their Class A ordinary shares upon the completion of our initial Business Combination either (i) in connection with a general meeting called to approve the Business Combination or (ii) by means of a tender offer. We will seek the approval of our shareholders to consummate the Proposed Business Combination. However, in the event that the Proposed Business Combination is not consummated, the decision as to whether we will seek shareholder approval of a proposed Business Combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek shareholder approval under applicable law or stock exchange listing requirements or whether we were deemed to be a foreign private issuer (which would require a tender offer rather than seeking shareholder approval under SEC rules). Asset acquisitions and share purchases would not typically require shareholder approval while direct mergers with the Company where we do not survive and any transactions where we issue more than 20% of our issued and outstanding ordinary shares or seek to amend our amended and restated memorandum and articles of association would typically require shareholder approval. We currently intend to conduct redemptions in connection with a shareholder vote to consummate the Proposed Business Combination. So long as we obtain and maintain a listing for our securities on the NYSE, we will be required to comply with the NYSE rules.

If we held a shareholder vote to approve our initial Business Combination, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules; and
- file proxy materials with the SEC.

In the event that we seek shareholder approval of our initial Business Combination, we will distribute proxy materials and, in connection therewith, provide our public shareholders with the redemption rights described above upon completion of the initial Business Combination.

If we seek shareholder approval, we will complete our initial Business Combination only if we obtain the approval of an ordinary resolution under Cayman Islands law, which requires the affirmative vote of a majority of shareholders who attend and vote at a general meeting of the company. In such case, our sponsor and each member of our management team have agreed to vote their founder shares and public shares in favor of our initial Business Combination. As a result, in addition to our initial purchaser's founder shares, we would need 25,875,001, or 37.5% (assuming all issued and outstanding shares are voted), or 4,312,501, or 6.25% (assuming only the minimum number of shares representing a quorum are voted), of the 69,000,000 public shares sold in our Initial Public Offering to be voted in favor of an initial Business Combination in order to have our initial Business Combination approved. Each public shareholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction or vote at all. In addition, our sponsor and each member of our management team have entered into an agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and public shares held by them in connection with (i) the completion of a Business Combination, and (ii) a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association (A) that would modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial Business Combination or to redeem 100% of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or during any Extension Period or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares.

[Table of Contents](#)

If we conduct redemptions pursuant to the tender offer rules of the SEC, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial Business Combination which contain substantially the same financial and other information about the initial Business Combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial Business Combination, if we elect to conduct redemptions pursuant to the tender offer rules, we and our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase Class A ordinary shares in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial Business Combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public shareholders not tendering more than the number of public shares we are permitted to redeem. If public shareholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial Business Combination.

Limitation on Redemption upon Completion of Our Initial Business Combination If We Seek Shareholder Approval

If we seek shareholder approval of our initial Business Combination and we do not conduct redemptions in connection with our initial Business Combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in our Initial Public Offering, which we refer to as “Excess Shares,” without our prior consent. We believe this restriction will discourage shareholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed Business Combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public shareholder holding more than an aggregate of 15% of the shares sold in our Initial Public Offering could threaten to exercise its redemption rights if such holder’s shares are not purchased by us, our sponsor or our management at a premium to the then-current market price or on other undesirable terms. By limiting our shareholders’ ability to redeem no more than 15% of the shares sold in our Initial Public Offering without our prior consent, we believe we will limit the ability of a small group of shareholders to unreasonably attempt to block our ability to complete our initial Business Combination, particularly in connection with a Business Combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash.

However, we would not be restricting our shareholders’ ability to vote all of their shares (including Excess Shares) for or against our initial Business Combination.

Tendering Share Certificates in Connection with a Tender Offer or Redemption Rights

Public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” will be required to either tender their certificates (if any) to our transfer agent prior to the date set forth in the proxy solicitation or tender offer materials, as applicable, mailed to such holders, or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, at the holder’s option, in each case up to two business days prior to the initially scheduled vote to approve the Business Combination. The proxy solicitation or tender offer materials, as applicable, that we will furnish to holders of our public shares in connection with our initial Business Combination will indicate the applicable delivery requirements, which will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. Accordingly, a public shareholder would have from the time we send out our

[Table of Contents](#)

tender offer materials until the close of the tender offer period, or up to two business days prior to the initially scheduled vote on the proposal to approve the Business Combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Given the relatively short period in which to exercise redemption rights, it is advisable for shareholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker a fee of approximately \$80.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their Business Combinations, many blank check companies would distribute proxy materials for the shareholders' vote on an initial Business Combination, and a holder could simply vote against a proposed Business Combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the Business Combination was approved, the Company would contact such shareholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the shareholder then had an "option window" after the completion of the Business Combination during which he or she could monitor the price of the Company's shares in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the Company for cancellation. As a result, the redemption rights, to which shareholders were aware they needed to commit before the general meeting, would become "option" rights surviving past the completion of the Business Combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming shareholder's election to redeem is irrevocable once the Business Combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to two business days prior to the initially scheduled vote on the proposal to approve the Business Combination, unless otherwise agreed to by us. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial Business Combination.

If our initial Business Combination is not approved or completed for any reason, then our public shareholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed Business Combination is not completed, we may continue to try to complete a Business Combination with a different target until 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering.

Redemption of Public Shares and Liquidation If No Initial Business Combination

Our amended and restated memorandum and articles of association provide that we have only 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering to consummate an initial Business Combination. If we have not consummated an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, we will: (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating

[Table of Contents](#)

distributions with respect to our warrants, which will expire worthless if we fail to consummate an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering. Our amended and restated memorandum and articles of association provide that, if we wind up for any other reason prior to the consummation of our initial Business Combination, we will follow the foregoing procedures with respect to the liquidation of the trust account as promptly as reasonably possible but not more than ten business days thereafter, subject to applicable Cayman Islands law.

Our sponsor and each member of our management team have entered into an agreement with us pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold if we fail to consummate an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or during any Extension Period (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial Business Combination within the prescribed time frame).

Our sponsor, executive officers, and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association (A) that would modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial Business Combination or to redeem 100% of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares, unless we provide our public shareholders with the opportunity to redeem their public shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our income taxes, if any, divided by the number of the then-outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 either prior to or upon consummation of an initial Business Combination (so that we do not then become subject to the SEC's "penny stock" rules). If this optional redemption right is exercised with respect to an excessive number of public shares such that we cannot satisfy the net tangible asset requirement, we would not proceed with the amendment or the related redemption of our public shares at such time. This redemption right shall apply in the event of the approval of any such amendment, whether proposed by our sponsor, any executive officer, director or any other person.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the \$1,000,000 held outside the trust account plus up to \$100,000 of funds from the trust account available to us to pay dissolution expenses, although we cannot assure you that there will be sufficient funds for such purpose.

If we were to expend all of the net proceeds of our Initial Public Offering and the sale of the private placement warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by shareholders upon our dissolution would be \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public shareholders. We cannot assure you that the actual per-share redemption amount received by shareholders will not be less than \$10.00. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public shareholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third-party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third-party that has not executed a waiver if management believes that such third-party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third-party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a

[Table of Contents](#)

waiver or in cases where management is unable to find a service provider willing to execute a waiver. Citigroup Global Markets Inc., Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC, the underwriters of our Initial Public Offering, will not execute an agreement with us waiving such claims to the monies held in the trust account. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third-party for services rendered or products sold to us (other than our independent registered public accounting firm), or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amounts in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per public share due to reductions in the value of the trust assets, in each case net of the interest that may be withdrawn to pay our tax obligations, *provided* that such liability will not apply to any claims by a third-party or prospective target business that executed a waiver of any and all rights to seek access to the trust account nor will it apply to any claims under our indemnity of the underwriters of our Initial Public Offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third-party, our sponsor will not be responsible to the extent of any liability for such third-party claims. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our sponsor's only assets are securities of the Company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.00 per public share due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay our income tax obligations, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per public share.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of our Initial Public Offering against certain liabilities, including liabilities under the Securities Act. As of December 31, 2020, we had \$605,009 of cash held outside the trust account with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, shareholders who received funds from our trust account could be liable for claims made by creditors.

If we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy or insolvency law, and may be included in our bankruptcy or insolvency estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any bankruptcy or insolvency claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per public share to our public shareholders. Additionally, if we file a bankruptcy or insolvency petition or an involuntary bankruptcy or insolvency petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or bankruptcy or insolvency laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy or insolvency court could seek to recover some or all amounts received by our shareholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and the Company to claims of punitive damages, by paying public shareholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

[Table of Contents](#)

Our public shareholders will be entitled to receive funds from the trust account only (i) in the event of the redemption of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, (ii) in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial Business Combination or to redeem 100% of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares, or (iii) if they redeem their respective shares for cash upon the completion of the initial Business Combination. Public shareholders who redeem their Class A ordinary shares in connection with a shareholder vote described in clause (ii) in the preceding sentence shall not be entitled to funds from the trust account upon the subsequent completion of an initial Business Combination or liquidation if we have not consummated an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, with respect to such Class A ordinary shares so redeemed. In no other circumstances will a shareholder have any right or interest of any kind to or in the trust account. In the event we seek shareholder approval in connection with our initial Business Combination, a shareholder's voting in connection with the Business Combination alone will not result in a shareholder's redeeming its shares to us for an applicable pro rata share of the trust account. Such shareholder must have also exercised its redemption rights described above. These provisions of our amended and restated memorandum and articles of association, like all provisions of our amended and restated memorandum and articles of association, may be amended with a shareholder vote.

Employees

We currently have two executive officers. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial Business Combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial Business Combination and the stage of the Business Combination process we are in. We do not intend to have any full time employees prior to the completion of our initial Business Combination.

Periodic Reporting and Financial Information

We have registered our Units, Class A ordinary shares and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, this Annual Report contains financial statements audited and reported on by our independent registered public accountants.

We will provide shareholders with audited financial statements of CCC as part of the definitive Proxy Statement sent to shareholders.

We are required to evaluate our internal control procedures for the fiscal year ending December 31, 2021 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting.

We are a Cayman Islands exempted company. Exempted companies are Cayman Islands companies conducting business mainly outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Law. As an exempted company, we have applied for and received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Law (2018 Revision) of the Cayman Islands, for a period of 20 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations will apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax will be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us.

[Table of Contents](#)

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of our Initial Public Offering, (b) in which we have total annual gross revenue of at least \$1.07 billion or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A ordinary shares that are held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our ordinary shares held by non-affiliates exceeds \$250 million as of the prior June 30 and (2) our annual revenues exceeded \$100 million during such completed fiscal year or the market value of our ordinary shares held by non-affiliates exceeds \$700 million as of the prior June 30.

ITEM 1A. RISK FACTORS.

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this Annual Report on Form 10-K, before making a decision to invest in our securities. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

Risks Relating to our Search for, and Consummation of or Inability to Consummate, a Business Combination

Our shareholders may not be afforded an opportunity to vote on our proposed initial Business Combination, which means we may complete our initial Business Combination even though a majority of our shareholders do not support such a combination.

We will seek the approval of our shareholders to consummate the Proposed Business Combination. However, in the event that the Proposed Business Combination is not consummated, in connection with any alternative Business Combination, we may choose not to hold a shareholder vote before we complete our initial Business Combination if the Business Combination would not require shareholder approval under applicable law or stock exchange listing requirements. For instance, if we were seeking to acquire a target business where the consideration we were paying in the transaction was all cash, we would typically not be required to seek shareholder approval to complete such a transaction. Except for as required by applicable law or stock exchange listing requirements, the decision as to whether we will seek shareholder approval of a proposed Business Combination or will allow shareholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek shareholder approval. Accordingly, we may complete our initial Business Combination even if holders of a majority of our issued and outstanding ordinary shares do not approve of the Business Combination we complete.

Your only opportunity to affect the investment decision regarding a potential Business Combination may be limited to the exercise of your right to redeem your shares from us for cash.

You will not be provided with an opportunity to evaluate the specific merits or risks of any target businesses. Since our board of directors may complete a Business Combination without seeking shareholder approval, public shareholders may not have the right or opportunity to vote on the Business Combination, unless we seek such shareholder approval. Accordingly, your only opportunity to affect the investment decision regarding a potential Business Combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public shareholders in which we describe our initial Business Combination.

If we seek shareholder approval of our initial Business Combination, our sponsor and members of our management team have agreed to vote in favor of such initial Business Combination, regardless of how our public shareholders vote.

Our sponsor owns, on an as-converted basis, approximately 20% of our outstanding ordinary shares. Our sponsor and members of our management team also may from time to time purchase Class A ordinary shares prior to our initial Business Combination. Our amended and restated memorandum and articles of association provide that, if we seek shareholder approval, we will complete our initial Business Combination only if we obtain the approval of an ordinary resolution under Cayman Islands law, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of the Company. As a result, in addition to our initial shareholders' founder shares, we would need 25,875,001, or 37.5% (assuming all issued and outstanding shares are voted), or 4,312,501, or 6.25% (assuming only the minimum number of shares representing a quorum are voted), of the 69,000,000 public shares sold in our Initial Public Offering to be voted in favor of an initial Business Combination in order to have our initial Business Combination approved. Accordingly, if we seek shareholder approval of our initial Business Combination, the agreement by our sponsor and each member of our management team to vote in favor of our initial Business Combination will increase the likelihood that we will receive the requisite shareholder approval for such initial Business Combination.

The ability of our public shareholders to redeem their shares for cash may make our financial condition unattractive to potential Business Combination targets, which may make it difficult for us to enter into a Business Combination with a target.

We may seek to enter into a Business Combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public shareholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the Business Combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 either prior to or upon consummation of an initial Business Combination (so that we do not then become subject to the SEC's "penny stock" rules). Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 either prior to or upon consummation of an initial Business Combination or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related Business Combination and may instead search for an alternate Business Combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a Business Combination transaction with us.

The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable Business Combination or optimize our capital structure.

At the time we enter into an agreement for our initial Business Combination, we will not know how many shareholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If a large number of shares are submitted for redemption, we may need to restructure the transaction to reserve a greater portion of the cash in the Trust Account or arrange for additional third-party financing. Raising additional third-party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable Business Combination available to us or optimize our capital structure. The amount of the deferred underwriting commissions payable to the underwriters will not be adjusted for any shares that are redeemed in connection with an initial Business Combination. The per-share amount we will distribute to shareholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the amount held in trust will continue to reflect our obligation to pay the entire deferred underwriting commissions.

The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial Business Combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.

If our initial Business Combination agreement requires us to use a portion of the cash in the Trust Account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial Business Combination would be unsuccessful is increased. If our initial Business Combination is unsuccessful, you would not receive your pro rata portion of the funds in the Trust Account until we liquidate the Trust Account. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount per share in the Trust Account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your shares in the open market.

The requirement that we consummate an initial Business Combination within 24 months (or 27 months, as applicable) after the closing of our Initial Public Offering may give potential target businesses leverage over us in negotiating a Business Combination and may limit the time we have in which to conduct due diligence on potential Business Combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to complete our initial Business Combination on terms that would produce value for our shareholders.

Any potential target business with which we enter into negotiations concerning a Business Combination will be aware that we must consummate an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering. Consequently, such target business may obtain leverage over us in negotiating a Business Combination, knowing that if we do not complete our initial Business Combination with that particular target business, we may be unable to complete our initial Business Combination with any target business. This risk will increase as we get closer to the time frame described above. In addition, we may have limited time to conduct due diligence and may enter into our initial Business Combination on terms that we would have rejected upon a more comprehensive investigation.

Our search for a Business Combination, and any target business with which we ultimately consummate a Business Combination, may be materially adversely affected by the coronavirus (COVID-19) outbreak and the status of debt and equity markets.

In December 2019, a novel strain of coronavirus surfaced, which has and is continuing to spread throughout the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic”. The pandemic, together with resulting voluntary and U.S. federal and state and non-U.S. governmental actions, including, without limitation, mandatory business closures, public gathering limitations, restrictions on travel and quarantines, has meaningfully disrupted the global economy and markets. Although the long-term economic fallout of COVID-19 is difficult to predict, it has and is expected to continue to have ongoing material adverse effects across many, if not all, aspects of the regional, national and global economy. The COVID-19 outbreak has and a significant outbreak of other infectious diseases could result in a widespread health crisis that could adversely affect the economies and financial markets worldwide, and the business of any potential target business with which we consummate a Business Combination could be materially and adversely affected. Furthermore, we may be unable to complete a Business Combination if continued concerns relating to COVID-19 continues to restrict travel, limit the ability to have meetings with potential investors or the target company’s personnel, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner. The extent to which COVID-19 impacts our search for a Business Combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 any potential resurgences of COVID-19, and the actions to contain COVID-19 or treat its impact, including the application and distribution in certain countries of currently available and approved vaccinations, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extensive period of time, our ability to consummate a Business Combination, or the operations of a target business with which we ultimately consummate a Business Combination, may be materially adversely affected.

In addition, our ability to consummate a transaction may be dependent on the ability to raise equity and debt financing which may be impacted by COVID-19 and other events, including as a result of increased market volatility, decreased market liquidity and third-party financing being unavailable on terms acceptable to us or at all.

We may not be able to consummate an initial Business Combination within 24 months (or 27 months, as applicable) after the closing of our Initial Public Offering, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate.

We may not be able to find a suitable target business and consummate an initial Business Combination within 24 months (or 27 months, as applicable) after the closing of our Initial Public Offering. Our ability to complete our initial Business Combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein. For example, the outbreak of COVID-19 continues to spread both in the U.S. and globally and, while the extent of the impact of the outbreak on us will depend on future developments, it could limit our ability to complete our initial Business Combination, including as a result of increased market volatility, decreased market liquidity and third-party financing being unavailable on terms acceptable to us or at all. Additionally, the outbreak of COVID-19 may negatively impact businesses we may seek to acquire. If we have not consummated an initial Business Combination within such applicable time period, we will: (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay our income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of the then-outstanding public shares, which redemption will

[Table of Contents](#)

completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii), to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. Our amended and restated memorandum and articles of association provide that, if we wind up for any other reason prior to the consummation of our initial Business Combination, we will follow the foregoing procedures with respect to the liquidation of the Trust Account as promptly as reasonably possible but not more than ten business days thereafter, subject to applicable Cayman Islands law. In either such case, our public shareholders may receive only \$10.00 per public share, or less than \$10.00 per public share, on the redemption of their shares, and our warrants will expire worthless. See "-If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share" and other risk factors herein.

If we seek shareholder approval of our initial Business Combination, our sponsor, directors, executive officers, advisors and their affiliates may elect to purchase public shares or warrants, which may influence a vote on a proposed Business Combination and reduce the public "float" of our Class A ordinary shares or public warrants.

If we seek shareholder approval of our initial Business Combination and we do not conduct redemptions in connection with our initial Business Combination pursuant to the tender offer rules, our sponsor, directors, executive officers, advisors or their affiliates may purchase public shares or warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial Business Combination, although, other than the Dragoneer Funding forward purchase agreement, they are under no obligation to do so. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the Trust Account will be used to purchase public shares or warrants in such transactions.

In the event that our sponsor, directors, executive officers, advisors or their affiliates purchase shares in privately negotiated transactions from public shareholders who have already elected to exercise their redemption rights, such selling shareholders would be required to revoke their prior elections to redeem their shares. The purpose of any such transaction could be to (1) vote in favor of the Business Combination and thereby increase the likelihood of obtaining shareholder approval of the Business Combination, (2) reduce the number of public warrants outstanding or vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial Business Combination or (3) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial Business Combination, where it appears that such requirement would otherwise not be met. Any such purchases of our securities may result in the completion of our initial Business Combination that may not otherwise have been possible. In addition, if such purchases are made, the public "float" of our Class A ordinary shares or public warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

If a shareholder fails to receive notice of our offer to redeem our public shares in connection with our initial Business Combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the proxy rules or tender offer rules, as applicable, when conducting redemptions in connection with our initial Business Combination. Despite our compliance with these rules, if a shareholder fails to receive our proxy solicitation or tender offer materials, as applicable, such shareholder may not become aware of the opportunity to redeem its shares. In addition, the proxy solicitation or tender offer materials, as applicable, that we will furnish to holders of our public shares in connection with our initial Business Combination will describe the various procedures that must be complied with in order to validly redeem or tender public shares. In the event that a shareholder fails to comply with these procedures, its shares may not be redeemed.

You will not have any rights or interests in funds from the Trust Account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public shareholders will be entitled to receive funds from the Trust Account only upon the earliest to occur of: (i) our completion of an initial Business Combination, and then only in connection with those Class A ordinary shares that such shareholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of any public shares properly tendered in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial Business Combination or to redeem 100% of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares, and (iii) the redemption of our public shares if we have not consummated an initial business within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, subject to applicable law and as further described herein. Public shareholders who redeem their Class A ordinary shares in connection with a shareholder vote described in clause (ii) in the preceding sentence shall not be entitled to funds from the Trust Account upon the subsequent completion of an initial Business Combination or liquidation if we have not consummated an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, with respect to such Class A ordinary shares so redeemed. In no other circumstances will a public shareholder have any right or interest of any kind in the Trust Account. Holders of warrants will not have any right to the proceeds held in the Trust Account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of our Initial Public Offering and the sale of the private placement warrants are intended to be used to complete an initial Business Combination with a target business that has not been selected, we may be deemed to be a “blank check” company under the United States securities laws. However, because we have net tangible assets in excess of \$5,000,000, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units were immediately tradable after our Initial Public Offering and we have a longer period of time to complete our initial Business Combination than do companies subject to Rule 419. Moreover, if we were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the Trust Account to us unless and until the funds in the Trust Account were released to us in connection with our completion of an initial Business Combination.

If we seek shareholder approval of our initial Business Combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of shareholders are deemed to hold in excess of 15% of our Class A ordinary shares, you will lose the ability to redeem all such shares in excess of 15% of our Class A ordinary shares.

If we seek shareholder approval of our initial Business Combination and we do not conduct redemptions in connection with our initial Business Combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in our Initial Public Offering, which we refer to as the “Excess Shares,” without our prior consent. However, we would not be restricting our shareholders’ ability to vote all of their shares (including Excess Shares) for or against our initial Business Combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial Business Combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial Business Combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your shares in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for Business Combination opportunities, it may be more difficult for us to complete our initial Business Combination. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our Trust Account and our warrants will expire worthless.

[Table of Contents](#)

We expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of our Initial Public Offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, we are obligated to offer holders of our public shares the right to redeem their shares for cash at the time of our initial Business Combination in conjunction with a shareholder vote or via a tender offer. Target companies will be aware that this may reduce the resources available to us for our initial Business Combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a Business Combination. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our Trust Account and our warrants will expire worthless. See “-If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share” and other risk factors herein.

If the net proceeds of our Initial Public Offering and the sale of the private placement warrants not being held in the Trust Account are insufficient to allow us to operate for the 24 months (or 27 months, as applicable) following the closing of our Initial Public Offering, it could limit the amount available to fund our search for a target business or businesses and our ability to complete our initial Business Combination, and we will depend on loans from our sponsor, its affiliates or members of our management team to fund our search and to complete our initial Business Combination.

As of December 31, 2020, we had \$605,009 of cash available to us outside the Trust Account to fund our working capital requirements. We believe that the funds available to us outside of the Trust Account, together with funds available from loans from our sponsor, its affiliates or members of our management team will be sufficient to allow us to operate for at least the 24 months (or 27 months, as applicable) following the closing of our Initial Public Offering; however, we cannot assure you that our estimate is accurate, and our sponsor, its affiliates or members of our management team are under no obligation to advance funds to us in such circumstances. Of the funds available to us, we expect to use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed Business Combination, although we do not have any current intention to do so. If we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business.

If we are required to seek additional capital, we will need to borrow funds from our sponsor, its affiliates, members of our management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor their affiliates is under any obligation to us in such circumstances. Any such advances may be repaid only from funds held outside the Trust Account or from funds released to us upon completion of our initial Business Combination. Up to \$2,000,000 of such loans may be convertible into warrants of the post-Business Combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Prior to the completion of our initial Business Combination, we do not expect to seek loans from parties other than our sponsor, its affiliates or members of our management team as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our Trust Account. If we have not consummated our initial Business Combination within the required time period because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. Consequently, our public shareholders may only receive an estimated \$10.00 per public share, or possibly less, on our redemption of our public shares, and our warrants will expire worthless. See “- If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share” and other risk factors herein.

If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share.

Our placing of funds in the Trust Account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers, prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the Trust Account for the benefit of our public shareholders, such parties may not execute such agreements, or even if they execute such agreements, they may not be prevented from bringing claims against the Trust Account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the Trust Account. If any third-party refuses to execute an agreement waiving such claims to the monies held in the Trust Account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third-party that has not executed a waiver if management believes that such third-party's engagement would be significantly more beneficial to us than any alternative.

Examples of possible instances where we may engage a third-party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the Trust Account for any reason. Upon redemption of our public shares, if we have not consummated an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, or upon the exercise of a redemption right in connection with our initial Business Combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the ten years following redemption. Accordingly, the per-share redemption amount received by public shareholders could be less than the \$10.00 per public share initially held in the Trust Account, due to claims of such creditors. Pursuant to a letter agreement between us, our sponsor, and our directors and officers, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third-party (other than our independent auditors) for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amounts in the Trust Account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account if less than \$10.00 per public share due to reductions in the value of the trust assets, in each case net of the interest that may be withdrawn to pay our tax obligations, *provided* that such liability will not apply to any claims by a third-party or prospective target business that executed a waiver of any and all rights to seek access to the Trust Account nor will it apply to any claims under our indemnity of the underwriters of our Initial Public Offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third-party, our sponsor will not be responsible to the extent of any liability for such third-party claims.

However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our sponsor's only assets are securities of the Company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the Trust Account, the funds available for our initial Business Combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial Business Combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

The securities in which we invest the proceeds held in the Trust Account could bear a negative rate of interest, which could reduce the interest income available for payment of taxes or reduce the value of the assets held in trust such that the per share redemption amount received by shareholders may be less than \$10.00 per share.

[Table of Contents](#)

The net proceeds of our Initial Public Offering and certain proceeds from the sale of the private placement warrants, in the amount of \$690,000,000, are held in an interest-bearing Trust Account. The proceeds held in the Trust Account may only be invested in direct U.S. Treasury obligations having a maturity of 185 days or less, or in certain money market funds which invest only in direct U.S. Treasury obligations. While short-term U.S. Treasury obligations currently yield a positive rate of interest, they have briefly yielded negative interest rates in recent years. Central banks in Europe and Japan pursued interest rates below zero in recent years, and the Open Market Committee of the Federal Reserve has not ruled out the possibility that it may in the future adopt similar policies in the United States. In the event of very low or negative yields, the amount of interest income (which we may withdraw to pay income taxes, if any) would be reduced. In the event that we are unable to complete our initial Business Combination, our public shareholders are entitled to receive their pro-rata share of the proceeds held in the Trust Account, plus any interest income. If the balance of the Trust Account is reduced below \$690,000,000 as a result of negative interest rates, the amount of funds in the Trust Account available for distribution to our public shareholders may be reduced below \$10.00 per share.

Because we are neither limited to evaluating a target business in a particular industry sector nor have we selected any specific target businesses with which to pursue our initial Business Combination, you will be unable to ascertain the merits or risks of any particular target business's operations.

We may pursue Business Combination opportunities in any sector, except that we will not, under our amended and restated memorandum and articles of association, be permitted to effectuate our initial Business Combination solely with another blank check company or similar company with nominal operations. To the extent we complete our initial Business Combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the significant risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess some or all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our securities will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a Business Combination target. Accordingly, any holders who choose to retain their securities following the Business Combination could suffer a reduction in the value of their securities. Such holders are unlikely to have a remedy for such reduction in value.

We may seek acquisition opportunities in industries or sectors which may or may not be outside of our management's area of expertise.

We will consider a Business Combination outside of our management's area of expertise if a Business Combination target is presented to us and we determine that such candidate offers an attractive acquisition opportunity for the Company. Although our management will endeavor to evaluate the significant risks inherent in any particular Business Combination target, we cannot assure you that we will adequately ascertain or assess some or all of the significant risk factors. We also cannot assure you that an investment in our securities will not ultimately prove to be less favorable to investors than a direct investment, if an opportunity were available, in a Business Combination target. In the event we elect to pursue an acquisition outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this Annual Report on Form 10-K regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to adequately ascertain or assess some or all of the significant risk factors. Accordingly, any holders who choose to retain their securities following the Business Combination could suffer a reduction in the value of their securities. Such holders are unlikely to have a remedy for such reduction in value.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial Business Combination with a target that does not meet any or all such criteria and guidelines, and as a result, the target business with which we enter into our initial Business Combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, including the Proposed Business Combination, it is possible that a target business with which we enter into our initial Business Combination will not have any or all of these positive attributes. If we complete our initial Business Combination with a target that does not meet any or all of these guidelines, such combination may not be as successful as a combination with a business that does meet some or all of our general criteria and guidelines. In addition, if we announce a prospective Business Combination with a target that does not meet any or all of our general criteria and guidelines, a greater number of shareholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if shareholder approval of the transaction is required by applicable law or stock exchange listing requirements, or we decide to obtain shareholder approval for business or other reasons, it may be more difficult for us to attain shareholder approval of our initial Business Combination if the target business does not meet any or all of our general criteria and guidelines. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our Trust Account and our warrants will expire worthless. See “-If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share” and other risk factors herein.

We are not required to obtain an opinion from an independent accounting or investment banking firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our shareholders from a financial point of view.

Unless we complete our initial Business Combination with an affiliated entity and are required by applicable law or by our board of directors, we are not otherwise required to obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions that the price we are paying is fair to our shareholders from a financial point of view. If no opinion is obtained, our shareholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy solicitation or tender offer materials, as applicable, related to our initial Business Combination.

We may issue additional Class A ordinary shares or preference shares to complete our initial Business Combination or under an employee incentive plan after completion of our initial Business Combination. We may also issue Class A ordinary shares upon the conversion of the founder shares at a ratio greater than one-to-one at the time of our initial Business Combination as a result of the anti-dilution provisions contained in our amended and restated memorandum and articles of association. Any such issuances would dilute the interest of our shareholders and likely present other risks.

Our amended and restated memorandum and articles of association authorize the issuance of up to 200,000,000 Class A ordinary shares, par value \$0.0001 per share, 20,000,000 Class B ordinary shares, par value \$0.0001 per share, and 1,000,000 preference shares, par value \$0.0001 per share. There are currently 140,000,000 and 5,000,000 authorized but unissued Class A ordinary shares and Class B ordinary shares, respectively, available for issuance which amount does not take into account shares reserved for issuance upon exercise of outstanding warrants or shares issuable upon conversion of the Class B ordinary shares, if any, or any shares issued upon the sale of the forward purchase shares or upon the exercise of the forward purchase warrants. The Class B ordinary shares will automatically convert into Class A ordinary shares (which such Class A ordinary shares delivered upon conversion will not have any redemption rights or be entitled to liquidating distributions from the Trust Account if we fail to consummate an initial Business Combination) at the time of our initial Business Combination or earlier at the option of the holders thereof as described herein and in our amended and restated memorandum and articles of association. There are no preference shares issued and outstanding.

We may issue a substantial number of additional Class A ordinary shares or preference shares to complete our initial Business Combination or under an employee incentive plan after completion of our initial Business Combination. We may also issue Class A ordinary shares in connection with our redeeming the warrants as described in “Description of Securities-Warrants-Public Shareholders’ Warrants” or upon conversion of the Class B ordinary shares at a ratio greater than one-to-one at the time of our initial Business Combination as a result of the anti-dilution provisions as set forth herein. However, our amended and restated memorandum and articles of association provide, among other things, that prior to or in connection with our initial Business Combination, we may not issue additional shares that would entitle the holders thereof to (i) receive funds from the Trust Account or (ii) vote on any initial Business Combination or on any other proposal presented to shareholders prior to or in connection with the completion of an initial Business Combination. These provisions of our amended and restated memorandum and articles of association, like all provisions of our amended and restated memorandum and articles of association, may be amended with a shareholder vote. The issuance of additional ordinary or preference shares, including the issuance of the forward purchase securities:

Table of Contents

- may significantly dilute the equity interest of current investors, which dilution would increase if the anti-dilution provisions in the Class B ordinary shares resulted in the issuance of Class A ordinary shares on a greater than one-to-one basis upon conversion of the Class B ordinary shares;
- may subordinate the rights of holders of Class A ordinary shares if preference shares are issued with rights senior to those afforded our Class A ordinary shares;
- could cause a change in control if a substantial number of Class A ordinary shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us;
- may adversely affect prevailing market prices for our units, Class A ordinary shares and/or warrants; and
- may not result in adjustment to the exercise price of our warrants.

Unlike some other similarly structured blank check companies, our sponsor will receive additional Class A ordinary shares if we issue shares to consummate an initial Business Combination.

The founder shares will automatically convert into Class A ordinary shares (which such Class A ordinary shares delivered upon conversion will not have any redemption rights or be entitled to liquidating distributions from the Trust Account if we fail to consummate an initial Business Combination) at the time of our initial Business Combination or earlier at the option of the holders thereof at a ratio such that the number of Class A ordinary shares issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of ordinary shares issued and outstanding upon completion of our Initial Public Offering, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding the forward purchase securities and any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in the initial Business Combination and any private placement warrants issued to our sponsor, any of its affiliates or any members of our management team upon conversion of working capital loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one. This is different than some other similarly structured blank check companies in which the initial shareholders will only be issued an aggregate of 20% of the total number of shares to be outstanding prior to the initial Business Combination.

Resources could be wasted in researching acquisitions that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our Trust Account and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys, consultants, and others. If we decide not to complete a specific initial Business Combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial Business Combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our Trust Account and our warrants will expire worthless. See “-If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share” and other risk factors herein.

We may have a limited ability to assess the management of a prospective target business and, as a result, may affect our initial Business Combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial Business Combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target business's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target business's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any holders who choose to retain their securities following the Business Combination could suffer a reduction in the value of their securities. Such holders are unlikely to have a remedy for such reduction in value.

Our directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the Trust Account available for distribution to our public shareholders.

In the event that the proceeds in the Trust Account are reduced below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account if less than \$10.00 per public share due to reductions in the value of the trust assets, in each case net of the interest that may be withdrawn to pay our tax obligations, and our sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the Trust Account available for distribution to our public shareholders may be reduced below \$10.00 per public share. See “—If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share” and other risk factors herein.

We may not have sufficient funds to satisfy indemnification claims of our directors and executive officers.

We have agreed to indemnify our officers and directors to the fullest extent permitted by law. However, our officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the Trust Account and to not seek recourse against the Trust Account for any reason whatsoever (except to the extent they are entitled to funds from the Trust Account due to their ownership of public shares). Accordingly, any indemnification provided will be able to be satisfied by us only if (i) we have sufficient funds outside of the Trust Account or (ii) we consummate an initial Business Combination. Our obligation to indemnify our officers and directors may discourage shareholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our shareholders. Furthermore, a shareholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

If, after we distribute the proceeds in the Trust Account to our public shareholders, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, a bankruptcy or insolvency court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the Trust Account to our public shareholders, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or bankruptcy or insolvency laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy or insolvency court could seek to recover some or all amounts received by our shareholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public shareholders from the Trust Account prior to addressing the claims of creditors.

If, before distributing the proceeds in the Trust Account to our public shareholders, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our shareholders and the per-share amount that would otherwise be received by our shareholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the Trust Account to our public shareholders, we file a bankruptcy or winding-up petition or an involuntary bankruptcy or winding-up petition is filed against us that is not dismissed, the proceeds held in the Trust Account could be subject to applicable bankruptcy or insolvency law, and may be included in our bankruptcy or insolvency estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any bankruptcy or insolvency claims deplete the Trust Account, the per-share amount that would otherwise be received by our shareholders in connection with our liquidation may be reduced.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial Business Combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities,

each of which may make it difficult for us to complete our initial Business Combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company with the SEC;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations that we are currently not subject to.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading “investment securities” constituting more than 40% of our assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a Business Combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the Trust Account may only be invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. Our securities are not intended for persons who are seeking a return on investments in government securities or investment securities. The Trust Account is intended as a holding place for funds pending the earliest to occur of either: (i) the completion of our initial Business Combination; (ii) the redemption of any public shares properly tendered in connection with a

shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial Business Combination or to redeem 100% of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares; or (iii) absent our completing an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, our return of the funds held in the Trust Account to our public shareholders as part of our redemption of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a Business Combination. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our Trust Account and our warrants will expire worthless. See “-If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share” and other risk factors herein.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial Business Combination, and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial Business Combination, and results of operations.

If we have not consummated an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, our public shareholders may be forced to wait beyond such 24 months (or 27 months, as applicable) before redemption from our Trust Account.

If we have not consummated an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, the proceeds then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay our income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), will be used to fund the redemption of our public shares, as further described herein. Any redemption of public shareholders from the Trust Account will be effected automatically by function of our amended and restated memorandum and articles of association prior to any voluntary winding up. If we are required to wind up, liquidate the Trust Account and distribute such amount therein, pro rata, to our public shareholders, as part of any liquidation process, such winding up, liquidation and distribution must comply with the applicable provisions of the Companies Law. In that case, investors may be forced to wait beyond 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering before the redemption proceeds of our Trust Account become available to them, and they receive the return of their pro rata portion of the proceeds from our Trust Account. We have no obligation to return funds to investors prior to the date of our redemption or liquidation unless, prior thereto, we consummate our initial Business Combination or amend certain provisions of our amended and restated memorandum and articles of association, and only then in cases where investors have sought to redeem their Class A ordinary shares. Only upon our redemption or any liquidation will public shareholders be entitled to distributions if we do not complete our initial Business Combination and do not amend certain provisions of our amended and restated memorandum and articles of association. Our amended and restated memorandum and articles of association provide that, if we wind up for any other reason prior to the consummation of our initial Business Combination, we will follow the foregoing procedures with respect to the liquidation of the Trust Account as promptly as reasonably possible but not more than ten business days thereafter, subject to applicable Cayman Islands law.

Our shareholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

If we are forced to enter into an insolvent liquidation, any distributions received by shareholders could be viewed as an unlawful payment if it were proved that immediately following the date on which the distribution was made, we were unable to pay our debts as they fall due in the ordinary course of business. As a result, a liquidator could seek to recover some or all amounts received by our shareholders. Furthermore, our directors may be viewed as having breached their fiduciary duties to us or our creditors and/or may have acted in bad faith, thereby exposing themselves and the Company to claims, by paying public shareholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons. We and our directors and officers who knowingly and willfully authorized or permitted any distribution to be paid out of our share premium account while we were unable to pay our debts as they fall due in the ordinary course of business would be guilty of an offence and may be liable for a fine of \$18,292.68 and imprisonment for five years in the Cayman Islands.

We may not hold an annual general meeting until after the consummation of our initial Business Combination.

In accordance with the NYSE corporate governance requirements, we are not required to hold an annual general meeting until one year after our first fiscal year end following our listing on the NYSE. There is no requirement under the Companies Law for us to hold annual or extraordinary general meetings to appoint directors. Until we hold an annual general meeting, public shareholders may not be afforded the opportunity to appoint directors and to discuss company affairs with management. Our board of directors is divided into three classes with only one class of directors being appointed in each year and each class (except for those directors appointed prior to our first annual general meeting) serving a three-year term.

Holders of Class A ordinary shares will not be entitled to vote on any appointment of directors we hold prior to our initial Business Combination.

Prior to our initial Business Combination, only holders of our founder shares will have the right to vote on the appointment of directors. Holders of our public shares will not be entitled to vote on the appointment of directors during such time. In addition, prior to our initial Business Combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. Accordingly, you may not have any say in the management of the Company prior to the consummation of an initial Business Combination.

We may have a limited ability to assess the management of a prospective target business and, as a result, may affect our initial Business Combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial Business Combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target business's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target business's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any holders who choose to retain their securities following the Business Combination could suffer a reduction in the value of their securities. Such holders are unlikely to have a remedy for such reduction in value.

We may engage in a Business Combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsor, executive officers, directors or initial shareholders which may raise potential conflicts of interest.

In light of the involvement of our sponsor, executive officers and directors with other entities (including Dragoneer II and Dragoneer III), we may decide to acquire one or more businesses affiliated with our sponsor, executive officers, directors or initial shareholders. Our directors also serve as officers and board members for other entities. Our Founders, sponsor, officers and directors may sponsor, form or participate in other blank check companies similar to ours during the period in which we are seeking an initial Business Combination. Further, affiliates of our sponsor are currently sponsoring two other blank check companies, Dragoneer II and Dragoneer III, incorporated for substantially similar purposes as our company. Such entities may compete with us for Business Combination opportunities. Our Founders, sponsor, officers and directors are not currently aware of any specific

opportunities for us to complete our initial Business Combination with any entities with which they are affiliated. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met any or all of our criteria and guidelines for a Business Combination as set forth in “Proposed Business-Effecting Our Initial Business Combination-Evaluation of a Target Business and Structuring of Our Initial Business Combination” and such transaction was approved by a majority of our independent and disinterested directors. Despite our agreement to obtain, if required by applicable law or based upon the decision of our board of directors or a committee thereof, an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions regarding the fairness to our company from a financial point of view of a Business Combination with one or more domestic or international businesses affiliated with our sponsor, executive officers, directors or initial shareholders, potential conflicts of interest still may exist and, as a result, the terms of the Business Combination may not be as advantageous to our public shareholders as they would be absent any conflicts of interest.

Moreover, we may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity affiliated with Dragoneer and/or one or more investors in funds managed by Dragoneer. Any such parties may co-invest with us in the target business at the time of our initial Business Combination, or we could raise additional proceeds to complete the acquisition by making a specified future issuance to any such parties.

Since our sponsor, executive officers and directors will lose their entire investment in us if our initial Business Combination is not completed (other than with respect to public shares they may acquire), a conflict of interest may arise in determining whether a particular Business Combination target is appropriate for our initial Business Combination.

On July 10, 2020, our sponsor paid \$25,000, or approximately \$0.001 per share, to cover certain of our offering and formation costs in consideration of 17,250,000 Class B ordinary shares, par value \$0.0001. In July 2020, our sponsor transferred 75,000 Class B ordinary shares to each of our independent directors. Prior to the initial investment in the Company of \$25,000 by the sponsor, the Company had no assets, tangible or intangible. The per share price of the founder shares was determined by dividing the amount contributed to the Company by the number of founder shares issued. The founder shares will be worthless if we do not complete an initial Business Combination. In addition, our sponsor has purchased an aggregate of 15,800,000 private placement warrants, each exercisable to purchase one Class A ordinary share at \$11.50 per share, subject to adjustment, at a price of \$1.00 per warrant (\$15,800,000 in the aggregate), in a private placement that closed simultaneously with the closing of our Initial Public Offering. If we do not consummate an initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering, the private placement warrants will expire worthless. The personal and financial interests of our executive officers and directors may influence their motivation in identifying and selecting a target Business Combination, completing an initial Business Combination and influencing the operation of the business following the initial Business Combination. This risk may become more acute as the 24-month anniversary of the closing of our Initial Public Offering nears, which is generally the deadline for our consummation of an initial Business Combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a Business Combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our shareholders’ investment in us.

Although we have no commitments as of December 31, 2020 to issue any notes or other debt securities, or to otherwise incur outstanding debt, we may choose to incur substantial debt to complete our initial Business Combination. We and our officers have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the Trust Account. As such, no issuance of debt will affect the per-share amount available for redemption from the Trust Account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial Business Combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt is outstanding;

Table of Contents

- our inability to pay dividends on our Class A ordinary shares;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A ordinary shares if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one Business Combination with the proceeds of our Initial Public Offering and the sale of the private placement warrants and forward purchase units, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

The net proceeds from our Initial Public Offering and the sale of the private placement warrants and the sale of \$175,000,000 of forward purchase units will provide us with up to \$841,850,000 that we may use to complete our initial business combination (after taking into account the \$24,150,000 of deferred underwriting commissions being held in the trust account and the expenses of our Initial Public Offering).

We may effectuate our initial Business Combination with a single-target business or multiple-target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial Business Combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial Business Combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several Business Combinations in different industries or different areas of a single industry.

Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset; or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial Business Combination.

We may attempt to simultaneously complete Business Combinations with multiple prospective targets, which may hinder our ability to complete our initial Business Combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other Business Combinations, which may make it more difficult for us, and delay our ability, to complete our initial Business Combination. With multiple Business Combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial Business Combination with a private company about which little information is available, which may result in a Business Combination with a company that is not as successful as we suspected, if at all.

In pursuing our acquisition strategy, we may seek to effectuate our initial Business Combination with a privately held company. Very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial Business Combination on the basis of limited information, which may result in a Business Combination with a company that is not as successful as we suspected, if at all.

Our management may not maintain control of a target business after our initial Business Combination. Upon the loss of control of a target business, new management may not possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure our initial Business Combination so that the post-Business Combination company in which our public shareholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such Business Combination if the post-Business Combination company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-Business Combination company owns 50% or more of the voting securities of the target, our shareholders prior to our initial Business Combination may collectively own a minority interest in the post-Business Combination company, depending on valuations ascribed to the target and us in the Business Combination. For example, we could pursue a transaction in which we issue a substantial number of new Class A ordinary shares in exchange for all of the outstanding capital stock, shares or other equity interests of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new Class A ordinary shares, our shareholders immediately prior to such transaction could own less than a majority of our outstanding Class A ordinary shares subsequent to such transaction. In addition, other minority shareholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of our company's shares than we initially acquired. Accordingly, this may make it more likely that our management will not have control of the target business.

We may seek Business Combination opportunities with a high degree of complexity that require significant operational improvements, which could delay or prevent us from achieving our desired results.

We may seek Business Combination opportunities with large, highly complex companies that we believe would benefit from operational improvements. To the extent that our efforts are delayed, we are unable to achieve the desired improvements, or we are not involved in the management of the post-Business Combination company, the Business Combination may not be as successful as we anticipate.

To the extent we complete our initial Business Combination with a large complex business or entity with a complex operating structure, we may also be affected by numerous risks inherent in the operations of the business with which we combine, which could delay or prevent us from implementing our strategy. Although our management team will endeavor to evaluate the significant risks inherent in a particular target business and its operations, we may not be able to properly ascertain or assess some or all of the significant risk factors until we complete our Business Combination. If we are not able to achieve our desired operational improvements, or the improvements take longer to implement than anticipated, we may not achieve the gains that we anticipate. Furthermore, some of these risks and complexities may be outside of our control and leave us with no ability to control or reduce the chances that those risks and complexities will adversely impact a target business. Such combination may not be as successful as a combination with a smaller, less complex organization.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete our initial Business Combination with which a substantial majority of our shareholders do not agree.

Our amended and restated memorandum and articles of association do not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 either prior to or upon consummation of an initial Business Combination (so that we do not then become subject to the SEC's "penny stock" rules). As a result, we may be able to complete our initial Business Combination even though a substantial majority of our public shareholders do not

agree with the transaction and have redeemed their shares or, if we seek shareholder approval of our initial Business Combination and do not conduct redemptions in connection with our initial Business Combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or their affiliates. In the event the aggregate cash consideration we would be required to pay for all Class A ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed Business Combination exceed the aggregate amount of cash available to us, we will not complete the Business Combination or redeem any shares, all Class A ordinary shares submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate Business Combination.

In order to effectuate an initial Business Combination, blank check companies have, in the recent past, amended various provisions of their charters and other governing instruments, including their warrant agreements. We cannot assure you that we will not seek to amend our amended and restated memorandum and articles of association or governing instruments in a manner that will make it easier for us to complete our initial Business Combination that our shareholders may not support.

In order to effectuate a Business Combination, blank check companies have, in the recent past, amended various provisions of their charters and governing instruments, including their warrant agreements. For example, blank check companies have amended the definition of Business Combination, increased redemption thresholds, extended the time to consummate an initial Business Combination and, with respect to their warrants, amended their warrant agreements to require the warrants to be exchanged for cash and/or other securities. Amending our amended and restated memorandum and articles of association requires at least a special resolution of our shareholders as a matter of Cayman Islands law, meaning the approval of holders of at least two-thirds of our ordinary shares who attend and vote at a general meeting of the Company, and amending our warrant agreement will require a vote of holders of at least 50% of the public warrants, solely with respect to any amendment to the terms of the private placement warrants or any provision of the warrant agreement with respect to the private placement warrants, 50% of the number of the then outstanding private placement warrants and, solely with respect to any amendment to the terms of the forward purchase warrants or any provision of the warrant agreement with respect to the forward purchase warrants, 50% of the number of the then outstanding forward purchase warrants. In addition, our amended and restated memorandum and articles of association require us to provide our public shareholders with the opportunity to redeem their public shares for cash if we propose an amendment to our amended and restated memorandum and articles of association (A) that would modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial Business Combination or to redeem 100% of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares. To the extent any of such amendments would be deemed to fundamentally change the nature of any of the securities offered through this registration statement, we would register, or seek an exemption from registration for, the affected securities.

Because we must furnish our shareholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial Business Combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a Business Combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financial reporting standards as issued by the International Accounting Standards Board, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial Business Combination within the prescribed time frame.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate a Business Combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2021. Only in the event we are deemed to be a large accelerated filer or an accelerated filer and no longer qualify as an emerging growth company, will we not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target business with which we seek to complete our initial Business Combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

As the number of special purpose acquisition companies evaluating targets increases, attractive targets may become scarcer and there may be more competition for attractive targets. This could increase the cost of our initial Business Combination and could even result in our inability to find a target or to consummate an initial Business Combination.

In recent years, the number of special purpose acquisition companies that have been formed has increased substantially. Many potential targets for special purpose acquisition companies have already entered into an initial Business Combination, and there are still many special purpose acquisition companies seeking targets for their initial Business Combination, as well as many such companies currently in registration. As a result, at times, fewer attractive targets may be available, and it may require more time, more effort and more resources to identify a suitable target and to consummate an initial Business Combination.

In addition, because there are more special purpose acquisition companies seeking to enter into an initial Business Combination with available targets, the competition for available targets with attractive fundamentals or business models may increase, which could cause target companies to demand improved financial terms. Attractive deals could also become scarcer for other reasons, such as economic or industry sector downturns, geopolitical tensions, or increases in the cost of additional capital needed to close Business Combinations or operate targets post- Business Combination. This could increase the cost of, delay or otherwise complicate or frustrate our ability to find and consummate an initial Business Combination, and may result in our inability to consummate an initial Business Combination on terms favorable to our investors altogether.

We may engage one or more of our underwriters or one of their respective affiliates to provide additional services to us after this offering, which may include acting as financial advisor in connection with an initial Business Combination or as placement agent in connection with a related financing transaction. Our underwriters are entitled to receive deferred commissions that will be released from the trust only on a completion of an initial Business Combination. These financial incentives may cause them to have potential conflicts of interest in rendering any such additional services to us after this offering, including, for example, in connection with the sourcing and consummation of an initial Business Combination.

We may engage one or more of our underwriters or one of their respective affiliates to provide additional services to us after this offering, including, for example, identifying potential targets, providing financial advisory services, acting as a placement agent in a private offering or arranging debt financing. We may pay such underwriter or its affiliate fair and reasonable fees or other compensation that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with any of the underwriters or their respective affiliates and no fees or other compensation for such services will be paid to any of the underwriters or their respective affiliates prior to the date that is 60 days from the date of this prospectus, unless such payment would not be deemed underwriters' compensation in connection with this offering. The underwriters are also entitled to receive deferred commissions that are conditioned on the completion of an initial Business Combination. The underwriters' or their respective affiliates' financial interests tied to the consummation of a Business Combination transaction may give rise to potential conflicts of interest in providing any such additional services to us, including potential conflicts of interest in connection with the sourcing and consummation of an initial Business Combination.

We may issue our shares to investors in connection with our initial Business Combination at a price which is less than the prevailing market price of our shares at that time.

In connection with our initial Business Combination, we may issue shares to investors in private placement transactions (so-called PIPE transactions) at a price of \$10.00 per share or which approximates the per-share amounts in our trust account at such time, which is generally approximately \$10.00. The purpose of such issuances will be to enable us to provide sufficient liquidity to the post- Business Combination entity. The price of the shares we issue may therefore be less, and potentially significantly less, than the market price for our shares at such time.

Risks Relating to the Post-Business Combination Company

Subsequent to our completion of our initial Business Combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and the price of our securities, which could cause you to lose some or all of your investment.

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will identify all material issues with a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing. Accordingly, any holders who choose to retain their securities following the Business Combination could suffer a reduction in the value of their securities. Such holders are unlikely to have a remedy for such reduction in value.

The officers and directors of an acquisition candidate may resign upon completion of our initial Business Combination. The loss of a Business Combination target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the completion of our initial Business Combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial Business Combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

Our sponsor controls a substantial interest in us and thus may exert a substantial influence on actions requiring a shareholder vote, potentially in a manner that you do not support.

Our sponsor owns, on an as-converted basis, approximately 20% of our issued and outstanding ordinary shares. Accordingly, it may exert a substantial influence on actions requiring a shareholder vote, potentially in a manner that you do not support, including amendments to our amended and restated memorandum and articles of association. If our sponsor purchases any additional Class A ordinary shares in the aftermarket or in privately negotiated transactions, this would increase its control. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A ordinary shares. In addition, our board of directors, whose members were appointed by our sponsor, is and will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being appointed in each year. We may not hold an annual general meeting to appoint new directors prior to the completion of our initial Business Combination, in which case all of the current directors will continue in office until at least the completion of the Business Combination. If there is an annual general meeting, as a consequence of our "staggered" board of directors, only a minority of the board of directors will be considered for appointment and our sponsor, because of its ownership position, will control the outcome, as only holders of our Class B ordinary shares will have the right to vote on the appointment of directors and to remove directors prior to our initial Business Combination. In addition, the founder shares, all of which are held by our initial shareholders, will, in a vote to continue the Company in a jurisdiction outside the Cayman Islands (which requires the approval of at least two thirds of the votes of all ordinary shares), entitle the holders to ten votes for every founder share. This provision of our amended and restated memorandum and articles of association may only be amended by a special resolution passed by a majority of at least two-thirds of our ordinary shares voting in a general meeting. As a result, you will not have any influence over our continuation in a jurisdiction outside the Cayman Islands prior to our initial Business Combination. Accordingly, our sponsor will continue to exert control at least until the completion of our initial Business Combination. In addition, we have agreed not to enter into a definitive agreement regarding an initial Business Combination without the prior consent of our sponsor.

We may be unable to obtain additional financing to complete our initial Business Combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular Business Combination. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our Trust Account and our warrants will expire worthless.

If the net proceeds of our Initial Public Offering and the sale of the private placement warrants and forward purchase units prove to be insufficient to allow us to complete our Initial Business Combination, either because of the size of our initial Business Combination, the depletion of the available net proceeds in search of a target business, the obligation to redeem for cash a significant number of shares from shareholders who elect redemption in connection with our initial Business Combination or the terms of negotiated transactions to purchase shares in connection with our initial Business Combination, we may be required to seek additional financing or to abandon the proposed Business Combination. We cannot assure you that such financing will be available on acceptable terms, if at all. The current economic environment may make it difficult for companies to obtain acquisition financing. To the extent that additional financing proves to be unavailable when needed to complete our initial Business Combination, we would be compelled to either restructure the transaction or abandon that particular Business Combination and seek an alternative target business candidate. If we have not consummated our initial Business Combination within the required time period, our public shareholders may receive only approximately \$10.00 per public share, or less in certain circumstances, on the liquidation of our Trust Account and our warrants will expire worthless. See “-If third parties bring claims against us, the proceeds held in the Trust Account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per public share” and other risk factors herein. In addition, even if we do not need additional financing to complete our initial Business Combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. Other than in connection with the Dragoneer Funding forward purchase agreement, none of our officers, directors or shareholders is required to provide any financing to us in connection with or after our initial Business Combination.

Risks Relating to Acquiring and Operating a Business in Foreign Countries

We may reincorporate in another jurisdiction in connection with our initial Business Combination and such reincorporation may result in taxes imposed on shareholders.

We may, in connection with our initial Business Combination and subject to requisite shareholder approval under the Companies Law, reincorporate in the jurisdiction in which the target company or business is located or in another jurisdiction. The transaction may require a shareholder or warrant holder to recognize taxable income in the jurisdiction in which the shareholder or warrant holder is a tax resident or in which its members are resident if it is a tax transparent entity (or may otherwise result in adverse tax consequences). We do not intend to make any cash distributions to shareholders or warrant holders to pay such taxes.

Shareholders or warrant holders may be subject to withholding taxes or other taxes with respect to their ownership of us after the reincorporation.

After our initial Business Combination, it is possible that a majority of our directors and officers will live outside the United States and all of our assets will be located outside the United States; therefore investors may not be able to enforce federal securities laws or their other legal rights.

It is possible that after our initial Business Combination, a majority of our directors and officers will reside outside of the United States and all of our assets will be located outside of the United States. As a result, it may be difficult, or in some cases not possible, for investors in the United States to enforce their legal rights, to effect service of process upon all of our directors or officers or to enforce judgments of United States courts predicated upon civil liabilities and criminal penalties on our directors and officers under United States laws.

If we pursue a target company with operations or opportunities outside of the United States for our initial Business Combination, we may face additional burdens in connection with investigating, agreeing to and completing such initial Business Combination, and if we effect such initial Business Combination, we would be subject to a variety of additional risks that may negatively impact our operations.

If we pursue a target a company with operations or opportunities outside of the United States for our initial Business Combination, we would be subject to risks associated with cross-border Business Combinations, including in connection with investigating, agreeing to and completing our initial Business Combination, conducting due diligence in a foreign jurisdiction, having such transaction approved by any local governments, regulators or agencies and changes in the purchase price based on fluctuations in foreign exchange rates.

If we effect our initial Business Combination with such a company, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- costs and difficulties inherent in managing cross-border business operations;
- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future Business Combinations may be effected;
- exchange listing and/or delisting requirements;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- local or regional economic policies and market conditions;
- unexpected changes in regulatory requirements;
- longer payment cycles;
- tax issues, such as tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- challenges in collecting accounts receivable;
- cultural and language differences;
- employment regulations;
- underdeveloped or unpredictable legal or regulatory systems;
- corruption;
- protection of intellectual property;
- social unrest, crime, strikes, riots and civil disturbances;
- regime changes and political upheaval;
- terrorist attacks, natural disasters and wars; and
- deterioration of political relations with the United States.

We may not be able to adequately address these additional risks. If we were unable to do so, we may be unable to complete such initial Business Combination, or, if we complete such combination, our operations might suffer, either of which may adversely impact our business, financial condition and results of operations.

After our initial Business Combination, substantially all of our assets may be located in a foreign country and substantially all of our revenue may be derived from our operations in any such country. Accordingly, our results of operations and prospects will be subject, to a significant extent, to the economic, political and social conditions and government policies, developments and conditions in the country in which we operate.

The economic, political and social conditions, as well as government policies, of the country in which our operations are located could affect our business. Economic growth could be uneven, both geographically and among various sectors of the economy and such growth may not be sustained in the future. If in the future such country's economy experiences a downturn or grows at a slower rate than expected, there may be less demand for spending in certain industries. A decrease in demand for spending in certain industries could materially and adversely affect our ability to find an attractive target business with which to consummate our initial Business Combination and if we effect our initial Business Combination, the ability of that target business to become profitable.

We may reincorporate in another jurisdiction in connection with our initial Business Combination, and the laws of such jurisdiction may govern some or all of our future material agreements and we may not be able to enforce our legal rights.

In connection with our initial Business Combination, we may relocate the home jurisdiction of our business from the Cayman Islands to another jurisdiction. If we determine to do this, the laws of such jurisdiction may govern some or all of our future material agreements. The system of laws and the enforcement of existing laws in such jurisdiction may not be as certain in implementation and interpretation as in the United States. The inability to enforce or obtain a remedy under any of our future agreements could result in a significant loss of business, business opportunities or capital.

Exchange rate fluctuations and currency policies may cause a target business' ability to succeed in the international markets to be diminished.

In the event we acquire a non-U.S. target, all revenues and income would likely be received in a foreign currency, and the dollar equivalent of our net assets and distributions, if any, could be adversely affected by reductions in the value of the local currency. The value of the currencies in our target regions fluctuate and are affected by, among other things, changes in political and economic conditions. Any change in the relative value of such currency against our reporting currency may affect the attractiveness of any target business or, following consummation of our initial Business Combination, our financial condition and results of operations. Additionally, if a currency appreciates in value against the dollar prior to the consummation of our initial Business Combination, the cost of a target business as measured in dollars will increase, which may make it less likely that we are able to consummate such transaction.

Risks Relating to our Management Team

We are dependent upon our executive officers and directors and their loss could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our initial Business Combination. In addition, our executive officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating their time among various business activities, including identifying potential Business Combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers.

The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular Business Combination, and a particular Business Combination may be conditioned on the retention or resignation of such key personnel. These agreements may provide for them to receive compensation following our initial Business Combination and as a result, may cause them to have conflicts of interest in determining whether a particular Business Combination is the most advantageous.

Our key personnel may be able to remain with our company after the completion of our initial Business Combination only if they are able to negotiate employment or consulting agreements in connection with the Business Combination. Such negotiations would take place simultaneously with the negotiation of the Business Combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the Business Combination. Such negotiations also could make such key personnel's retention or resignation a condition to any such agreement. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. In addition, our sponsor, upon and following consummation of an initial Business Combination, will be entitled to nominate three individuals for appointment to our board of directors, as long as the sponsor holds any securities covered by the registration and shareholder rights agreement.

Our ability to successfully effect our initial Business Combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial Business Combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our initial Business Combination is dependent upon the efforts of our key personnel. We believe that our success depends on the continued service of our key personnel, at least until we have consummated our initial Business Combination. None of our officers are required to commit any specified amount of time to our affairs and, accordingly, they will have conflicts of interest in allocating management time among various business activities, including identifying potential Business Combinations and monitoring the related due diligence. If our officers' and directors' other business affairs require them to devote more substantial amounts of time to their other business activities, it could limit their ability to devote time to our affairs and could have a negative impact on our ability to consummate our initial Business Combination. In addition, we do not have employment agreements with, or key-man insurance on the life of, any of our officers. The unexpected loss of the services of our key personnel could have a detrimental effect on us.

The role of our key personnel after our initial Business Combination, however, remains to be determined. Some of our key personnel may serve in senior management or advisory positions following our initial Business Combination. It is likely, however, that most (if not all) of the management of the target business will remain in place. For instance, following the Proposed Business Combination, it is anticipated that all members of management of CCC will remain in place. These individuals may be unfamiliar with the requirements of operating a public company which could cause us to have to expend time and resources helping them become familiar with such requirements. This could be expensive and time-consuming and could lead to various regulatory issues which may adversely affect our operations.

Our executive officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial Business Combination.

Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a Business Combination and their other businesses. For example, affiliates of our sponsor are currently sponsoring two other blank check companies, Dragoneer II and Dragoneer III, incorporated for substantially similar purposes as our company. Further, Mr. Stad, our Chairman and Chief Executive Officer, serves as Chairman and Chief Executive Officer for Dragoneer II and as Chairman for Dragoneer III, and Mr. Robertson, our President and Chief Operating Officer, serves as President and Chief Operating Officer for Dragoneer II and Dragoneer III. Any such companies, including Dragoneer II and Dragoneer III, may present additional conflicts of interest in pursuing an acquisition target. We do not intend to have any full-time employees prior to the completion of our initial Business Combination. Each of our executive officers is engaged in several other business endeavors for which he may be entitled to substantial compensation, and our executive officers are not obligated to contribute any specific number of hours per week to our affairs nor are they prohibited from sponsoring, or otherwise becoming involved with, any other blank check companies prior to us completing our initial Business Combination. Our independent directors also serve as officers and board members for other entities. If our executive officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial Business Combination.

Our officers and directors presently have, and any of them in the future may have, additional, fiduciary or contractual obligations to other entities, including another blank check company, and, accordingly, may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

Until we consummate our initial Business Combination, we intend to engage in the business of identifying and combining with one or more businesses or entities. Each of our officers and directors presently has, and any of them in the future may have, additional fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a Business Combination opportunity to such entity, subject to his or her fiduciary duties under Cayman Islands law. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

[Table of Contents](#)

These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us, subject to their fiduciary duties under Cayman Islands law.

In addition, our Founders, sponsor, officers and directors may in the future become affiliated with other blank check companies that may have acquisition objectives that are similar to ours. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. In particular, affiliates of our sponsor are currently sponsoring two other blank check companies, Dragoneer II and Dragoneer III. Dragoneer II and Dragoneer III may seek to complete Business Combinations in any location and are not focusing on any particular industry for Business Combinations. Further, Mr. Stad, our Chairman and Chief Executive Officer, serves as Chairman and Chief Executive Officer for Dragoneer II and as Chairman for Dragoneer III, and Mr. Robertson, our President and Chief Operating Officer, serves as President and Chief Operating Officer for Dragoneer II and Dragoneer III. Any such companies, including Dragoneer II and Dragoneer III, may present additional conflicts of interest in pursuing an acquisition target. These conflicts may not be resolved in our favor and a potential target business may be presented to such other blank check companies prior to its presentation to us, subject to our officers' and directors' fiduciary duties under Cayman Islands law. Our amended and restated memorandum and articles of association provide that we renounce our interest in any Business Combination opportunity offered to any Founder, director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and it is an opportunity that we are able to complete on a reasonable basis.

Our executive officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, executive officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a Business Combination with a target business that is affiliated with our sponsor, our directors or executive officers, or we may acquire a target business through an Affiliated Joint Acquisition with one or more affiliates of Dragoneer and/or one or more investors in funds managed by Dragoneer. Nor do we have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours. Additionally, Dragoneer Funding is an affiliate of our sponsor.

The personal and financial interests of our directors and officers may influence their motivation in timely identifying and selecting a target business and completing a Business Combination. Consequently, our directors' and officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular Business Combination are appropriate and in our shareholders' best interest.

If our management following our initial Business Combination is unfamiliar with United States securities laws, they may have to expend time and resources becoming familiar with such laws, which could lead to various regulatory issues.

Following our initial Business Combination, our management may resign from their positions as officers or directors of our company and the management of the target business at the time of the Business Combination will remain in place. Management of the target business may not be familiar with United States securities laws. If new management is unfamiliar with United States securities laws, they may have to expend time and resources becoming familiar with such laws. This could be expensive and time-consuming and could lead to various regulatory issues which may adversely affect our operations.

Risks Relating to our Securities

The NYSE may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

Our securities are listed on the NYSE. Although we currently meet the minimum initial listing standards set forth in the NYSE listing standards, our securities may not be listed on the NYSE in the future or prior to our initial Business Combination. In order to continue listing our securities on the NYSE prior to our initial Business Combination, we must maintain certain financial, distribution and share price levels, such as a minimum market

[Table of Contents](#)

capitalization (generally \$50,000,000) and a minimum number of holders of our securities (generally 300 public holders) Additionally, our units will not be traded after completion of our initial Business Combination and, in connection with our initial Business Combination, we will be required to demonstrate compliance with the NYSE initial listing requirements, which are more rigorous than the NYSE continued listing requirements, in order to continue to maintain the listing of our securities on the NYSE. For instance, our share price would generally be required to be at least \$4.00 per share, our total market capitalization would be required to be at least \$200.0 million, the aggregate market value of publicly held shares would be required to be at least \$100.0 million and we would be required to have at least 400 round lot shareholders. We may not be able to meet those listing requirements at that time, especially if there are a significant number of redemptions in connection with our initial Business Combination.

If the NYSE delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A ordinary shares are a “penny stock” which will require brokers trading in our Class A ordinary shares to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as “covered securities.” Because our securities are listed on the NYSE, our units, Class A ordinary shares and warrants will qualify as covered securities under the statute. Although the states are preempted from regulating the sale of covered securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on the NYSE, our securities would not qualify as covered securities under the statute and we would be subject to regulation in each state in which we offer our securities.

We are not registering the Class A ordinary shares issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants except on a cashless basis and potentially causing such warrants to expire worthless.

We are not registering the Class A ordinary shares issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed that, as soon as practicable, but in no event later than 20 business days after the closing of our initial Business Combination, we will use our commercially reasonable efforts to file with the SEC a registration statement covering the issuance of such shares, and we will use our commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of our initial Business Combination and to maintain the effectiveness of such registration statement and a current prospectus relating to those Class A ordinary shares until the warrants expire or are redeemed. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus by which the shares are registered, the financial statements contained or incorporated by reference therein are not current, complete or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants are not registered under the Securities Act in accordance with the above requirements, we will be required to permit holders to exercise their warrants on a cashless basis, in which case, the number of Class A ordinary shares that you will receive upon cashless exercise will be based on a formula subject to a maximum amount of shares equal to 0.361 Class A ordinary shares per warrant (subject to adjustment). However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available. Notwithstanding the above, if our

[Table of Contents](#)

Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. Exercising the warrants on a cashless basis could have the effect of reducing the potential “upside” of the holder’s investment in our company because the warrant holder will hold a smaller number of Class A ordinary shares upon a cashless exercise of the warrants they hold. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under applicable state securities laws and no exemption is available. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant shall not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the Class A ordinary shares included in the units. There may be a circumstance where an exemption from registration exists for holders of our private placement warrants to exercise their warrants while a corresponding exemption does not exist for holders of the public warrants included as part of units sold in our Initial Public Offering. In such an instance, our sponsor and its permitted transferees (which may include our directors and executive officers) would be able to exercise their warrants and sell the ordinary shares underlying their warrants while holders of our public warrants would not be able to exercise their warrants and sell the underlying ordinary shares. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying Class A ordinary shares for sale under all applicable state securities laws. As a result, we may redeem the warrants as set forth above even if the holders are otherwise unable to exercise their warrants.

The warrants may become exercisable and redeemable for a security other than the Class A ordinary shares, and you will not have any information regarding such other security at this time.

In certain situations, including if we are not the surviving entity in our initial Business Combination, the warrants may become exercisable for a security other than the Class A ordinary shares. As a result, if the surviving company redeems your warrants for securities pursuant to the warrant agreement, you may receive a security in a company of which you do not have information at this time. Pursuant to the warrant agreement, the surviving company will be required to use commercially reasonable efforts to register the issuance of the security underlying the warrants within twenty business days of the closing of an initial Business Combination.

The grant of registration rights to our sponsor and the forward purchase investors may make it more difficult to complete our initial Business Combination, and the future exercise of such rights may adversely affect the market price of our Class A ordinary shares.

Pursuant to an agreement to be entered into prior to our Initial Public Offering, our sponsor and its permitted transferees can demand that we register the resale of the Class A ordinary shares into which founder shares are convertible, the private placement warrants and the Class A ordinary shares issuable upon exercise of the private placement warrants, and warrants that may be issued upon conversion of working capital loans and the Class A ordinary shares issuable upon conversion of such warrants. Pursuant to the forward purchase agreements, we will agree that we will use our commercially reasonable efforts to (i) within 30 days after the closing of the initial Business Combination, file a registration statement with the SEC for a secondary offering of (A) the forward purchase shares, (B) the Class A ordinary shares issuable upon exercise of the forward purchase warrants and (c) any other Class A ordinary shares acquired by the forward purchase investors, including any acquired after we complete our initial Business Combination, (ii) cause such registration statement to be declared effective promptly thereafter, but in no event later than 90 days after the closing of the initial Business Combination and (iii) maintain the effectiveness of such registration statement and to ensure the registration statement does not contain a material omission or misstatement, including by way of amendment or other update, as required, until the earlier of (A) the date on which a forward purchase investor ceases to hold the securities covered thereby and (B) the date all of the securities covered thereby can be sold publicly without restriction or limitation under Rule 144 under the Securities Act, and without the requirement to be in compliance with Rule 144(c)(1) under the Securities Act, subject to certain conditions and limitations set forth in the forward purchase agreements. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of

our Class A ordinary shares. In addition, the existence of the registration rights may make our initial Business Combination more costly or difficult to conclude. This is because the shareholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our securities that is expected when the securities owned by our sponsor or its permitted transferees are registered for resale.

The provisions of our amended and restated memorandum and articles of association that relate to the rights of holders of our Class A ordinary shares (and corresponding provisions of the agreement governing the release of funds from our Trust Account) may be amended with the approval of a special resolution which requires the approval of the holders of at least two-thirds of our ordinary shares who attend and vote at a general meeting of our company, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated memorandum and articles of association to facilitate the completion of an initial Business Combination that some of our shareholders may not support.

Some other blank check companies have a provision in their charter which prohibits the amendment of certain of its provisions, including those which relate to the rights of a company's shareholders, without approval by a certain percentage of the company's shareholders. In those companies, amendment of these provisions typically requires approval by between 90% and 100% of the company's shareholders. Our amended and restated memorandum and articles of association provide that any of its provisions related to the rights of holders of our Class A ordinary shares (including the requirement to deposit proceeds of our Initial Public Offering and the private placement of warrants into the Trust Account and not release such amounts except in specified circumstances, and to provide redemption rights to public shareholders as described herein) may be amended if approved by special resolution, meaning holders of at least two-thirds of our ordinary shares who attend and vote at a general meeting of our company, and corresponding provisions of the trust agreement governing the release of funds from our Trust Account may be amended if approved by holders of at least 65% of our ordinary shares; *provided* that the provisions of our amended and restated memorandum and articles of association governing the appointment or removal of directors prior to our initial Business Combination may only be amended by a special resolution passed by not less than two-thirds of our ordinary shares who attend and vote at our general meeting which shall include the affirmative vote of a simple majority of our Class B ordinary shares. Our sponsor and its permitted transferees, if any, who collectively beneficially own, on an as-converted basis, approximately 20% of our Class A ordinary shares, will participate in any vote to amend our amended and restated memorandum and articles of association and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated memorandum and articles of association which govern our pre-Business Combination behavior more easily than some other blank check companies, and this may increase our ability to complete a Business Combination with which you do not agree. Our shareholders may pursue remedies against us for any breach of our amended and restated memorandum and articles of association.

Our sponsor, executive officers and directors have agreed, pursuant to agreements with us, that they will not propose any amendment to our amended and restated memorandum and articles of association (A) that would modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial Business Combination or to redeem 100% of our public shares if we do not complete our initial Business Combination within 24 months (or 27 months, as applicable) from the closing of our Initial Public Offering or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares, unless we provide our public shareholders with the opportunity to redeem their Class A ordinary shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay our income taxes, if any, divided by the number of the then-outstanding public shares. Our shareholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, executive officers and directors for any breach of these agreements. As a result, in the event of a breach, our shareholders would need to pursue a shareholder derivative action, subject to applicable law.

We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least 50% of the then-outstanding public warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of our Class A ordinary shares purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder for the purpose of (i) curing any ambiguity or correct any mistake, including to conform the provisions of the warrant agreement to the description of the terms of the warrants and the warrant agreement, or defective provision (ii) amending the provisions relating to cash dividends on ordinary shares as contemplated by and in accordance with the warrant agreement or (iii) adding or changing any provisions with respect to matters or questions arising under the warrant agreement as the parties to the warrant agreement may deem necessary or desirable and that the parties deem to not adversely affect the rights of the registered holders of the warrants, provided that the approval by the holders of at least 50% of the then-outstanding public warrants is required to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least 50% of the then-outstanding public warrants approve of such amendment and, solely with respect to any amendment to the terms of the private placement warrants or any provision of the warrant agreement with respect to the private placement warrants, 50% of the number of the then outstanding private placement warrants. Although our ability to amend the terms of the public warrants with the consent of at least 50% of the then-outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash, shorten the exercise period or decrease the number of Class A ordinary shares purchasable upon exercise of a warrant.

Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.

Our warrant agreement will provide that, subject to applicable law, (i) any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement, including under the Securities Act, will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and (ii) that we irrevocably submit to such jurisdiction, which jurisdiction shall be the exclusive forum for any such action, proceeding or claim. We will waive any objection to such exclusive jurisdiction and that such courts represent an inconvenient forum.

Notwithstanding the foregoing, these provisions of the warrant agreement will not apply to suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal district courts of the United States of America are the sole and exclusive forum. Any person or entity purchasing or otherwise acquiring any interest in any of our warrants shall be deemed to have notice of and to have consented to the forum provisions in our warrant agreement. If any action, the subject matter of which is within the scope the forum provisions of the warrant agreement, is filed in a court other than a court of the State of New York or the United States District Court for the Southern District of New York (a “foreign action”) in the name of any holder of our warrants, such holder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located in the State of New York in connection with any action brought in any such court to enforce the forum provisions (an “enforcement action”), and (y) having service of process made upon such warrant holder in any such enforcement action by service upon such warrant holder’s counsel in the foreign action as agent for such warrant holder.

This choice-of-forum provision may limit a warrant holder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with our company, which may discourage such lawsuits. Alternatively, if a court were to find this provision of our warrant agreement inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could materially and adversely affect our business, financial condition and results of operations and result in a diversion of the time and resources of our management and board of directors.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem the outstanding public warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, *provided* that the closing price of our Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “Description of Securities-Warrants-Public Shareholders’ Warrants-Anti-Dilution Adjustments”) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to proper notice of such redemption and *provided* that certain other conditions are met. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. As a result, we may redeem the warrants as set forth above even if the holders are otherwise unable to exercise the warrants. Redemption of the outstanding warrants could force you to (i) exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, we expect would be substantially less than the market value of your warrants. None of the private placement warrants will be redeemable by us so long as they are held by our sponsor or its permitted transferees.

In addition, we have the ability to redeem the outstanding public warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.10 per warrant upon a minimum of 30 days’ prior written notice of redemption *provided* that the closing price of our Class A ordinary shares equals or exceeds \$10.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “Description of Securities-Warrants-Public Shareholders’ Warrants-Anti-Dilution Adjustments”) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to proper notice of such redemption and *provided* that certain other conditions are met, including that holders will be able to exercise their warrants prior to redemption for a number of Class A ordinary shares determined based on the redemption date and the fair market value of our Class A ordinary shares. Please see “Description of Securities-Warrants-Public Shareholders’ Warrants-Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00.” The value received upon exercise of the warrants (1) may be less than the value the holders would have received if they had exercised their warrants at a later time where the underlying share price is higher and (2) may not compensate the holders for the value of the warrants, including because the number of ordinary shares received is capped at 0.361 Class A ordinary shares per warrant (subject to adjustment) irrespective of the remaining life of the warrants.

None of the private placement warrants will be redeemable by us as so long as they are held by our sponsor or its permitted transferees.

Our warrants may have an adverse effect on the market price of our Class A ordinary shares and make it more difficult to effectuate our initial Business Combination.

We issued warrants to purchase 13,800,000 Class A ordinary shares as part of the units sold in our Initial Public Offering and issued an aggregate of 15,800,000 private placement warrants, each exercisable to purchase one Class A ordinary share at \$11.50 per share, subject to adjustment. We will also issue 3,500,000 forward purchase warrants pursuant to the forward purchase agreements. In addition, if the sponsor, its affiliates or a member of our management team makes any working capital loans, it may convert up to \$2,000,000 of such loans into up to an additional 2,000,000 warrants, at the price of \$1.00 per warrant. We may also issue Class A ordinary shares in connection with our redemption of our warrants.

To the extent we issue ordinary shares for any reason, including to effectuate a Business Combination, the potential for the issuance of a substantial number of additional Class A ordinary shares upon exercise of these warrants could make us a less attractive acquisition vehicle to a target business. Such warrants, when exercised, will increase the number of issued and outstanding Class A ordinary shares and reduce the value of the Class A ordinary shares issued to complete the business transaction. Therefore, our warrants may make it more difficult to effectuate a business transaction or increase the cost of acquiring the target business.

Because each unit contains one-fifth of one redeemable warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.

[Table of Contents](#)

Each unit contains one-fifth of one redeemable warrant. Pursuant to the warrant agreement, no fractional warrants were issued upon separation of the units, and only whole units trade. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of Class A ordinary shares to be issued to the warrant holder. This is different from other offerings similar to ours whose units include one ordinary share and one whole warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a Business Combination since the warrants will be exercisable in the aggregate for one-fifth of the number of shares compared to units that each contain a whole warrant to purchase one whole share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if a unit included a warrant to purchase one whole share.

A provision of our warrant agreement may make it more difficult for us to consummate an initial Business Combination.

Unlike most blank check companies, if (i) we issue additional Class A ordinary shares, excluding the forward purchase securities, or equity-linked securities for capital raising purposes in connection with the closing of our initial Business Combination at an issue price or effective issue price of less than \$9.20 per ordinary share (the “Newly Issued Price”), (ii) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial Business Combination on the date of the consummation of our initial Business Combination (net of redemptions), and (iii) the Market Value is below \$9.20 per share, then the exercise price of the warrants will be adjusted to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger prices described below under “Description of Securities-Warrants-Public Shareholders’ Warrants-Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00” and “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described below under “Description of Securities-Warrants-Public Shareholders’ Warrants-Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00” will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price. This may make it more difficult for us to consummate an initial Business Combination with a target business.

Because we are incorporated under the laws of the Cayman Islands, you may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. federal courts may be limited.

We are an exempted company incorporated under the laws of the Cayman Islands. As a result, it may be difficult for investors to effect service of process within the United States upon our directors or executive officers, or enforce judgments obtained in the United States courts against our directors or officers.

Our corporate affairs will be governed by our amended and restated memorandum and articles of association, the Companies Law (as the same may be supplemented or amended from time to time) and the common law of the Cayman Islands. We will also be subject to the federal securities laws of the United States. The rights of shareholders to take action against the directors, actions by minority shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, the decisions of whose courts are of persuasive authority, but are not binding on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are different from what they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a different body of securities laws as compared to the United States, and certain states, such as Delaware, may have more fully developed and judicially interpreted bodies of corporate law. In addition, Cayman Islands companies may not have standing to initiate a shareholders derivative action in a Federal court of the United States.

We have been advised by Maples and Calder, our Cayman Islands legal counsel, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money

[Table of Contents](#)

judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a United States company.

Since only holders of our founder shares have the right to vote on the appointment of directors, the NYSE may consider us to be a “controlled company” within the meaning of the NYSE rules and, as a result, we may qualify for exemptions from certain corporate governance requirements.

Only holders of our founder shares have the right to vote on the appointment of directors. As a result, the NYSE may consider us to be a “controlled company” within the meaning of the NYSE corporate governance standards. Under the NYSE corporate governance standards, a company of which more than 50% of the voting power is held by an individual, group or another company is a “controlled company” and may elect not to comply with certain corporate governance requirements, including the requirements that:

- we have a board that includes a majority of “independent directors,” as defined under the rules of the NYSE;
- we have a compensation committee of our board that is comprised entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities; and
- we have a nominating and corporate governance committee of our board that is comprised entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities.

We do not intend to utilize these exemptions and intend to comply with the corporate governance requirements of the NYSE, subject to applicable phase-in rules. However, if we determine in the future to utilize some or all of these exemptions, you will not have the same protections afforded to shareholders of companies that are subject to all of the NYSE corporate governance requirements.

General Risk Factors

We are a recently incorporated exempted company with a limited operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a recently incorporated exempted company, incorporated under the laws of the Cayman Islands with no operating results, and we did not commence operations until our recent public offering. Because we lack a significant operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial Business Combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning a Business Combination and may be unable to complete our initial Business Combination. If we fail to complete our initial Business Combination, we will never generate any operating revenues.

Past performance by our management team or their respective affiliates may not be indicative of future performance of an investment in us.

Information regarding performance is presented for informational purposes only. Any past experience or performance of our management team and their respective affiliates is not a guarantee of either (i) our ability to successfully identify and execute a transaction or (ii) success with respect to any Business Combination that we may consummate. You should not rely on the historical record of our management team or their respective affiliates as indicative of the future performance of an investment in us or the returns we will, or are likely to, generate going forward. Our management has limited experience in operating special purpose acquisition companies.

We may be a passive foreign investment company, or “PFIC,” which could result in adverse U.S. federal income tax consequences to U.S. investors.

If we are a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder of our Class A ordinary shares or warrants, the U.S. Holder may be subject to adverse U.S. federal income tax consequences and may be subject to additional reporting requirements. Our PFIC status for our current and subsequent taxable years may depend on whether we qualify for the PFIC start-up exception. Depending on the particular circumstances the application of the start-up exception may be subject to uncertainty, and there cannot be any assurance that we will qualify for the start-up exception. Accordingly, there can be no assurances with respect to our status as a PFIC for our current taxable year or any subsequent taxable year. Our actual PFIC status for any taxable year, however, will not be determinable until after the end of such taxable year (and if the start-up exception is applicable, potentially not until after the two taxable years following). Moreover, if we determine we are a PFIC for any taxable year, upon written request, we will endeavor to provide to a U.S. Holder such information as the Internal Revenue Service (“IRS”) may require, including a PFIC Annual Information Statement, in order to enable the U.S. Holder to make and maintain a “qualified electing fund” election, but there can be no assurance that we will timely provide such required information, and such election would be unavailable with respect to our warrants in all cases. We urge U.S. investors to consult their tax advisors regarding the possible application of the PFIC rules.

We are an emerging growth company and a smaller reporting company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to “emerging growth companies” or “smaller reporting companies,” this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. As a result, our shareholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our Class A ordinary shares held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

[Table of Contents](#)

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our ordinary shares held by non-affiliates exceeds \$250 million as of the prior June 30, and (2) our annual revenues exceeded \$100 million during such completed fiscal year or the market value of our ordinary shares held by non-affiliates exceeds \$700 million as of the prior June 30. To the extent we take advantage of such reduced disclosure obligations, it may also make comparison of our financial statements with other public companies difficult or impossible.

We are subject to changing law and regulations regarding regulatory matters, corporate governance and public disclosure that have increased both our costs and the risk of non-compliance.

We are subject to rules and regulations by various governing bodies, including, for example, the SEC, which are charged with the protection of investors and the oversight of companies whose securities are publicly traded, and to new and evolving regulatory measures under applicable law. Our efforts to comply with new and changing laws and regulations have resulted in and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from seeking a Business Combination target.

Moreover, because these laws, regulations and standards are subject to varying interpretations, their application in practice may evolve over time as new guidance becomes available. This evolution may result in continuing uncertainty regarding compliance matters and additional costs necessitated by ongoing revisions to our disclosure and governance practices. If we fail to address and comply with these regulations and any subsequent changes, we may be subject to penalty and our business may be harmed.

An investment in our securities may result in uncertain or adverse U.S. federal income tax consequences.

An investment in our securities may result in uncertain U.S. federal income tax consequences. For instance, because there are no authorities that directly address instruments similar to our units, the allocation an investor makes with respect to the purchase price of a unit between the Class A ordinary shares and the one-fifth of a warrant to purchase one Class A ordinary share included in each unit could be challenged by the IRS or courts. Furthermore, the U.S. federal income tax consequences of a cashless exercise of warrants included in our units is unclear under current law. Finally, it is unclear whether the redemption rights with respect to our ordinary shares suspend the running of a U.S. Holder’s holding period for purposes of determining whether any gain or loss realized by such holder on the sale or exchange of Class A ordinary shares is long-term capital gain or loss and for determining whether any dividend we pay would be considered “qualified dividends” for U.S. federal income tax purposes. Prospective investors are urged to consult their tax advisors with respect to these and other tax consequences when purchasing, holding or disposing of our securities.

Cyber incidents or attacks directed at us could result in information theft, data corruption, operational disruption and/or financial loss.

We depend on digital technologies, including information systems, infrastructure and cloud applications and services, including those of third parties with which we may deal. Sophisticated and deliberate attacks on, or security breaches in, our systems or infrastructure, or the systems or infrastructure of third parties or the cloud, could lead to corruption or misappropriation of our assets, proprietary information and sensitive or confidential data. As an early stage company without significant investments in data security protection, we may not be sufficiently protected against such occurrences. We may not have sufficient resources to adequately protect against, or to investigate and remediate any vulnerability to, cyber incidents. It is possible that any of these occurrences, or a combination of them, could have adverse consequences on our business and lead to financial loss.

Provisions in our amended and restated memorandum and articles of association may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A ordinary shares and could entrench management.

Our amended and restated memorandum and articles of association contain provisions that may discourage unsolicited takeover proposals that shareholders may consider to be in their best interests. These provisions include a staggered board of directors, the ability of the board of directors to designate the terms of and issue new series of preference shares, and the fact that prior to the completion of our initial Business Combination only holders of our Class B ordinary shares, which have been issued to our sponsor, are entitled to vote on the appointment of directors, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Table of Contents

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

We currently maintain our executive offices at One Letterman Drive, Building D, Suite M500, San Francisco, California 94129. Our sponsor has agreed to provide us office space and general administrative services at no cost.

ITEM 3. LEGAL PROCEEDINGS.

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information

Our units, Class A ordinary shares and warrants are traded on the NYSE under the symbols "DGNR.U," "DGNR," and "DGNR WS," respectively.

Holders

As of December 31, 2020, there was 1 holder of record of our units, 1 holder of record of our Class A ordinary shares, 6 holders of record of our Class B ordinary shares and 2 holders of record of our warrants.

Dividends

We have not paid any cash dividends on our ordinary shares to date and do not intend to pay cash dividends prior to the completion of our initial Business Combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial Business Combination. The payment of any cash dividends subsequent to our initial Business Combination will be within the discretion of our board of directors at such time. Further, if we incur any indebtedness in connection with a Business Combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

Securities Authorized for Issuance Under Equity Compensation Plans

None.

Recent Sales of Unregistered Securities; Use of Proceeds from Registered Offerings

On August 18, 2020, we consummated our Initial Public Offering of 69,000,000 Units, inclusive of 9,000,000 Units sold to the underwriters exercising their over-allotment option in full. The Units were sold at an offering price of \$10.00 per Unit, generating total gross proceeds of \$690,000,000. Each Unit consisted of one Class A ordinary share of the Company, par value \$0.0001 per share, and one-fifth of one redeemable warrant of the Company. Citigroup Global Markets Inc., Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC acted as book-running managers of the offering. The securities sold in the offering were registered under the Securities Act on a registration statement on Form S-1 (No. 333-240078). The SEC declared the registration statement effective on August 13, 2020.

Simultaneously with the consummation of our Initial Public Offering, we consummated a private placement of 15,800,000 Private Placement Warrants to our sponsor at a price of \$1.00 per Private Placement Warrant, generating total proceeds of \$15,800,000. Such securities were issued pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

The Private Placement Warrants are the same as the warrants underlying the Units sold in the Initial Public Offering, except that Private Placement Warrants are not transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants are exercisable on a cashless basis and are non-redeemable so long as they are held by the initial purchasers or their permitted transferees.

Of the gross proceeds received from the Initial Public Offering and the Private Placement Warrants, \$690,000,000 was placed in a Trust Account.

We paid a total of \$13,800,000 underwriting discounts and commissions and \$974,273 for other costs and expenses related to the Initial Public Offering. In addition, the underwriters agreed to defer \$24,150,000 in underwriting discounts and commissions.

There has been no material change in the planned use of proceeds from such use as described in the Company's final prospectus (File No. 333-240078), dated August 13, 2020.

ITEM 6. SELECTED FINANCIAL DATA.

Not applicable.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with our audited financial statements and the notes related thereto which are included in "Item 8. Financial Statements and Supplementary Data" of this Annual Report on Form 10-K. Certain information contained in the discussion and analysis set forth below includes forward-looking statements. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including those set forth under "Special Note Regarding Forward-Looking Statements," "Item 1A. Risk Factors" and elsewhere in this Annual Report on Form 10-K.

Overview

We are a blank check company incorporated on July 3, 2020 as a Cayman Islands exempted company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities. We intend to effectuate our initial Business Combination using cash from the proceeds of our Initial Public Offering and the sale of the private placement warrants, our shares, debt or a combination of cash, equity and debt.

[Table of Contents](#)

For the period from July 3, 2020 (inception) to December 31, 2020 we incurred approximately \$514,000 in the pursuit of our acquisition plans and approximately \$528,000 of other operating and formation expenses. We cannot assure you that our plans to complete a Business Combination will be successful.

Recent Developments

On January 19, 2021, we entered into a convertible promissory note with the sponsor pursuant to which the sponsor agreed to loan us up to an aggregate principal amount of \$2,000,000 (the "Convertible Promissory Note"). The Convertible Promissory Note is non-interest bearing and due on the date on which we consummate a Business Combination. If we do not consummate a Business Combination, we may use a portion of any funds held outside the Trust Account to repay the Convertible Promissory Note; however, no proceeds from the Trust Account may be used for such repayment. If such funds are insufficient to repay the Promissory Note, the unpaid amounts would be forgiven. Up to \$2,000,000 of the Convertible Promissory Note may be converted into warrants at a price of \$1.00 per warrant at the option of the sponsor. The warrants would be identical to the Private Placement Warrants.

Merger Agreement

On February 2, 2021, the Company, Chariot Merger Sub, and CCC entered into the Business Combination Agreement, pursuant to which on the closing date, among other things and subject to the terms and conditions contained therein:

- (i) the Domestication will occur, and, in connection with the Domestication, (A) the Company's name will be changed as determined by CCC in its sole discretion, (B) each outstanding Class A ordinary share of Dragoneer and each outstanding Class B ordinary share of the Company will become one share of Dragoneer Common Stock, and (C) each outstanding warrant of Dragoneer will become one warrant to purchase one share of Dragoneer Common Stock; and
- (ii) the Merger.

In accordance with the terms and subject to the conditions of the Business Combination Agreement, all outstanding shares, together with all outstanding equity awards, of CCC will be exchanged for shares of Dragoneer Common Stock or comparable equity awards that are settled or are exercisable for shares of Dragoneer Common Stock, as applicable, based on an implied CCC equity value of \$5,740,750,000, subject to adjustment in accordance with the Business Combination Agreement. Additionally, the current CCC equityholders and the sponsor each have an earn out tied to the trading price of shares of the combined company after the closing of the Merger.

Under the Business Combination Agreement, the obligations of the parties to consummate the transactions contemplated thereby are subject to a number of closing conditions, including, but not limited to, (i) the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, (ii) the approval of the Company's shareholders, (iii) the approval of CCC's shareholders and (iv) the Company having at least \$5,000,001 of net tangible assets (as determined in accordance with Rule 3a51-1(g)(1) of the Securities Exchange Act of 1934, as amended) remaining after the closing of the Proposed Business Combination.

In addition, the obligation of CCC to consummate the Proposed Business Combination is subject to the fulfillment of other closing conditions, including, but not limited to, (i) the aggregate cash proceeds from the Company's trust account equaling no less than \$207,000,000 (after deducting any amounts paid to the Company's shareholders that exercise their redemption rights in connection with the Proposed Business Combination and net of the Company's unpaid transaction expenses and the Company's unpaid liabilities), (ii) the approval by the NYSE of the Company's initial listing application in connection with the Proposed Business Combination, (iii) the aggregate cash proceeds from the Company's forward purchase agreements equaling no less than \$175,000,000, at least \$150,000,000 of which shall be provided by the sponsor, (iv) the consummation of the Domestication and (v) the Company having made all necessary arrangements to cause the trustee to release the funds from the Company's trust account available to the Company.

The Business Combination Agreement may be terminated at any time prior to the closing of the Proposed Business Combination by mutual written consent of the Company and CCC and, among other things, if the Proposed Business Combination is not consummated by August 2, 2021. As such, the closing of the Proposed Business Combination cannot be assured.

Concurrently with the execution of the Business Combination Agreement, the Company entered into the following agreements:

- Transaction Support Agreements, pursuant to which the CCC shareholders agreed to, among other things, vote in favor of the Business Combination Agreement and the Proposed Business Combination and to be bound by certain other covenants and agreements related to the Proposed Business Combination;
- An Amended and Restated Registration and Shareholder Rights Agreement, pursuant to which certain shareholders of CCC and our sponsor were provided with certain governance and board nomination rights;
- Subscription Agreements with the Investors, pursuant to which, among other things, the Investors agreed to the Pipe Financing; and
- A Sponsor Letter Agreement with the holders of the Company's Class B ordinary shares, including our sponsor, pursuant to which such holders agreed to, among other things, (i) vote in favor of the Business Combination Agreement and the transactions contemplated thereby (including the Merger), (ii) waive any adjustment to the conversion ratio set forth in the governing documents of the Company or any other anti-dilution or similar protection with respect to the Class B ordinary shares (whether resulting from the transactions contemplated by the Subscription Agreements or otherwise), (iii) be bound by certain other covenants and agreements related to the Proposed Business Combination and (iv) be bound by certain transfer restrictions with respect to their shares in the Company prior to the closing of the Proposed Business Combination, in each case, on the terms and subject to the conditions set forth in the Sponsor Letter Agreement. Additionally, pursuant to the Sponsor Letter Agreement, the holders of Class B common stock have agreed that, if the earn out conditions have not been satisfied before the tenth anniversary of the Closing (as defined in the Business Combination Agreement), the portion of the Company's shares subject to such earn out, and any dividends that have been paid in respect thereof (which will be retained by the Company and be paid to the holders of Class B common stock only if and when the earn out conditions are satisfied), will automatically be forfeited to the Company on the tenth anniversary of the Closing (as defined in the Business Combination Agreement).

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities from inception to December 31, 2020 were organizational activities, those necessary to prepare for the Initial Public Offering, identifying a target company for a Business Combination and activities in connection with the proposed acquisition of CCC. We do not expect to generate any operating revenues until after the completion of our Business Combination. We may generate non-operating income in the form of interest income on marketable securities held in the Trust Account. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses in connection with completing a Business Combination.

For the period from July 3, 2020 (inception) through December 31, 2020, we had a net loss of \$1,042,637, which consisted of approximately \$514,000 of expenses associated with our acquisition plans and approximately \$528,000 of other operating and formation expenses.

Liquidity and Capital Resources

On August 18, 2020, we consummated the Initial Public Offering of 69,000,000 Units, which included the full exercise by the underwriters of the over-allotment option to purchase an additional 9,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$690,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of an aggregate of 15,800,000 Private Placement Warrants to our sponsor at a price of \$1.00 per warrant, generating gross proceeds of \$15,800,000.

[Table of Contents](#)

Following the Initial Public Offering, the exercise of the over-allotment option and the sale of the Private Placement Warrants, a total of \$690,000,000 was placed in the Trust Account. We incurred \$38,924,273 in transaction costs, including \$13,800,000 of underwriting fees, \$24,150,000 of deferred underwriting fees and \$974,273 of other offering costs in connection with the Initial Public Offering and the sale of the Private Placement Warrants.

For the period from July 3, 2020 (inception) through December 31, 2020, net cash used in operating activities was \$11,800. The net loss of \$1,042,637 was impacted by the payment of formation costs through the issuance of Class B ordinary shares to the sponsor in the amount of \$5,000 and operating expenses in the amount of \$32,075 paid through advances from an affiliate of our sponsor. Changes in operating assets and liabilities provided \$993,762 of cash from operating activities.

At December 31, 2020, we had cash held in the Trust Account of \$690,000,000. We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less taxes payable (if applicable) and deferred underwriting commissions) and the proceeds from the sale of the forward purchase units to complete our Business Combination. To the extent that our shares or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the post-Business Combination entity, make other acquisitions and pursue our growth strategies.

At December 31, 2020, we had cash of \$605,009 held outside of the Trust Account. We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, properties or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete a Business Combination, we would repay such loaned amounts. In the event that a Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into warrants identical to the Private Placement Warrants, at a price of \$1.00 per warrant at the option of the lender.

On January 19, 2021, we entered into a Convertible Promissory Note with the Sponsor pursuant to which the Sponsor agreed to loan us up to an aggregate principal amount of \$2,000,000.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating and consummating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our public shares upon consummation of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our Business Combination. If we are unable to complete our Business Combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. In addition, following our Business Combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Off-Balance Sheet Financing Arrangements

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of December 31, 2020. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual Obligations

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than as described below.

We have an agreement to pay the underwriters a deferred fee of \$24,150,000 in the aggregate, which will become payable to them from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement. We entered into a forward purchase agreements which provides for the purchase by each of Dragoneer Funding LLC (“Dragoneer Funding”) and entities managed by or associated with Willett Advisors LLC (the “Willett Purchasers”) of up to an aggregate of 17,500,000 units (the “forward purchase units”), with each unit consisting of one Class A ordinary share and one-fifth of one warrant to purchase one Class A ordinary share for \$10.00 per unit, or \$175,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of our initial Business Combination.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies.

Class A Ordinary Shares Subject to Possible Redemption

We account for our Class A ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Class A ordinary shares subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable ordinary shares (including ordinary shares that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, ordinary shares are classified as shareholders’ equity. Our ordinary shares feature certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, Class A ordinary shares subject to possible redemption is presented as temporary equity, outside of the shareholders’ equity section of our balance sheet.

Net Income (Loss) Per Ordinary Share

We apply the two-class method in calculating earnings per share. Net income per ordinary share, basic and diluted for Class A redeemable ordinary shares is calculated by dividing the interest income earned on the Trust Account by the weighted average number of Class A redeemable ordinary shares outstanding since original issuance. Net loss per common share, basic and diluted for Class B non-redeemable ordinary shares is calculated by dividing the net income (loss), less income attributable to Class A redeemable ordinary shares, by the weighted average number of Class B non-redeemable ordinary shares outstanding for the periods presented.

Recent Accounting Pronouncements

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our financial statements.

Table of Contents

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

ITEM 8. CONSOLIDATED FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

This information appears following Item 15 of this Report and is included herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Disclosure controls are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Exchange Act, such as this Report, is recorded, processed, summarized, and reported within the time period specified in the SEC's rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure. Our management evaluated, with the participation of our current chief executive officer and chief financial officer (our "Certifying Officers"), the effectiveness of our disclosure controls and procedures as of December 31, 2020, pursuant to Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, our Certifying Officers concluded that, as of December 31, 2020, our disclosure controls and procedures were effective.

We do not expect that our disclosure controls and procedures will prevent all errors and all instances of fraud. Disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Further, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and the benefits must be considered relative to their costs. Because of the inherent limitations in all disclosure controls and procedures, no evaluation of disclosure controls and procedures can provide absolute assurance that we have detected all our control deficiencies and instances of fraud, if any. The design of disclosure controls and procedures also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Management's Report on Internal Controls Over Financial Reporting

This Annual Report on Form 10-K does not include a report of management's assessment regarding internal control over financial reporting or an attestation report of our independent registered public accounting firm due to a transition period established by rules of the SEC for newly public companies.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION.

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

Officers and Directors

Our executive officers and directors are as follows:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Marc Stad	41	Chairman and Chief Executive Officer
Pat Robertson	41	President, Chief Operating Officer and Director
Sarah J. Friar	48	Director
Douglas Merritt	56	Director
David D. Ossip	54	Director
Gokul Rajaram	46	Director
Jay Simons	48	Director

Marc Stad serves as the Chairman and Chief Executive Officer of Dragoneer Growth Opportunities Corp. Mr. Stad also currently serves as Founder, Chief Executive Officer, Chief Investment Officer and Managing Partner at Dragoneer Investment Group, LLC. Prior to founding Dragoneer, Mr. Stad was a Partner and Portfolio Manager at the Investment Group of Santa Barbara, a private investment firm that invests in public and private equities. Previously, he worked in TPG's buyouts division and at McKinsey & Co. as a management consultant. Additionally, Mr. Stad has served as the Chairman and Chief Executive Officer of Dragoneer II since its inception in November 2020 and as Chairman of Dragoneer III since its inception in March 2021. Mr. Stad received his AB degree from Harvard University and his MBA from the Stanford Graduate School of Business.

We believe Mr. Stad is well qualified to serve as a member of our board of directors due to his significant investment experience and vast network of relationships.

Pat Robertson serves as the President, Chief Operating Officer and a Director of Dragoneer Growth Opportunities Corp. Mr. Robertson also currently serves as President and Chief Operating Officer at Dragoneer. Prior to joining Dragoneer at its inception in April 2012, Mr. Robertson was a member of Hall Capital Partners' research group in San Francisco. His prior experience includes Goldman Sachs & Co.'s investment banking division and the law firm of Kirkland & Ellis LLP. Additionally, Mr. Robertson has served as the President, Chief Operating Officer and a Director of Dragoneer II since its inception in November 2020 and of Dragoneer III since its inception in March 2021. Mr. Robertson received his AB degree in Economics and History from Brown University and his JD from the Harvard Law School. Mr. Robertson is a CFA Charterholder.

We believe Mr. Robertson is well qualified to serve as a member of our board of directors due to his depth of investment experience and vast network of relationships.

[Table of Contents](#)

Sarah Friar has served on the board of directors of Dragoneer Growth Opportunities Corp since the Initial Public Offering. Ms. Friar has served as Chief Executive Officer at Nextdoor, Inc., a social network for neighborhoods since December 2018. From July 2012 to November 2018, Ms. Friar served as Chief Financial Officer at Square, Inc., a financial services and mobile payment company. From April 2011 to July 2012, Ms. Friar served as Senior Vice President, Finance and Strategy at salesforce.com, inc. Ms. Friar also serves as a member of the board of directors of Walmart Inc., a publicly-traded retail and wholesale operations company, and Slack Technologies, Inc., a publicly-traded channel-based messaging platform. From September 2012 to May 2015, Ms. Friar served as a member of the board of directors of Model N, Inc., a publicly-traded company providing revenue management cloud solutions for life sciences and technology companies. From June 2014 to April 2018, Ms. Friar served as a member of the board of directors of New Relic, Inc., a publicly-traded provider of real-time insights for software-driven businesses. Additionally, Ms. Friar has served as a Director of Dragoneer II since November 2020 and as a Director of Dragoneer III since March 2021. Ms. Friar holds a Master of Business Administration from Stanford University and a Master of Engineering in Metallurgy, Economics, and Management from the University of Oxford.

We believe that Ms. Friar is well qualified to serve as a member of our board because of her experience as a public company executive, her extensive finance background, her service as a current and former director of public companies, and her vast network of relationships.

Douglas Merritt has served on the board of directors of Dragoneer Growth Opportunities Corp since the Initial Public Offering. Mr. Merritt has served as President, CEO and a member of the Board of Splunk Inc. since 2015. Mr. Merritt served as Senior Vice President of Field Operations at Splunk from 2014 to 2015. Prior to joining Splunk, he served as Senior Vice President of Products and Solutions Marketing at Cisco Systems, Inc., a networking company, from 2012 to 2014. From 2011 to 2012, he served as Chief Executive Officer of Baynote, Inc., a behavioral personalization and marketing technology company. Previously, Mr. Merritt served in a number of executive roles and as a member of the extended Executive Board at SAP A.G., an enterprise software company, from 2005 to 2011. From 2001 to 2004, Mr. Merritt served as Group Vice President and General Manager of the Human Capital Management Product Division at PeopleSoft Inc., a software company (acquired by Oracle Corporation). He also co-founded and served as Chief Executive Officer of Icarian, Inc., a cloud-based company (since acquired by Workstream Corp.), from 1996 to 2001. Mr. Merritt holds a B.S. from The University of the Pacific in Stockton, California.

We believe Mr. Merritt is well qualified to serve as a member of our board due to his industry knowledge and his experience as a public company executive.

David D. Ossip has served on the board of directors of Dragoneer Growth Opportunities Corp since the Initial Public Offering. Mr. Ossip is the Chair of the Board and Chief Executive Officer of Ceridian HCM Holding Inc., positions he has held since August 2015 and July 2013, respectively. Mr. Ossip joined Ceridian following its acquisition of Dayforce Corporation in 2012, where he held the position of chief executive officer. Mr. Ossip is currently a director for Ossip Consulting Inc., OSDAC Corp., and 100 Wingarden Properties Ltd., each a private company. Additionally, Mr. Ossip has served as a Director of Dragoneer II since November 2020 and as a Director of Dragoneer III since March 2021. Mr. Ossip holds a bachelor's degree in Econometrics and Quantitative Economics from the University of Toronto and an M.B.A. from Harvard University.

We believe Mr. Ossip is well qualified to serve as a member of our board due to his strategic expertise, deep industry knowledge and vast network of relationships.

Gokul Rajaram has served on the board of directors of Dragoneer Growth Opportunities Corp since the Initial Public Offering. He has served as a Director of Pinterest since February 2020, The Trade Desk since May 2018 and Course Hero since June 2008 and has served on the executive team at DoorDash since November 2019. Prior to DoorDash, he worked at Square as Product Engineering Lead from July 2013 to October 2019, where he led several product development teams and served on Square's executive team. Prior to Square, he served as Product Director of Ads at Facebook from August 2010 to July 2013, where he helped Facebook transition its advertising business to become mobile-first. Earlier in his career, Mr. Rajaram served as a Product Management Director for Google AdSense, where he helped launch the product and grow it into a substantial portion of Google's business. Additionally, Mr. Rajaram has served as a Director of Dragoneer II since November 2020 and as a Director of Dragoneer III since March 2021. Mr. Rajaram holds a bachelor's degree in Computer Science Engineering from the Indian Institute of Technology, Kanpur where he received the President's Gold Medal for being class valedictorian. He also holds an M.B.A. from The Massachusetts Institute of Technology and a Master of Computer Science from the University of Texas at Austin, where he received the MCD University Fellowship.

[Table of Contents](#)

We believe Mr. Rajaram is well qualified to serve as a member of our board of directors due to his extensive industry experience, serving as an executive and board member of several companies, as well as his vast network of relationships.

Jay Simons has served on the board of directors of Dragoneer Growth Opportunities Corp since the Initial Public Offering. From 2011 until June 2020, Mr. Simons served as president of Atlassian Corporation Plc. From 2008 to 2011, Mr. Simons was vice president of sales and marketing at Atlassian. From October 2005 to May 2008, Mr. Simons served in various roles, including vice president, marketing, at BEA Systems, Inc. an enterprise software company, which was acquired by Oracle Corporation in 2008. From 1998 to 2005, Mr. Simons served in various roles, including vice president, product marketing and strategy, at Plumtree Software, Inc., a web software company, which was acquired by BEA Systems, Inc. in 2005. Mr. Simons is currently a director of Hubspot, Inc. Additionally, Mr. Simons has served as a Director of Dragoneer II since November 2020 and as a Director of Dragoneer III since March 2021. Mr. Simons holds a bachelor's degree in Political and Environmental Science from the University of Washington.

We believe Mr. Simons is well qualified to serve as a member of our board due to his strategic expertise, deep industry knowledge and vast network of relationships.

Number and Terms of Officers and Directors

Our board of directors is divided into three classes, with only one class of directors being appointed in each year, and with each class (except for those directors appointed prior to our first annual general meeting) serving a three-year term. In accordance with the NYSE corporate governance requirements, we are not required to hold an annual general meeting until one year after our first fiscal year end following our listing on the NYSE. The term of office of the first class of directors, consisting of Marc Stad and Pat Robertson, will expire at our first annual general meeting. The term of office of the second class of directors, consisting of Sarah J. Friar and Douglas Merritt, will expire at our second annual general meeting. The term of office of the third class of directors, consisting of David D. Ossip, Gokul Rajaram and Jay Simons, will expire at our third annual general meeting.

Prior to the completion of an initial Business Combination, any vacancy on the board of directors may be filled by a nominee chosen by holders of a majority of our founder shares. In addition, prior to the completion of an initial Business Combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason.

Pursuant to an agreement entered into prior to the closing of our Initial Public Offering, our sponsor, upon and following consummation of an initial Business Combination, is entitled to nominate three individuals for appointment to our board of directors, as long as the sponsor holds any securities covered by the registration and shareholder rights agreement.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint persons to the offices set forth in our amended and restated memorandum and articles of association as it deems appropriate. Our amended and restated memorandum and articles of association provide that our officers may consist of one or more chairman of the board, chief executive officer, president, chief financial officer, vice presidents, secretary, treasurer and such other offices as may be determined by the board of directors.

Committees of the Board of Directors

Our board of directors has three standing committees: an audit committee, a nominating committee and a compensation committee. Subject to phase-in rules and a limited exception, the rules of the NYSE and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors. Subject to phase-in rules and a limited exception, the rules of the NYSE require that the compensation committee and the nominating committee of a listed company be comprised solely of independent directors.

Audit Committee

David D. Ossip, Gokul Rajaram and Jay Simons serve as members of our audit committee. Our board of directors has determined that each of David D. Ossip, Gokul Rajaram and Jay Simons are independent under the NYSE listing standards and applicable SEC rules. Gokul Rajaram serves as the Chairman of the audit committee. Under the NYSE listing standards and applicable SEC rules, all the directors on the audit committee must be independent. Each member of the audit committee is financially literate and our board of directors has determined that David D. Ossip, Gokul Rajaram and Jay Simons qualify as an “audit committee financial expert” as defined in applicable SEC rules.

The audit committee is responsible for:

- meeting with our independent registered public accounting firm regarding, among other issues, audits, and adequacy of our accounting and control systems;
- monitoring the independence of the independent registered public accounting firm;
- verifying the rotation of the lead (or coordinating) audit partner having primary responsibility for the audit and the audit partner responsible for reviewing the audit as required by law;
- inquiring and discussing with management our compliance with applicable laws and regulations;
- pre-approving all audit services and permitted non-audit services to be performed by our independent registered public accounting firm, including the fees and terms of the services to be performed;
- appointing or replacing the independent registered public accounting firm;
- determining the compensation and oversight of the work of the independent registered public accounting firm (including resolution of disagreements between management and the independent auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or related work;
- establishing procedures for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or reports which raise material issues regarding our financial statements or accounting policies;
- monitoring compliance on a quarterly basis with the terms of our Initial Public Offering and, if any noncompliance is identified, immediately taking all action necessary to rectify such noncompliance or otherwise causing compliance with the terms of our Initial Public Offering; and
- reviewing and approving all payments made to our existing shareholders, executive officers or directors and their respective affiliates. Any payments made to members of our audit committee will be reviewed and approved by our board of directors, with the interested director or directors abstaining from such review and approval.

Nominating Committee

The members of our nominating committee are Douglas Merritt and Gokul Rajaram, and Douglas Merritt serves as chairman of the nominating committee. Under the NYSE listing standards, we are required to have a nominating committee composed entirely of independent directors. Our board of directors has determined that each of Douglas Merritt and Gokul Rajaram are independent.

[Table of Contents](#)

The nominating committee is responsible for overseeing the selection of persons to be nominated to serve on our board of directors. The nominating committee considers persons identified by its members, management, shareholders, investment bankers and others.

Guidelines for Selecting Director Nominees

The guidelines for selecting nominees, which will be specified in a charter to be adopted by us, generally will provide that persons to be nominated:

- should have demonstrated notable or significant achievements in business, education or public service;
- should possess the requisite intelligence, education and experience to make a significant contribution to the board of directors and bring a range of skills, diverse perspectives and backgrounds to its deliberations; and
- should have the highest ethical standards, a strong sense of professionalism and intense dedication to serving the interests of the shareholders.

The nominating committee considers a number of qualifications relating to management and leadership experience, background and integrity and professionalism in evaluating a person's candidacy for membership on the board of directors. The nominating committee may require certain skills or attributes, such as financial or accounting experience, to meet specific board needs that arise from time to time and will also consider the overall experience and makeup of its members to obtain a broad and diverse mix of board members. The nominating committee does not distinguish among nominees recommended by shareholders and other persons.

Compensation Committee

The members of our compensation committee are Sarah J. Friar and Jay Simons, and Jay Simons serves chairman of the compensation committee.

Under the NYSE listing standards, we are required to have a compensation committee composed entirely of independent directors. Our board of directors has determined that each of Sarah J. Friar and Jay Simons are independent. We have adopted a compensation committee charter, which will detail the principal functions of the compensation committee, including:

reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;

- reviewing and approving the compensation of all of our other Section 16 executive officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our executive officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

[Table of Contents](#)

The charter provides that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser.

However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by the NYSE and the SEC.

Compensation Committee Interlocks and Insider Participation

None of our executive officers currently serves, and in the past year has not served, as a member of the compensation committee of any entity that has one or more executive officers serving on our board of directors.

Code of Business Conduct and Ethics

We have adopted a Code of Ethics applicable to our directors, officers and employees. A copy of the Code of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K.

ITEM 11. EXECUTIVE COMPENSATION.

None of our executive officers or directors have received any cash compensation for services rendered to us. Our sponsor, executive officers and directors, or their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable Business Combinations. Our audit committee will review on a quarterly basis all payments that were made by us to our sponsor, executive officers or directors, or their affiliates. Any such payments prior to an initial Business Combination will be made using funds held outside the trust account. Other than quarterly audit committee review of such reimbursements, we do not expect to have any additional controls in place governing our reimbursement payments to our directors and executive officers for their out-of-pocket expenses incurred in connection with our activities on our behalf in connection with identifying and consummating an initial Business Combination. Other than these payments and reimbursements, no compensation of any kind, including finder's and consulting fees, will be paid by the Company to our sponsor, executive officers and directors, or their respective affiliates, prior to completion of our initial Business Combination.

After the completion of our initial Business Combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to shareholders, to the extent then known, in the proxy solicitation materials or tender offer materials furnished to our shareholders in connection with a proposed Business Combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed Business Combination because the directors of the post-combination business will be responsible for determining executive officer and director compensation. Any compensation to be paid to our executive officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial Business Combination, although it is possible that some or all of our executive officers and directors may negotiate employment or consulting arrangements to remain with us after our initial Business Combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial Business Combination will be a determining factor in our decision to proceed with any potential Business Combination. We are not party to any agreements with our executive officers and directors that provide for benefits upon termination of employment.

[Table of Contents](#)

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The following table sets forth information regarding the beneficial ownership of our ordinary shares as of March 29, 2021 held by:

- each person known by us to be the beneficial owner of more than 5% of our issued and outstanding ordinary shares;
- each of our executive officers and directors that beneficially owns ordinary shares; and
- all our executive officers and directors as a group.

The following table is based on 86,250,000 ordinary shares outstanding at March 29, 2021, of which 69,000,000 were Class A ordinary shares and 17,250,000 were Class B ordinary shares. Unless otherwise indicated, it is believed that all persons named in the table below have sole voting and investment power with respect to all ordinary shares beneficially owned by them.

Name of Beneficial Owner(1)	Class A Ordinary Shares		Class B Ordinary Shares(2)		Approximate Percentage of Outstanding Ordinary Shares
	Number of Shares Beneficially Owned	Approximate Percentage of Class	Number of Shares Beneficially Owned	Approximate Percentage of Class	
Dragoneer Growth Opportunities Holdings (our sponsor)(3)	—	—	16,875,000	97.8%	19.6%
Marc Stad (3)	—	—	16,875,000	97.8%	19.6%
Pat Robertson	—	—	— (4)	*	*
Sarah J. Friar	—	—	75,000	*	*
Douglas Merritt	—	—	75,000	*	*
David D. Ossip	—	—	75,000	*	*
Gokul Rajaram	—	—	75,000	*	*
Jay Simons	—	—	75,000	—	—
All executive officers and directors as a group (7 individuals)	—	—	17,250,000	100%	20.0%
D1 Capital Partners L.P.	4,000,000	5.8%	—	—	4.6%
Altimeter Capital Management General Partner LLC	3,500,000	5.07%	—	—	4.1%

* Less than one percent.

- (1) Unless otherwise noted, the business address of each of our shareholders is One Letterman Drive, Building D, Suite M500, San Francisco, California 94129.
- (2) Interests shown consist solely of founder shares, classified as Class B ordinary shares. Such shares will automatically convert into Class A ordinary shares at the time of our initial Business Combination.

Table of Contents

- (3) The shares reported above are held in the name of our sponsor. Our sponsor is controlled by Mr. Stad, who may therefore be deemed to beneficially own the shares held by our sponsor. Mr. Stad disclaims beneficial ownership of the shares held by our sponsor except to the extent of his pecuniary interest therein.
- (4) Does not include any shares indirectly owned by this individual as a result of his membership interest in our sponsor.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

On July 10, 2020, our sponsor paid \$25,000, or approximately \$0.001 per share, to cover certain of our offering and formation costs in consideration of 17,250,000 Class B ordinary shares, par value \$0.0001. In July 2020, our sponsor transferred 75,000 Class B ordinary shares to each of our independent directors. The founder shares (including the Class A ordinary shares issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

Our sponsor purchased an aggregate of 15,800,000 private placement warrants for a purchase price of \$1.00 per whole warrant, or \$15,800,000 in the aggregate, in a private placement that occurred simultaneously with the closing of our Initial Public Offering. Each private placement warrant entitles the holder to purchase one Class A ordinary share at \$11.50 per share, subject to adjustment. The private placement warrants (including the Class A ordinary shares issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder until 30 days after the completion of our initial Business Combination.

We have entered into (i) a forward purchase agreement pursuant to which Dragoneer Funding, which has received commitments from one or more funds affiliated with Dragoneer, has agreed to subscribe for an aggregate of 15,000,000 forward purchase units, consisting of one Class A ordinary share and one-fifth of one warrant to purchase one Class A ordinary share for \$10.00 per unit, or \$150,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of our initial Business Combination and (ii) a forward purchase agreement pursuant to which the Willett Purchasers have agreed to subscribe for an aggregate of 2,500,000 forward purchase units, consisting of one Class A ordinary share, or a forward purchase share, and one-fifth of one warrant to purchase one Class A ordinary share, or a forward purchase warrant, for \$10.00 per unit, or \$25,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of our initial Business Combination. If the sale of the forward purchase units fails to close, for any reason, we may lack sufficient funds to consummate our initial Business Combination.

The forward purchase agreements also provide that the forward purchase investors are entitled to registration rights with respect to their (A) forward purchase shares, (B) the Class A ordinary shares issuable upon exercise of the forward purchase warrants and (B) any other Class A ordinary shares acquired by the forward purchase investors, including any time after we complete our initial Business Combination.

If any of our officers or directors becomes aware of a Business Combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us. We may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity to which an officer or director has a fiduciary or contractual obligation. Any such entity may co-invest with us in the target business at the time of our initial Business Combination, or we could raise additional proceeds to complete the acquisition by making a specified future issuance to any such entity.

We currently maintain our executive offices at One Letterman Drive, Building D, Suite M500, San Francisco, California 94129. Our sponsor has agreed to provide us office space and general administrative services at no cost.

No compensation of any kind, including finder's and consulting fees, will be paid to our sponsor, officers and directors, or their respective affiliates, for services rendered prior to or in connection with the completion of an initial Business Combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing

Table of Contents

due diligence on suitable Business Combinations. Our audit committee will review on a quarterly basis all payments that were made by us to our sponsor, officers, directors or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

In addition, in order to finance transaction costs in connection with an intended initial Business Combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete an initial Business Combination, we may repay such loaned amounts out of the proceeds of the trust account released to us. In the event that the initial Business Combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor, its affiliates or our management team as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

After our initial Business Combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our shareholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our shareholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a general meeting held to consider our initial Business Combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We have entered into a registration and shareholder rights agreement pursuant to which our sponsor is entitled to certain registration rights with respect to the private placement warrants, the warrants issuable upon conversion of working capital loans (if any) and the Class A ordinary shares issuable upon exercise of the foregoing and upon conversion of the founder shares, and, upon consummation of our initial Business Combination, to nominate three individuals for appointment to our board of directors, as long as the sponsor holds any securities covered by a registration and shareholder rights agreement. In addition, pursuant to the forward purchase agreements, we will agree that we will use our commercially reasonable efforts to (i) within 30 days after the closing of the initial Business Combination, file a registration statement with the SEC for a secondary offering of (A) the forward purchase shares, (B) the Class A ordinary shares issuable upon exercise of the forward purchase warrants and (C) any other Class A ordinary shares acquired by the forward purchase investors, including any acquisitions after we complete our initial Business Combination, (ii) cause such registration statement to be declared effective promptly thereafter, but in no event later than 90 days after the closing of the initial Business Combination and (iii) maintain the effectiveness of such registration statement and to ensure the registration statement does not contain a material omission or misstatement, including by way of amendment or other update, as required, until the earlier of (A) the date on which a forward purchase investor ceases to hold the securities covered thereby and (B) the date all of the securities covered thereby can be sold publicly without restriction or limitation under Rule 144 under the Securities Act and without the requirement to be in compliance with Rule 144(c)(1) under the Securities Act, subject to certain conditions and limitations set forth in the forward purchase agreements. We will bear the expenses incurred in connection with the filing of any such registration statements.

Related Person Transactions Policy

The audit committee of our board of directors adopted a charter, providing for the review, approval and/or ratification of “related party transactions,” which are those transactions required to be disclosed pursuant to Item 404 of Regulation S-K as promulgated by the SEC, by the audit committee. At its meetings, the audit committee shall be provided with the details of each new, existing, or proposed related party transaction, including the terms of the transaction, any contractual restrictions that the Company has already committed to, the business purpose of the transaction, and the benefits of the transaction to the Company and to the relevant related party. Any member of the committee who has an interest in the related party transaction under review by the committee shall abstain from voting on the approval of the related party transaction, but may, if so requested by the chairman of the committee, participate in some or all of the committee’s discussions of the related party transaction. Upon completion of its review of the related party transaction, the committee may determine to permit or to prohibit the related party transaction.

Director Independence

NYSE listing standards require that a majority of our board of directors be independent. An “independent director” is defined generally as a person other than an officer or employee of a company or its subsidiaries or any other individual having a relationship which in the opinion of the company’s board of directors, would interfere with the director’s exercise of independent judgment in carrying out the responsibilities of a director. Our Board of Directors has determined that Sarah J. Friar, David D. Ossip, Douglas Merrit, Gokul Rajaram, and Jay Simons are “independent directors” under applicable SEC and NYSE rules. Our independent directors have regularly scheduled meetings at which only independent directors are present.

In addition to the transactions described above, we and our sponsor, among others, entered into certain agreements in connection with the signing of the Business Combination Agreement, pursuant to which, among other things, our sponsor and our directors and officers have certain interests. For more information, please see Item 1. Business – “Recent Developments.”

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The firm of WithumSmith+Brown, PC, or Withum, acts as our independent registered public accounting firm. The following is a summary of fees paid to Withum for services rendered.

Audit Fees. During the period from July 3, 2020 (inception) through December 31, 2020, fees for our independent registered public accounting firm were approximately \$71,070 for the services Withum performed in connection with our Initial Public Offering, review of the financial information included in our Forms 10-Q for the respective periods and the audit of our December 31, 2020 financial statements included in this Annual Report on Form 10-K.

Audit-Related Fees. During the period from July 3, 2020 (inception) through December 31, 2020, our independent registered public accounting firm did not render assurance and related services related to the performance of the audit or review of financial statements.

Tax Fees. During the period from July 3, 2020 (inception) through December 31, 2020, our independent registered public accounting firm did not render services to us for tax compliance, tax advice and tax planning.

All Other Fees. During the period from July 3, 2020 (inception) through December 31, 2020, there were no fees billed for products and services provided by our independent registered public accounting firm other than those set forth above.

Pre-Approval Policy

Our audit committee was formed upon the consummation of our Initial Public Offering. As a result, the audit committee did not pre-approve all of the foregoing services, although any services rendered prior to the formation of our audit committee were approved by our board of directors. Since the formation of our audit committee, and on a going-forward basis, the audit committee has and will pre-approve all auditing services and permitted non-audit services to be performed for us by our auditors, including the fees and terms thereof (subject to the de minimis exceptions for non-audit services described in the Exchange Act which are approved by the audit committee prior to the completion of the audit).

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of
Dragoneer Growth Opportunities Corp.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Dragoneer Growth Opportunities Corp. (the “Company”), as of December 31, 2020, the related statements of operations, changes in shareholders’ equity and cash flows for the period from July 3, 2020 (inception) through December 31, 2020, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020, and the results of its operations and its cash flows for the period from July 3, 2020 (inception) through December 31, 2020, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ WithumSmith+Brown, PC

We have served as the Company’s auditor since 2020.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

NOTE 1 — DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Dragoneer Growth Opportunities Corp. (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on July 3, 2020. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (a “Business Combination”).

The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of December 31, 2020, the Company had not commenced any operations. All activity for the period from July 3, 2020 (inception) through December 31, 2020 relates to the Company’s formation, the initial public offering (“Initial Public Offering”), which is described below, identifying a target company for a Business Combination and activities in connection with the proposed acquisition of Chariot Opportunity Merger Sub, Inc., a Delaware corporation (“Chariot Merger Sub”), and Cypress Holdings, Inc., a Delaware corporation (“CCC”) (see Note 9).

The registration statement for the Company’s Initial Public Offering was declared effective on August 13, 2020. On August 18, 2020, the Company consummated the Initial Public Offering of 69,000,000 units (the “Units” and, with respect to the Class A ordinary shares included in the Units sold, the “Public Shares”), which includes the full exercise by the underwriters of their over-allotment option in the amount of 9,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$690,000,000 which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 15,800,000 warrants (the “Private Placement Warrants”) at a price of \$1.00 per Private Placement Warrant in a private placement to the Company’s sponsor, Dragoneer Growth Opportunities Holdings (the “Sponsor”), generating gross proceeds of \$15,800,000, which is described in Note 4.

Transaction costs amounted to \$38,924,273, consisting of \$13,800,000 of underwriting fees, \$24,150,000 of deferred underwriting fee and \$974,273 of other offering costs.

Following the closing of the Initial Public Offering on August 18, 2020, an amount of \$690,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and a portion of the net proceeds from the sale of the Private Placement Warrants was placed in a non-interest bearing trust account (the “Trust Account”) which the Company expects will not earn interest or be invested until January 1, 2021, after which the proceeds will be invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less, or in any open-ended investment company that holds itself out as a money market fund investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earliest of: (i) the completion of a Business Combination and (ii) the distribution of the funds in the Trust Account to the Company’s shareholders, as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The NYSE listing rules require that the Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the Trust Account). The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. There is no assurance that the Company will be able to successfully effect a Business Combination.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

The Company will provide the holders of the public shares (the “Public Shareholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of the Business Combination, either (i) in connection with a general meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their Public Shares, equal to the aggregate amount then on deposit in the Trust Account, calculated as of two business days prior to the consummation of the Business Combination (initially anticipated to be \$10.00 per Public Share), including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to certain limitations as described in the prospectus. The per-share amount to be distributed to the Public Shareholders who properly redeem their shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 6). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants.

The Company will proceed with a Business Combination only if the Company has net tangible assets of at least \$5,000,001 and, if the Company seeks shareholder approval, it receives an ordinary resolution under Cayman Islands law approving a Business Combination, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of the Company. If a shareholder vote is not required and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Memorandum and Articles of Association, conduct the redemptions pursuant to the tender offer rules of the Securities and Exchange Commission (“SEC”), and file tender offer documents containing substantially the same information as would be included in a proxy statement with the SEC prior to completing a Business Combination. If the Company seeks shareholder approval in connection with a Business Combination, the Company’s Sponsor has agreed to vote its Founder Shares (as defined in Note 5) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each Public Shareholder may elect to redeem their Public Shares, without voting, and if they do vote, irrespective of whether they vote for or against a proposed Business Combination.

Notwithstanding the foregoing, if the Company seeks shareholder approval of the Business Combination and the Company does not conduct redemptions pursuant to the tender offer rules, a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares without the Company’s prior written consent.

The Sponsor has agreed (a) to waive its redemption rights with respect to any Founder Shares and Public Shares held by it in connection with the completion of a Business Combination and (b) not to propose an amendment to the Amended and Restated Memorandum and Articles of Association (i) to modify the substance or timing of the Company’s obligation to allow redemption in connection with the Company’s initial Business Combination or to redeem 100% of the Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or (ii) with respect to any other provision relating to shareholders’ rights or pre-initial business combination activity, unless the Company provides the Public Shareholders with the opportunity to redeem their Public Shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding Public Shares.

The Company will have until August 18, 2022 (or November 18, 2022 if the Company has executed a letter of intent, agreement in principle or definitive agreement for a Business Combination by August 18, 2022 but has not completed a Business Combination by August 18, 2022) to consummate a Business Combination (the “Combination Period”). However, if the Company has not completed a Business Combination within the Combination Period as may be extended from time to time by the Company as a result of a shareholder vote to amend its Amended and Restated Memorandum and Articles of Association (an “Extension Period”), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding Public Shares, which redemption will completely extinguish the rights of the Public Shareholders as shareholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

reasonably possible following such redemption, subject to the approval of the Company's remaining Public Shareholders and its Board of Directors, liquidate and dissolve, subject in each case to the Company's obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period or any Extension Period.

The Sponsor has agreed to waive its rights to liquidating distributions from the Trust Account with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period or any Extension Period. However, if the Sponsor or any of its respective affiliates acquire Public Shares, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period or any Extension Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period or any Extension Period, and in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

In order to protect the amounts held in the Trust Account, the Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party (other than the Company's independent registered public accounting firm) for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below the lesser of (1) \$10.00 per Public Share and (2) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account if less than \$10.00 per Public Shares due to reductions in the value of trust assets, in each case net of the interest which may be withdrawn to pay taxes, provided that such liability will not apply to any claims by a third party or prospective target business that executed a waiver of any and all rights to seek access to the Trust Account nor will it apply to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). In the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are presented in U.S. dollars and have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the accounting and disclosure rules and regulations of the Securities and Exchange Commission (the "SEC").

Emerging Growth Company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies, including, but not limited to, not being required to comply with auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of December 31, 2020.

Cash Held in Trust Account

At December 31, 2020, the assets held in the Trust Account were held in cash.

Class A Ordinary Shares Subject to Possible Redemption

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." Class A ordinary shares subject to mandatory redemption are classified as a liability instrument and are measured at fair value. Conditionally redeemable ordinary shares (including ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, ordinary shares are classified as shareholders' equity. The Company's ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, at December 31, 2020, Class A ordinary shares subject to possible redemption is presented as temporary equity, outside of the shareholders' equity section of the Company's balance sheet.

Offering Costs

Offering costs consist of underwriting, legal, accounting and other expenses incurred through the Initial Public Offering that are directly related to the Initial Public Offering. Offering costs amounting to \$38,924,273 were charged to shareholders' equity upon the completion of the Initial Public Offering.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Income Taxes

The Company accounts for income taxes under ASC Topic 740, "Income Taxes," which prescribes a recognition threshold and a measurement attribute for the financial statements recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company's management determined that the Cayman Islands is the Company's major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of December 31, 2020, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company is considered to be a Cayman Islands exempted company with no connection to any other taxable jurisdiction and is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States. As such, the Company's tax provision was zero for the period presented.

Net Loss Per Ordinary Share

Net loss per share is computed by dividing net income (loss) by the weighted average number of ordinary shares outstanding for the period. The calculation of diluted loss per share does not consider the effect of the warrants issued in connection with the (i) Initial Public Offering, (ii) the exercise of the over-allotment option and (iii) Private Placement Warrants since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive. The warrants are exercisable to purchase 29,600,000 shares of Class A ordinary shares in the aggregate.

The Company's statement of operations includes a presentation of income (loss) per share for ordinary shares subject to possible redemption in a manner similar to the two-class method of income (loss) per share. Net income per share, basic and diluted, for Class A redeemable ordinary shares is calculated by dividing the interest income earned on the Trust Account, by the weighted average number of Class A redeemable ordinary shares outstanding since original issuance. Net loss per share, basic and diluted, for Class B non-redeemable ordinary shares is calculated by dividing the net loss, adjusted for income attributable to Class A redeemable ordinary shares, by the weighted average number of Class B non-redeemable ordinary shares outstanding for the period. Class B non-redeemable ordinary shares includes the Founder Shares as these shares do not have any redemption features and do not participate in the income earned on the Trust Account.

The following table reflects the calculation of basic and diluted net income (loss) per ordinary share (in dollars, except per share amounts):

	For the Period from July 3, 2020 (inception) Through December 31, 2020
Redeemable Class A Ordinary Shares	
Numerator: Earnings allocable to Redeemable Class A Ordinary Shares	
Interest Income	\$ —
Net Earnings	<u>\$ —</u>
Denominator: Weighted Average Redeemable Class A Ordinary Shares	
Redeemable Class A Ordinary Shares, Basic and Diluted	69,000,000
Earnings/Basic and Diluted Redeemable Class A Ordinary Shares	<u>\$ 0.00</u>
Non-Redeemable Class B Ordinary Shares	
Numerator: Net Loss minus Redeemable Net Earnings	
Net Loss	\$ (1,042,637)
Redeemable Net Earnings	<u>\$ —</u>
Non-Redeemable Net Loss	<u>\$ (1,042,637)</u>
Denominator: Weighted Average Non-Redeemable Class B Ordinary Shares	
Non-Redeemable Class B Ordinary Shares, Basic and Diluted	17,250,000
Loss/Basic and Diluted Non-Redeemable Class B Ordinary Shares	<u>\$ (0.06)</u>

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Note: As of December 31, 2020, basic and diluted shares are the same as there are no non-redeemable securities that are dilutive to the shareholders.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC Topic 820, "Fair Value Measurement," approximate the carrying amounts represented in the accompanying balance sheet, primarily due to their short-term nature.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the Company's financial statements.

NOTE 3 — INITIAL PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 69,000,000 Units, which includes the full exercise by the underwriters of their over-allotment option in the amount of 9,000,000 Units, at purchase price of \$10.00 per Unit. Each Unit consists of one Class A ordinary share and one-fifth of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per whole share (see Note 7).

NOTE 4 — PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 15,800,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$15,800,000. Each Private Placement Warrant is exercisable to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 7). A portion of the proceeds from the Private Placement Warrants were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period or any Extension Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

NOTE 5 — RELATED PARTY TRANSACTIONS

Founder Shares

In July 2020, the Sponsor paid \$25,000 to cover certain offering and formation costs of the Company in consideration for 17,250,000 Class B ordinary shares (the "Founder Shares"). On July 23, 2020, the Sponsor transferred 75,000 Founder Shares to each of the Company's directors. The Founder Shares included an aggregate of

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

up to 2,250,000 shares that were subject to forfeiture depending on the extent to which the underwriters' over-allotment option was exercised, so that the number of Founder Shares would equal, on an as-converted basis, approximately 20% of the Company's issued and outstanding ordinary shares after the Initial Public Offering. As a result of the underwriters' election to fully exercise their over-allotment option, 2,250,000 Founder Shares are no longer subject to forfeiture.

Each of the Company's initial shareholders has agreed, subject to limited exceptions, not to transfer, assign or sell any of its Founder Shares until the earliest of: (A) one year after the completion of a Business Combination and (B) subsequent to a Business Combination, (x) if the closing price of the Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share subdivisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 120 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, share exchange or other similar transaction that results in all of the Public Shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property.

Advances from Related Party

An affiliate of the Sponsor advanced the Company an aggregate of \$1,400,894 to cover expenses related to the Initial Public Offering and for working capital purposes. The advances are non-interest bearing and due on demand. Advances in the aggregate amount of \$1,383,191 were repaid during the year ended December 31, 2020. As of December 31, 2020, advances in the aggregate amount of \$17,703 are outstanding.

Promissory Note – Related Party

On July 10, 2020, the Company issued an unsecured promissory note (the "Promissory Note") to the Sponsor, pursuant to which the Company could borrow up to an aggregate principal amount of \$300,000. The Promissory Note was non-interest bearing and payable on the earlier of (i) December 31, 2020 or (ii) the completion of the Initial Public Offering. There were no outstanding borrowings under the Promissory Note as of December 31, 2020.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). Such Working Capital Loans would be evidenced by promissory notes. The notes may be repaid upon completion of a Business Combination, without interest, or, at the lender's discretion, up to \$2,000,000 of notes may be converted upon completion of a Business Combination into warrants at a price of \$1.00 per warrant. Such warrants would be identical to the Private Placement Warrants. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. As of December 31, 2020, the Company had no outstanding borrowings under the Working Capital Loans.

On January 19, 2021, the Company entered into a convertible promissory note with the Sponsor pursuant to which the Sponsor agreed to loan the Company up to an aggregate principal amount of \$2,000,000 (the "Convertible Promissory Note") (see Note 9).

NOTE 6 — COMMITMENTS AND CONTINGENCIES

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Registration and Shareholder Rights

Pursuant to a registration rights agreement entered into on August 13, 2020, the holders of the Founder Shares, Private Placement Warrants and any warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of the Working Capital Loans) will be entitled to registration rights pursuant to a registration and shareholder rights agreement. The holders of these securities will be entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. However, the registration and shareholder rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The underwriters were paid a cash underwriting discount of \$0.20 per Unit, or \$13,800,000 in the aggregate. In addition, the underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$24,150,000 in the aggregate. The deferred fee will be forfeited by the underwriters in the event that the Company fails to complete a Business Combination, subject to the terms of the underwriting agreement.

Forward Purchase Agreements

On July 24, 2020 and August 12, 2020, the Company entered into two respective forward purchase agreements which provide for the purchase by each of Dragoneer Funding LLC (“Dragoneer Funding”) and entities managed by or associated with Willett Advisors LLC of up to a combined aggregate of 17,500,000 units (the “forward purchase units”), with each unit consisting of one Class A ordinary share and one-fifth of one warrant to purchase one Class A ordinary share for \$10.00 per unit, or \$175,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of a Business Combination.

The obligations under the forward purchase agreements will not depend on whether any public shareholders elect to redeem their shares and provide a minimum funding level for the initial Business Combination. The forward purchase shares and forward purchase warrants will be identical to the Class A ordinary shares and warrants, respectively, included in the Units sold in the Initial Public Offering, except that they will be subject to certain registration rights.

NOTE 7 — SHAREHOLDERS’ EQUITY

Preference Shares—The Company is authorized to issue 1,000,000 preference shares with a par value of \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At December 31, 2020, there were no preference shares issued or outstanding.

Class A Ordinary Shares—The Company is authorized to issue 200,000,000 Class A ordinary shares, with a par value of \$0.0001 per share. Holders of Class A ordinary shares are entitled to one vote for each share. At December 31, 2020, there were 2,914,192 Class A ordinary shares issued and outstanding, excluding 66,085,808 Class A ordinary shares subject to possible redemption.

Class B Ordinary Shares—The Company is authorized to issue 20,000,000 Class B ordinary shares, with a par value of \$0.0001 per share. Holders of the Class B ordinary shares are entitled to one vote for each share. At December 31, 2020, there were 17,250,000 Class B ordinary shares issued and outstanding.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Holders of Class A ordinary shares and Class B ordinary shares will vote together as a single class on all matters submitted to a vote of shareholders, except as required by law. Prior to the Business Combination, only holders of the Founder Shares will have the right to vote on the appointment of directors. Holders of the Public Shares will not be entitled to vote on the appointment of directors during such time. In addition, prior to the completion of a Business Combination, holders of a majority of the Founder Shares may remove a member of the board of directors for any reason.

The Class B ordinary shares will automatically convert into Class A ordinary shares at the time of a Business Combination or earlier at the option of the holders thereof at a ratio such that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of ordinary shares issued and outstanding upon completion of the Initial Public Offering, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of a Business Combination, excluding any forward purchase securities and Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in a Business Combination and any Private Placement Warrants issued to the Sponsor, its affiliates or any member of the Company's management team upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one.

Warrants—Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Initial Public Offering. The Public Warrants will expire five years from the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A ordinary shares underlying the warrant is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable and the Company will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company has agreed that as soon as practicable, but in no event later than 20 business days after the closing of a Business Combination, it will use its commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants, and the Company will use its commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of the Business Combination, and to maintain the effectiveness of such registration statement and a current prospectus relating to those Class A ordinary shares until the warrant expire or are redeemed, as specified in the warrant agreement; provided that if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, but it will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th day after the closing of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption, but the Company will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00. Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted) on the trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00. Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described with respect to the Private Placement Warrants):

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to an agreed table based on the redemption date and the fair market value of the Class A ordinary shares; and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$10.00 per public share (as adjusted) on the trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If the Company calls the Public Warrants for redemption, as described above, its management will have the option to require any holder that wishes to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement. The exercise price and number of ordinary shares issuable upon exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, except as described below, the Public Warrants will not be adjusted for issuances of ordinary shares at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the Public Warrants. If the Company is unable to complete a Business Combination within the Combination Period or any Extension Period and the Company liquidates the funds held in the Trust Account, holders of Public Warrants will not receive any of such funds with respect to their Public Warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with respect to such Public Warrants. Accordingly, the Public Warrants may expire worthless.

In addition, if (x) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of its Class A ordinary shares during the 20 trading day period starting on the trading day prior to the

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

day on which the Company consummates its Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants and the Class A ordinary shares issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable, except as described above, so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

NOTE 8 — FAIR VALUE MEASUREMENTS

The fair value of the Company’s financial assets and liabilities reflects management’s estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

The Company classifies its U.S. Treasury and equivalent securities as held-to-maturity in accordance with ASC Topic 320 “Investments—Debt and Equity Securities.” Held-to-maturity securities are those securities which the Company has the ability and intent to hold until maturity. Held-to-maturity treasury securities are recorded at amortized cost and adjusted for the amortization or accretion of premiums or discounts. At December 31, 2020, the Company had no held-to-maturity securities.

At December 31, 2020, assets held in the Trust Account were comprised of \$690,000,000 in cash. During the year ended December 31, 2020, the Company did not withdraw any interest income from the Trust Account.

NOTE 9 — SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were issued. Based upon this review, other than as describe below, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

On January 19, 2021, the Company entered into a Convertible Promissory Note with the Sponsor pursuant to which the Sponsor agreed to loan the Company up to an aggregate principal amount of \$2,000,000. The Convertible Promissory Note is non-interest bearing and due on the date on which the Company consummates a Business Combination. If the Company does not consummate a Business Combination, the Company may use a portion of any funds held outside the Trust Account to repay the Convertible Promissory Note; however, no proceeds from the Trust Account may be used for such repayment. If such funds are insufficient to repay the Promissory Note, the unpaid amounts would be forgiven. Up to \$2,000,000 of the Convertible Promissory Note may be converted into warrants at a price of \$1.00 per warrant at the option of the Sponsor. The warrants would be identical to the Private Placement Warrants.

On February 2, 2021, the Company entered into a business combination agreement (the “Business Combination Agreement”), by and among the Company, Chariot Merger Sub and CCC. The Domestication, the Merger and the other transactions contemplated by the Business Combination Agreement are hereinafter referred to as the “Business Combination”.

The Business Combination Agreement provides for, among other things, the following transactions on the closing date: (i) the Company will become a Delaware corporation (the “Domestication”) and, in connection with the Domestication, (A) the Company’s name will be changed as determined by CCC in its sole discretion, (B) each outstanding Class A ordinary share of the Company and each outstanding Class B ordinary share of the Company will become one share of common stock of the Company (the “Dragoneer Common Stock”), and (C) each outstanding warrant of the Company will become one warrant to purchase one share of Dragoneer Common Stock; and (ii) following the Domestication, Chariot Merger Sub will merge with and into CCC, with CCC as the surviving company in the merger and, after giving effect to such merger, continuing as a wholly owned subsidiary of the Company (the “Merger”).

Concurrently with the execution of the Business Combination Agreement, the Company entered into subscription agreements (the “Subscription Agreements”) with certain investors. Pursuant to the Subscription Agreements, each investor agreed to subscribe for and purchase, and the Company agreed to issue and sell to such investors, on the Closing Date (as defined in the Business Combination Agreement) immediately following the Closing (as defined in the Business Combination Agreement), an aggregate of 15,000,000 shares of Dragoneer Common Stock for a purchase price of \$10.00 per share, for aggregate gross proceeds of \$150,000,000.

DESCRIPTION OF SECURITIES

The following description of the securities of Dragoon Growth Opportunities Corp. (the “Company,” “we” or “us”) is a summary and does not purport to be complete. It is subject to and qualified in its entirety by reference to the Company’s amended and restated memorandum and article of association and our warrant agreement with American Stock Transfer & Trust Company, as warrant agent (the “warrant agreement”), each of which is incorporated by reference as an exhibit to the Annual Report on Form 10-K of which this Exhibit 4.5 is a part. We encourage you to read the memorandum and articles of association and the warrant agreement for additional information.

We are a Cayman Islands exempted company and our affairs are governed by our amended and restated memorandum and articles of association, the Companies Law and the common law of the Cayman Islands. Pursuant to our amended and restated memorandum and articles of association we are authorized to issue 200,000,000 Class A ordinary shares and 20,000,000 Class B ordinary shares, as well as 1,000,000 preference shares, \$0.0001 par value each. The following description summarizes the material terms of our shares as set out more particularly in our amended and restated memorandum and articles of association. Because it is only a summary, it may not contain all the information that is important to you.

Units

Each unit consists of one Class A ordinary share and one-fifth of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of the company’s Class A ordinary shares. This means only a whole warrant may be exercised at any given time by a warrant holder.

Ordinary Shares

86,250,000 of our ordinary shares are currently outstanding, including:

- 69,000,000 Class A ordinary shares underlying the units issued as part of our initial public offering; and
- 17,250,000 Class B ordinary shares held by our sponsor.

Ordinary shareholders of record are entitled to one vote for each share held on all matters to be voted on by shareholders. Except as described below, holders of Class A ordinary shares and holders of Class B ordinary shares will vote together as a single class on all matters submitted to a vote of our shareholders except as required by law. Unless specified in our amended and restated memorandum and articles of association, or as required by applicable provisions of the Companies Law or applicable stock exchange rules, the affirmative vote of a majority of our ordinary shares that are voted is required to approve any such matter voted on by our shareholders. Approval of certain actions will require a special resolution under Cayman Islands law, being the affirmative vote of at least two-thirds of our ordinary shares that are voted, and pursuant to our amended and restated memorandum and articles of association; such actions include amending our amended and restated memorandum and articles of association and approving a statutory merger or consolidation with another company. Our board of directors is divided into three classes, each of which will generally serve for a term of three years with only one class of directors being appointed in each year. There is no cumulative voting with respect to the appointment of directors, with the result that the holders of more than 50% of the shares voted for the appointment of directors can appoint all of the directors. Our shareholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor. Prior to our initial business combination, only holders of our founder shares will have the right to vote on the appointment of directors. Holders of our public shares will not be entitled to vote on the appointment of directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. In addition, in a vote to continue the Company in a jurisdiction outside the Cayman Islands (which requires the approval of at least two thirds of the votes of all ordinary shares), holders of our Class B ordinary shares will have ten votes for every Class B ordinary share and holders of our Class A ordinary shares will have one vote for every Class A ordinary share. The provisions of our amended and restated memorandum and articles of association

governing the appointment or removal of directors prior to our initial business combination and our continuation in a jurisdiction outside the Cayman Islands prior to our initial business combination may only be amended by a special resolution passed by not less than two-thirds of our ordinary shares who attend and vote at our general meeting which shall include the affirmative vote of a simple majority of our Class B ordinary shares.

Because our amended and restated memorandum and articles of association authorize the issuance of up to 200,000,000 Class A ordinary shares, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of Class A ordinary shares which we will be authorized to issue at the same time as our shareholders vote on the business combination to the extent we seek shareholder approval in connection with our initial business combination.

Our board of directors is divided into three classes with only one class of directors being appointed in each year and each class (except for those directors appointed prior to our first annual general meeting) serving a three-year term. In accordance with the NYSE corporate governance requirements, we are not required to hold an annual general meeting until one year after our first fiscal year end following our listing on the NYSE. There is no requirement under the Companies Law for us to hold annual or general meetings to appoint directors. We may not hold an annual general meeting to appoint new directors prior to the consummation of our initial business combination. Prior to the completion of an initial business combination, any vacancy on the board of directors may be filled by a nominee chosen by holders of a majority of our founder shares. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason.

We will provide our public shareholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our income taxes, if any, divided by the number of the then-outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. The redemption rights will include the requirement that a beneficial owner must identify itself in order to validly redeem its shares. Our sponsor and each member of our management team have entered into an agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and public shares held by them in connection with (i) the completion of our initial business combination, and (ii) a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association (A) that would modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months (or 27 months, as applicable) from the closing of our initial public offering or during any Extension Period or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares. Unlike many blank check companies that hold shareholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a shareholder vote is not required by applicable law or stock exchange listing requirements and we decide not to hold a shareholder vote for business or other reasons, we will, pursuant to our amended and restated memorandum and articles of association, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated memorandum and articles of association require these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a shareholder approval of the transaction is required by applicable law or stock exchange listing requirements, or we decide to obtain shareholder approval for business or other reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek shareholder approval, we will complete our initial business combination only if we obtain the approval of an ordinary resolution under Cayman Islands law, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of the company. However, the participation of our sponsor, officers, directors, advisors or their affiliates in privately-negotiated transactions, if any, could result in the approval of our initial business combination even if a majority of

our public shareholders vote, or indicate their intention to vote, against such initial business combination. For purposes of seeking approval of the majority of our issued and outstanding ordinary shares, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. Our amended and restated memorandum and articles of association require that at least five days' notice will be given of any general meeting.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to Excess Shares, without our prior consent. However, we would not be restricting our shareholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our shareholders' inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such shareholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such shareholders will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And, as a result, such shareholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their shares in open market transactions, potentially at a loss.

If we seek shareholder approval, we will complete our initial business combination only if we obtain the approval of an ordinary resolution under Cayman Islands law, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of the company. In such case, our sponsor and each member of our management team have agreed to vote their founder shares and public shares in favor of our initial business combination. As a result, in addition to our initial shareholders' founder shares, we would need 25,875,001, or 37.5% (assuming all issued and outstanding shares are voted), or 4,312,501, or 6.25% (assuming only the minimum number of shares representing a quorum are voted), of the 69,000,000 public shares currently outstanding to be voted in favor of an initial business combination in order to have our initial business combination approved. Additionally, each public shareholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction or vote at all.

Pursuant to our amended and restated memorandum and articles of association, if we have not consummated an initial business combination within 24 months (or 27 months, as applicable) from the closing of our initial public offering, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. Our sponsor and each member of our management team have entered into an agreement with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold if we fail to consummate an initial business combination within 24 months (or 27 months, as applicable) from the closing of our initial public offering or during any Extension Period (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame). Our amended and restated memorandum and articles of association provide that, if we wind up for any other reason prior to the consummation of our initial business combination, we will follow the foregoing procedures with respect to the liquidation of the trust account as promptly as reasonably possible but not more than ten business days thereafter, subject to applicable Cayman Islands law.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our shareholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of shares, if any, having preference over the ordinary shares. Our shareholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to

the ordinary shares, except that we will provide our public shareholders with the opportunity to redeem their public shares for cash at a per share price equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our income taxes, if any, divided by the number of the then-outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are designated as Class B ordinary shares and, except as described below, are identical to the Class A ordinary shares included in the units sold in our initial public offering, and holders of founder shares have the same shareholder rights as public shareholders, except that: (a) prior to our initial business combination, only holders of the founder shares have the right to vote on the appointment of directors and holders of a majority of our founder shares may remove a member of the board of directors for any reason; (b) the founder shares are subject to certain transfer restrictions, as described in more detail below; (c) in a vote to continue the Company in a jurisdiction outside the Cayman Islands (which requires the approval of at least two thirds of the votes of all ordinary shares), holders of our founder shares will have ten votes for every founder share and holders of our Class A ordinary shares will have one vote for every Class A ordinary share; (d) our sponsor and each member of our management team have entered into an agreement with us, pursuant to which they have agreed to (i) waive their redemption rights with respect to their founder shares (ii) waive their redemption rights with respect to their founder shares and public shares in connection with a shareholder vote to approve an amendment to our amended and restated memorandum and articles of association (A) that would modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months (or 27 months, as applicable) from the closing of our initial public offering or (B) that would modify any other provision relating to the rights of holders of our Class A ordinary shares; and (iii) waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold if we fail to consummate an initial business combination within 24 months (or 27 months, as applicable) from the closing of our initial public offering or during any Extension Period (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame); (e) the founder shares will automatically convert into our Class A ordinary shares at the time of our initial business combination or earlier at the option of the holders thereof as described herein; and (f) the founder shares are entitled to registration rights. If we seek shareholder approval, we will complete our initial business combination only if we obtain the approval of an ordinary resolution under Cayman Islands law, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of the company. In such case, our sponsor and each member of our management team have agreed to vote their founder shares and public shares in favor of our initial business combination.

The founder shares are designated as Class B ordinary shares and will automatically convert into Class A ordinary shares (which such Class A ordinary shares delivered upon conversion will not have redemption rights or be entitled to liquidating distributions from the trust account if we do not consummate an initial business combination) at the time of our initial business combination or earlier at the option of the holders thereof at a ratio such that the number of Class A ordinary shares issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of ordinary shares issued and outstanding upon completion of our initial public offering, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial business combination, excluding any forward purchase securities and Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in the initial business combination and any private placement warrants issued to our sponsor, its affiliates or any member of our management team, including upon conversion of working capital loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one.

Except as described herein, our sponsor and our directors and executive officers have agreed not to transfer, assign or sell any of their founder shares until earliest of (A) one year after the completion of our initial business combination and (B) subsequent to our initial business combination, (x) if the closing price of our Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share capitalizations, reorganizations,

recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 120 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property. Any permitted transferees would be subject to the same restrictions and other agreements of our sponsor and our directors and executive officers with respect to any founder shares.

Prior to our initial business combination, only holders of our founder shares will have the right to vote on the appointment of directors. Holders of our public shares will not be entitled to vote on the appointment of directors during such time. In addition, prior to the completion of an initial business combination, holders of a majority of our founder shares may remove a member of the board of directors for any reason. These provisions of our amended and restated memorandum and articles of association may only be amended by a special resolution passed by not less than two-thirds of our ordinary shares who attend and vote at our general meeting which shall include the affirmative vote of a simple majority of our Class B ordinary shares. With respect to any other matter submitted to a vote of our shareholders, including any vote in connection with our initial business combination, except as required by law, holders of our founder shares and holders of our public shares will vote together as a single class, with each share entitling the holder to one vote.

Register of Members

Under Cayman Islands law, we must keep a register of members and there will be entered therein:

- the names and addresses of the members, a statement of the shares held by each member, and of the amount paid or agreed to be considered as paid, on the shares of each member and the voting rights of shares;
- the date on which the name of any person was entered on the register as a member; and
- the date on which any person ceased to be a member.

Under Cayman Islands law, the register of members of our company is prima facie evidence of the matters set out therein (i.e., the register of members will raise a presumption of fact on the matters referred to above unless rebutted) and a member registered in the register of members will be deemed as a matter of Cayman Islands law to have legal title to the shares as set against its name in the register of members. Upon the closing of our initial public offering, the register of members was updated to reflect the issue of shares by us, the shareholders recorded in the register of members are deemed to have legal title to the shares set against their name. However, there are certain limited circumstances where an application may be made to a Cayman Islands court for a determination on whether the register of members reflects the correct legal position. Further, the Cayman Islands court has the power to order that the register of members maintained by a company should be rectified where it considers that the register of members does not reflect the correct legal position. If an application for an order for rectification of the register of members were made in respect of our ordinary shares, then the validity of such shares may be subject to re-examination by a Cayman Islands court.

Preference Shares

Our amended and restated memorandum and articles of association authorize 1,000,000 preference shares and provide that preference shares may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without shareholder approval, issue preference shares with voting and other rights that could adversely affect the voting power and other rights of the holders of the ordinary shares and could have anti-takeover effects. The ability of our board of directors to issue preference shares without shareholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no preference shares issued and outstanding at the date hereof. Although we do not currently intend to issue any preference shares, we cannot assure you that we will not do so in the future. No preference shares are currently outstanding.

Warrants

Public Shareholders' Warrants

Each whole warrant entitles the registered holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of one year from the closing of our initial public offering and 30 days after the completion of our initial business combination, except as discussed in the immediately succeeding paragraph. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of Class A ordinary shares. This means only a whole warrant may be exercised at a given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least five units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A ordinary shares underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable and we will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the Class A ordinary share underlying such unit.

We have agreed that as soon as practicable, but in no event later than twenty business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants, and we will use our commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of our initial business combination, and to maintain the effectiveness of such registration statement and a current prospectus relating to those Class A ordinary shares until the warrants expire or are redeemed, as specified in the warrant agreement; provided that if our Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th day after the closing of the initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. In such event, each holder would pay the exercise price by surrendering the warrants for that number of Class A ordinary shares equal to the lesser of (A) the quotient obtained by dividing (x) the product of the number of Class A ordinary shares underlying the warrants, multiplied by the excess of the "fair market value" (defined below) less the exercise price of the warrants by (y) the fair market value and (B) 0.361 per warrant. The "fair market value" as used in this paragraph shall mean the volume weighted average price of the Class A ordinary shares for the 10 trading days ending on the trading day prior to the date on which the notice of exercise is received by the warrant agent.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00. Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “-Warrants-Public Shareholders’ Warrants-Anti-Dilution Adjustments”) on the trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants as described above unless a registration statement under the Securities Act covering the issuance of the Class A ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We have established the last of the redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise his, her or its warrant prior to the scheduled redemption date. Any such exercise would not be done on a “cashless” basis and would require the exercising warrant holder to pay the exercise price for each warrant being exercised. However, the price of the Class A ordinary shares may fall below the \$18.00 redemption trigger price (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “-Warrants-Public Shareholders’ Warrants-Anti-dilution Adjustments”) as well as the \$11.50 (for whole shares) warrant exercise price after the redemption notice is issued.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00. Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption *provided* that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to the table below, based on the redemption date and the “fair market value” of our Class A ordinary shares (as defined below) except as otherwise described below; and
- if, and only if, the closing price of our Class A ordinary shares equals or exceeds \$10.00 per public share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant as described under the heading “-Warrants-Public Shareholders’ Warrants-Anti-Dilution Adjustments”) on the trading day prior to the date on which we send the notice of redemption to the warrant holders.

Beginning on the date the notice of redemption is given until the warrants are redeemed or exercised, holders may elect to exercise their warrants on a cashless basis. The numbers in the table below represent the number of Class A ordinary shares that a warrant holder will receive upon such cashless exercise in connection with a redemption by us pursuant to this redemption feature, based on the “fair market value” of our Class A ordinary shares on the corresponding redemption date (assuming holders elect to exercise their warrants and such warrants are not redeemed for \$0.10 per warrant), determined for these purposes based on volume weighted average price of our Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants, and the number of months that the corresponding redemption date precedes the expiration date of the warrants, each as set forth in the table below. We will provide our warrant holders with the final fair market value no later than one business day after the 10-trading day period described above ends.

Pursuant to the warrant agreement, references above to Class A ordinary shares shall include a security other than Class A ordinary shares into which the Class A ordinary shares have been converted or exchanged for in the event we are not the surviving company in our initial business combination. The numbers in the table below will not be adjusted when determining the number of Class A ordinary shares to be issued upon exercise of the warrants if we are not the surviving entity following our initial business combination.

The share prices set forth in the column headings of the table below will be adjusted as of any date on which the number of shares issuable upon exercise of a warrant or the exercise price of a warrant is adjusted as set forth under the heading “-Anti-dilution Adjustments” below. If the number of shares issuable upon exercise of a warrant is adjusted, the adjusted share prices in the column headings will equal the share prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the exercise price of the warrant after such adjustment and the denominator of which is the price of the warrant immediately prior to such adjustment. In such an event, the number of shares in the table below shall be adjusted by multiplying such share amounts by a fraction, the numerator of which is the number of shares deliverable upon exercise of a warrant immediately prior to such adjustment and the denominator of which is the number of shares deliverable upon exercise of a warrant as so adjusted. If the exercise price of a warrant is adjusted, (a) in the case of an adjustment pursuant to the fifth paragraph under the heading “-Anti-dilution Adjustments” below, the adjusted share prices in the column headings will equal the unadjusted share price multiplied by a fraction, the numerator of which is the higher of the Market Value and the Newly Issued Price as set forth under the heading “ -Anti-dilution Adjustments” and the denominator of which is \$10.00 and (b) in the case of an adjustment pursuant to the second paragraph under the heading “-Anti-dilution Adjustments” below, the adjusted share prices in the column headings will equal the unadjusted share price less the decrease in the exercise price of a warrant pursuant to such exercise price adjustment.

The exact fair market value and redemption date may not be set forth in the table above, in which case, if the fair market value is between two values in the table or the redemption date is between two redemption dates in the table, the number of Class A ordinary shares to be issued for each warrant exercised will be determined by a straight-line interpolation between the number of shares set forth for the higher and lower fair market values and the earlier and later redemption dates, as applicable, based on a 365 or 366-day year, as applicable. For example, if the volume weighted average price of our Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of the warrants is \$11.00 per share, and at such time there are 57 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for 0.277 Class A ordinary shares for each whole warrant. For an example where the exact fair market value and redemption date are not as set forth in the table above, if the volume weighted average price of our Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of the warrants is \$13.50 per share, and at such time there are 38 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for 0.298 Class A ordinary shares for each whole warrant. In no event will the warrants be exercisable on a cashless basis in connection with this redemption feature for more than 0.361 Class A ordinary shares per warrant (subject to adjustment). Finally, as reflected in the table above, if the warrants are out of the money and about to expire, they cannot be exercised on a cashless basis in connection with a redemption by us pursuant to this redemption feature, since they will not be exercisable for any Class A ordinary shares.

This redemption feature differs from the typical warrant redemption features used in many other blank check offerings, which typically only provide for a redemption of warrants for cash (other than the private placement warrants) when the trading price for the Class A ordinary shares exceeds \$18.00 per share for a specified period of time. This redemption feature is structured to allow for all of the outstanding warrants to be redeemed when the Class A ordinary shares are trading at or above \$10.00 per public share, which may be at a time when the trading price of our Class A ordinary shares is below the exercise price of the warrants. We have established this redemption feature to provide us with the flexibility to redeem the warrants without the warrants having to reach the \$18.00 per share threshold set forth above under “-Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00.” Holders choosing to exercise their warrants in connection with a redemption pursuant to this feature will, in effect, receive a number of shares for their warrants based on an option pricing model with a fixed volatility input. This redemption right provides us with an additional mechanism by which to redeem all of the outstanding warrants, and therefore have certainty as to our capital structure as the warrants would no longer be outstanding and would have been exercised or redeemed. We will be required to pay the applicable redemption price to warrant holders if we choose to exercise this redemption right and it will allow us to quickly proceed with a redemption of the warrants if we determine it is in our best interest to do so. As such, we would redeem the warrants in this manner when we believe it is in our best interest to update our capital structure to remove the warrants and pay the redemption price to the warrant holders.

As stated above, we can redeem the warrants when the Class A ordinary shares are trading at a price starting at \$10.00, which is below the exercise price of \$11.50, because it will provide certainty with respect to our capital structure and cash position while providing warrant holders with the opportunity to exercise their warrants on a cashless basis for the applicable number of shares. If we choose to redeem the warrants when the Class A ordinary shares are trading at a price below the exercise price of the warrants, this could result in the warrant holders receiving fewer Class A ordinary shares than they would have received if they had chosen to wait to exercise their warrants for Class A ordinary shares if and when such Class A ordinary shares were trading at a price higher than the exercise price of \$11.50.

No fractional Class A ordinary shares will be issued upon exercise. If, upon exercise, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of Class A ordinary shares to be issued to the holder. If, at the time of redemption, the warrants are exercisable for a security other than the Class A ordinary shares pursuant to the warrant agreement (for instance, if we are not the surviving company in our initial business combination), the warrants may be exercised for such security. At such time as the warrants become exercisable for a security other than the Class A ordinary shares, the Company (or surviving company) will use its commercially reasonable efforts to register under the Securities Act the security issuable upon the exercise of the warrants.

Redemption procedures.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person's affiliates), to the warrant agent's actual knowledge, would beneficially own in excess of 9.8% (or such other amount as a holder may specify) of the Class A ordinary shares issued and outstanding immediately after giving effect to such exercise.

Anti-dilution Adjustments.

If the number of outstanding Class A ordinary shares is increased by a capitalization or share dividend payable in Class A ordinary shares, or by a split-up of ordinary shares or other similar event, then, on the effective date of such capitalization or share dividend, split-up or similar event, the number of Class A ordinary shares issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding ordinary shares. A rights offering made to all or substantially all holders of ordinary shares entitling holders to purchase Class A ordinary shares at a price less than the "historical fair market value" (as defined below) will be deemed a share dividend of a number of Class A ordinary shares equal to the product of (i) the number of Class A ordinary shares actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A ordinary shares) and (ii) one minus the quotient of (x) the price per Class A ordinary share paid in such rights offering and (y) the historical fair market value. For these purposes, (i) if the rights offering is for securities convertible into or exercisable for Class A ordinary shares, in determining the price payable for Class A ordinary shares, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) "historical fair market value" means the volume weighted average price of Class A ordinary shares as reported during the 10 trading day period ending on the trading day prior to the first date on which the Class A ordinary shares trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to all or substantially all of the holders of the Class A ordinary shares on account of such Class A ordinary shares (or other securities into which the warrants are convertible), other than (a) as described above, (b) any cash dividends or cash distributions which, when combined on a per share basis with all other cash dividends and cash distributions paid on the Class A ordinary shares during the 365-day period ending on the date of declaration of such dividend or distribution does not exceed \$0.50 (as adjusted to appropriately reflect any other adjustments and excluding cash dividends or cash distributions that resulted in an adjustment to the exercise price or to the number of Class A ordinary shares issuable on exercise of each warrant) but only with respect to the amount of the aggregate cash dividends or cash distributions equal to or less than \$0.50 per share, (c) to satisfy the redemption rights of the holders of Class A ordinary shares in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of Class A ordinary shares in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months (or 27 months, as applicable) from the closing of our initial public offering or (B) that would modify any other provision relating to the rights of holders of our Class A ordinary shares, or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each Class A ordinary share in respect of such event.

If the number of outstanding Class A ordinary shares is decreased by a consolidation, combination, reverse share split or reclassification of Class A ordinary shares or other similar event, then, on the effective date of such consolidation, combination, reverse share split, reclassification or similar event, the number of Class A ordinary shares issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding Class A ordinary shares.

Whenever the number of Class A ordinary shares purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of Class A ordinary shares purchasable upon the exercise of the warrants immediately prior to such adjustment and (y) the denominator of which will be the number of Class A ordinary shares so purchasable immediately thereafter.

In addition, if (x) we issue additional Class A ordinary shares or equity-linked securities, excluding the forward purchase securities, for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per ordinary share (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our sponsor or its affiliates, without taking into account any founder shares held by our sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and (z) the volume weighted average trading price of our Class A ordinary shares during the 20 trading day period starting on the trading day prior to the day on which we consummate our initial business combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger price described above under "-Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00" and "-Redemption of warrants when the price per Class A ordinary shares equals or exceeds \$10.00" will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price described above under "-Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00" will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

In case of any reclassification or reorganization of the outstanding Class A ordinary shares (other than those described above or that solely affects the par value of such Class A ordinary shares), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding Class A ordinary shares), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the Class A ordinary shares immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of Class A ordinary shares or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. However, if such holders were entitled to exercise a right of election as to the kind or amount of securities, cash or other assets receivable upon such consolidation or merger, then the kind and amount of securities, cash or other assets for which each warrant will become exercisable will be deemed to be the weighted average of the kind and amount received per share by such holders in such consolidation or merger that affirmatively make such election, and if a tender, exchange or redemption offer has been made to and accepted by such holders (other than a tender, exchange or redemption offer made by the company in connection with redemption rights held by shareholders of the company as provided for in the company's amended and restated memorandum and articles of association or as a result of the redemption of

Class A ordinary shares by the company if a proposed initial business combination is presented to the shareholders of the company for approval) under circumstances in which, upon completion of such tender or exchange offer, the maker thereof, together with members of any group (within the meaning of Rule 13d-5(b)(1) under the Exchange Act) of which such maker is a part, and together with any affiliate or associate of such maker (within the meaning of Rule 12b-2 under the Exchange Act) and any members of any such group of which any such affiliate or associate is a part, own beneficially (within the meaning of Rule 13d-3 under the Exchange Act) more than 50% of the issued and outstanding Class A ordinary shares, the holder of a warrant will be entitled to receive the highest amount of cash, securities or other property to which such holder would actually have been entitled as a shareholder if such warrant holder had exercised the warrant prior to the expiration of such tender or exchange offer, accepted such offer and all of the Class A ordinary shares held by such holder had been purchased pursuant to such tender or exchange offer, subject to adjustment (from and after the consummation of such tender or exchange offer) as nearly equivalent as possible to the adjustments provided for in the warrant agreement. If less than 70% of the consideration receivable by the holders of Class A ordinary shares in such a transaction is payable in the form of Class A ordinary shares in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the Black-Scholes value (as defined in the warrant agreement) of the warrant. The purpose of such exercise price reduction is to provide additional value to holders of the warrants when an extraordinary transaction occurs during the exercise period of the warrants pursuant to which the holders of the warrants otherwise do not receive the full potential value of the warrants. The purpose of such exercise price reduction is to provide additional value to holders of the warrants when an extraordinary transaction occurs during the exercise period of the warrants pursuant to which the holders of the warrants otherwise do not receive the full potential value of the warrants.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder for the purpose of (i) curing any ambiguity or correct any mistake, including to conform the provisions of the warrant agreement to the description of the terms of the warrants and the warrant agreement, or defective provision, (ii) amending the provisions relating to cash dividends on ordinary shares as contemplated by and in accordance with the warrant agreement or (iii) adding or changing any provisions with respect to matters or questions arising under the warrant agreement as the parties to the warrant agreement may deem necessary or desirable and that the parties deem to not adversely affect the rights of the registered holders of the warrants, provided that the approval by the holders of at least 50% of the then-outstanding public warrants is required to make any change that adversely affects the interests of the registered holders. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants.

The warrant holders do not have the rights or privileges of holders of ordinary shares and any voting rights until they exercise their warrants and receive Class A ordinary shares. After the issuance of Class A ordinary shares upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by shareholders.

No fractional warrants will be issued upon separation of the units and only whole warrants will trade. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of Class A ordinary shares to be issued to the warrant holder.

We have agreed that, subject to applicable law, any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and we irrevocably submit to such jurisdiction, which jurisdiction will be the exclusive forum for any such action, proceeding or claim. See "Risk Factors-Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company." This provision applies to claims under the Securities Act but does not apply to claims under the Exchange Act or any claim for which the federal district courts of the United States of America are the sole and exclusive forum.

Private Placement Warrants

Except as described below, the private placement warrants have terms and provisions that are identical to those of the warrants sold as part of the units in our initial public offering. The private placement warrants (including the Class A ordinary shares issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except pursuant to limited exceptions as described under “Principal Shareholders-Transfers of Founder Shares and Private Placement Warrants,” to our officers and directors and other persons or entities affiliated with the initial purchasers of the private placement warrants) and they will not be redeemable by us so long as they are held by our sponsor or its permitted transferees. Our sponsor, or its permitted transferees, has the option to exercise the private placement warrants on a cashless basis. If the private placement warrants are held by holders other than our sponsor or its permitted transferees, the private placement warrants will be redeemable by us in all redemption scenarios and exercisable by the holders on the same basis as the warrants included in the units sold in our initial public offering. Any amendment to the terms of the private placement warrants or any provision of the warrant agreement with respect to the private placement warrants will require a vote of holders of at least 50% of the number of the then outstanding private placement warrants.

If holders of the private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering his, her or its warrants for that number of Class A ordinary shares equal to the quotient obtained by dividing (x) the product of the number of Class A ordinary shares underlying the warrants, multiplied by the excess of the “Sponsor fair market value” (defined below) over the exercise price of the warrants by (y) the Sponsor fair market value. For these purposes, the “Sponsor fair market value” shall mean the average reported closing price of the Class A ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by our sponsor and its permitted transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that restrict insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public shareholders who could exercise their warrants and sell the Class A ordinary shares received upon such exercise freely in the open market in order to recoup the cost of such exercise, the insiders could be significantly restricted from selling such securities. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. Up to \$2,000,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants.

Forward Purchase Securities

Prior to our initial public offering, we entered into (i) a forward purchase agreement pursuant to which Dragoneer Funding, which has received commitments from one or more funds affiliated with Dragoneer, has agreed to subscribe for an aggregate of 15,000,000 forward purchase units, consisting of one Class A ordinary share and one-fifth of one warrant to purchase one Class A ordinary share for \$10.00 per unit, or \$150,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of our initial business combination and (ii) a forward purchase agreement pursuant to which the Willett Purchasers have agreed to subscribe for an aggregate of 2,500,000 forward purchase units, consisting of one Class A ordinary share, or a forward purchase share, and one-fifth of one warrant to purchase one Class A ordinary share, or a forward purchase warrant, for \$10.00 per unit, or \$25,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of our initial business combination. The allocation of the forward purchase securities among the ultimate Dragoneer funds that will be funding the forward purchase will be determined by Dragoneer, in its sole discretion, at the time of our initial business combination. If the sale of the forward purchase units fails to close, for any reason, we may lack sufficient funds to consummate our initial business combination. The forward purchase shares and forward purchase warrants will be identical to the Class A ordinary shares included in the units sold in our initial public offering, except that they will be subject to certain registration rights, as described herein.

Dividends

We have not paid any cash dividends on our ordinary shares to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. If we incur any indebtedness in connection with a business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

Our Transfer Agent and Warrant Agent

The transfer agent for our ordinary shares and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its shareholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any claims and losses due to any gross negligence or intentional misconduct of the indemnified person or entity.

Certain Differences in Corporate Law

Cayman Islands companies are governed by the Companies Law. The Companies Law is modeled on English Law but does not follow recent English Law statutory enactments, and differs from laws applicable to United States corporations and their shareholders. Set forth below is a summary of the material differences between the provisions of the Companies Law applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

Mergers and Similar Arrangements. In certain circumstances, the Companies Law allows for mergers or consolidations between two Cayman Islands companies, or between a Cayman Islands exempted company and a company incorporated in another jurisdiction (*provided* that is facilitated by the laws of that other jurisdiction).

Where the merger or consolidation is between two Cayman Islands companies, the directors of each company must approve a written plan of merger or consolidation containing certain prescribed information. That plan or merger or consolidation must then be authorized by either (a) a special resolution (usually a majority of 66 2/3% in value of the voting shares voted at a general meeting) of the shareholders of each company; or (b) such other authorization, if any, as may be specified in such constituent company's articles of association. No shareholder resolution is required for a merger between a parent company (i.e., a company that owns at least 90% of the issued shares of each class in a subsidiary company) and its subsidiary company. The consent of each holder of a fixed or floating security interest of a constituent company must be obtained unless the court waives such requirement. If the Cayman Islands Registrar of Companies is satisfied that the requirements of the Companies Law (which includes certain other formalities) have been complied with, the Registrar of Companies will register the plan of merger or consolidation.

Where the merger or consolidation involves a foreign company, the procedure is similar, save that with respect to the foreign company, the directors of the Cayman Islands exempted company are required to make a declaration to the effect that, having made due enquiry, they are of the opinion that the requirements set out below have been met: (i) that the merger or consolidation is permitted or not prohibited by the constitutional documents of the foreign company and by the laws of the jurisdiction in which the foreign company is incorporated, and that those laws and any requirements of those constitutional documents have been or will be complied with; (ii) that no petition or other similar proceeding has been filed and remains outstanding or order made or resolution adopted to wind up or liquidate the foreign company in any jurisdictions; (iii) that no receiver, trustee, administrator or other similar person has been appointed in any jurisdiction and is acting in respect of the foreign company, its affairs or its property or any part thereof; and (iv) that no scheme, order, compromise or other similar arrangement has been entered into or made in any jurisdiction whereby the rights of creditors of the foreign company are and continue to be suspended or restricted.

Where the surviving company is the Cayman Islands exempted company, the directors of the Cayman Islands exempted company are further required to make a declaration to the effect that, having made due enquiry, they are of the opinion that the requirements set out below have been met: (i) that the foreign company is able to pay its debts as they fall due and that the merger or consolidated is bona fide and not intended to defraud unsecured creditors of the foreign company; (ii) that in respect of the transfer of any security interest granted by the foreign company to the surviving or consolidated company (a) consent or approval to the transfer has been obtained, released or waived; (b) the transfer is permitted by and has been approved in accordance with the constitutional documents of the foreign company; and (c) the laws of the jurisdiction of the foreign company with respect to the transfer have been or will be complied with; (iii) that the foreign company will, upon the merger or consolidation becoming effective, cease to be incorporated, registered or exist under the laws of the relevant foreign jurisdiction; and (iv) that there is no other reason why it would be against the public interest to permit the merger or consolidation.

Where the above procedures are adopted, the Companies Law provides for a right of dissenting shareholders to be paid a payment of the fair value of his shares upon their dissenting to the merger or consolidation if they follow a prescribed procedure. In essence, that procedure is as follows: (a) the shareholder must give his written objection to the merger or consolidation to the constituent company before the vote on the merger or consolidation, including a statement that the shareholder proposes to demand payment for his shares if the merger or consolidation is authorized by the vote; (b) within 20 days following the date on which the merger or consolidation is approved by the shareholders, the constituent company must give written notice to each shareholder who made a written objection; (c) a shareholder must within 20 days following receipt of such notice from the constituent company, give the constituent company a written notice of his intention to dissent including, among other details, a demand for payment of the fair value of his shares; (d) within seven days following the date of the expiration of the period set out in paragraph (b) above or seven days following the date on which the plan of merger or consolidation is filed, whichever is later, the constituent company, the surviving company or the consolidated company must make a written offer to each dissenting shareholder to purchase his shares at a price that the company determines is the fair value and if the company and the shareholder agree the price within 30 days following the date on which the offer was made, the company must pay the shareholder such amount; and (e) if the company and the shareholder fail to agree a price within such 30 day period, within 20 days following the date on which such 30 day period expires, the company (and any dissenting shareholder) must file a petition with the Cayman Islands Grand Court to determine the fair value and such petition must be accompanied by a list of the names and addresses of the dissenting shareholders with whom agreements as to the fair value of their shares have not been reached by the company. At the hearing of that petition, the court has the power to determine the fair value of the shares together with a fair rate of interest, if any, to be paid by the company upon the amount determined to be the fair value. Any dissenting shareholder whose name appears on the list filed by the company may participate fully in all proceedings until the determination of fair value is reached. These rights of a dissenting shareholder are not available in certain circumstances, for example, to dissenters holding shares of any class in respect of which an open market exists on a recognized stock exchange or recognized interdealer quotation system at the relevant date or where the consideration for such shares to be contributed are shares of any company listed on a national securities exchange or shares of the surviving or consolidated company.

Moreover, Cayman Islands law has separate statutory provisions that facilitate the reconstruction or amalgamation of companies in certain circumstances, schemes of arrangement will generally be more suited for complex mergers or other transactions involving widely held companies, commonly referred to in the Cayman Islands as a "scheme of arrangement" which may be tantamount to a merger. In the event that a merger was sought pursuant to a scheme of arrangement (the procedures for which are more rigorous and take longer to complete than the procedures typically required to consummate a merger in the United States), the arrangement in question must be approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meeting summoned for that purpose. The convening of the meetings and subsequently the terms of the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder would have the right to express to the court the view that the transaction should not be approved, the court can be expected to approve the arrangement if it satisfies itself that:

- we are not proposing to act illegally or beyond the scope of our corporate authority and the statutory provisions as to majority vote have been complied with;
- the shareholders have been fairly represented at the meeting in question;
- the arrangement is such as a businessman would reasonably approve; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law or that would amount to a "fraud on the minority."

If a scheme of arrangement or takeover offer (as described below) is approved, any dissenting shareholder would have no rights comparable to appraisal rights (providing rights to receive payment in cash for the judicially determined value of the shares), which would otherwise ordinarily be available to dissenting shareholders of United States corporations.

Squeeze-out Provisions. When a takeover offer is made and accepted by holders of 90% of the shares to whom the offer relates within four months, the offeror may, within a two-month period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands, but this is unlikely to succeed unless there is evidence of fraud, bad faith, collusion or inequitable treatment of the shareholders.

Further, transactions similar to a merger, reconstruction and/or an amalgamation may in some circumstances be achieved through means other than these statutory provisions, such as a share capital exchange, asset acquisition or control, or through contractual arrangements of an operating business.

Shareholders' Suits. Maples and Calder, our Cayman Islands legal counsel, is not aware of any reported class action having been brought in a Cayman Islands court.

Derivative actions have been brought in the Cayman Islands courts, and the Cayman Islands courts have confirmed the availability for such actions. In most cases, we will be the proper plaintiff in any claim based on a breach of duty owed to us, and a claim against (for example) our officers or directors usually may not be brought by a shareholder. However, based both on Cayman Islands authorities and on English authorities, which would in all likelihood be of persuasive authority and be applied by a court in the Cayman Islands, exceptions to the foregoing principle apply in circumstances in which:

- a company is acting, or proposing to act, illegally or beyond the scope of its authority;
- the act complained of, although not beyond the scope of the authority, could be effected if duly authorized by more than the number of votes which have actually been obtained; or
- those who control the company are perpetrating a “fraud on the minority.”

A shareholder may have a direct right of action against us where the individual rights of that shareholder have been infringed or are about to be infringed.

Enforcement of Civil Liabilities. The Cayman Islands has a different body of securities laws as compared to the United States and provides less protection to investors. Additionally, Cayman Islands companies may not have standing to sue before the Federal courts of the United States.

We have been advised by Maples and Calder, our Cayman Islands legal counsel, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, and or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

Special Considerations for Exempted Companies. We are an exempted company with limited liability under the Companies Law. The Companies Law distinguishes between ordinary resident companies and exempted companies. Any company that is registered in the Cayman Islands but conducts business mainly outside of the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted company are essentially the same as for an ordinary company except for the exemptions and privileges listed below:

- an exempted company does not have to file an annual return on its shareholders with the Registrar of Companies;
- an exempted company's register of members is not open to inspection;
- an exempted company does not have to hold an annual general meeting;
- an exempted company may issue shares with no par value;
- an exempted company may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 20 years in the first instance);
- an exempted company may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;
- an exempted company may register as a limited duration company; and
- an exempted company may register as a segregated portfolio company.

"Limited liability" means that the liability of each shareholder is limited to the amount unpaid by the shareholder on the shares of the company (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstances in which a court may be prepared to pierce or lift the corporate veil).

Amended and Restated Memorandum and Articles of Association

Our amended and restated memorandum and articles of association contain provisions designed to provide certain rights and protections relating to our initial public offering that will apply to us until the completion of our initial business combination. These provisions cannot be amended without a special resolution under Cayman Islands law. As a matter of Cayman Islands law, a resolution is deemed to be a special resolution where it has been approved by either (i) the affirmative vote of at least two-thirds (or any higher threshold specified in a company's articles of association) of a company's shareholders entitled to vote and so voting at a general meeting for which notice specifying the intention to propose the resolution as a special resolution has been given; or (ii) if so authorized by a company's articles of association, by a unanimous written resolution of all of the company's shareholders. Other than as described above, our amended and restated memorandum and articles of association provide that special resolutions must be approved either by at least two-thirds of our shareholders who attend and vote at a general meeting of the company (i.e., the lowest threshold permissible under Cayman Islands law), or by a unanimous written resolution of all of our shareholders.

Our initial shareholders and their permitted transferees, if any, who will collectively beneficially own 20% of our ordinary shares upon the closing of our initial public offering (assuming they did not purchase any units in our initial public offering), will participate in any vote to amend our amended and restated memorandum and articles of association and will have the discretion to vote in any manner they choose. Specifically, our amended and restated memorandum and articles of association provide, among other things, that:

- If we have not consummated an initial business combination within 24 months (or 27 months, as applicable) from the closing of our initial public offering, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our income taxes that were paid by us or are payable by us, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then-outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law;

- Prior to or in connection with our initial business combination, we may not issue additional securities that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote as a class with our public shares (a) on our initial business combination or on any other proposal presented to shareholders prior to or in connection with the completion of an initial business combination or (b) to approve an amendment to our amended and restated memorandum and articles of association to (x) extend the time we have to consummate a business combination beyond 24 months (or 27 months, as applicable) from the closing of our initial public offering or (y) amend the foregoing provisions;
- Although we do not intend to enter into a business combination with a target business that is affiliated with our sponsor, Founders, our directors or our officers, we are not prohibited from doing so. In the event we enter into such a transaction, we, or a committee of independent directors, will obtain an opinion from independent investment banking firm or another independent entity that commonly renders valuation opinions that such a business combination is fair to our company from a financial point of view;
- If a shareholder vote on our initial business combination is not required by applicable law or stock exchange listing requirements and we do not decide to hold a shareholder vote for business or other reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act;
- So long as our securities are then listed on the NYSE, our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the amount of deferred underwriting discounts held in trust and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination;
- If our shareholders approve an amendment to our amended and restated memorandum and articles of association (A) that would modify the substance or timing of our obligation to provide holders of our Class A ordinary shares the right to have their shares redeemed in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months (or 27 months, as applicable) from the closing of our initial public offering or (B) with respect to any other provision relating to the rights of holders of our Class A ordinary shares, we will provide our public shareholders with the opportunity to redeem all or a portion of their ordinary shares upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our income taxes, if any, divided by the number of the then-outstanding public shares, subject to the limitations described herein; and
- We will not effectuate our initial business combination solely with another blank check company or a similar company with nominal operations.

In addition, our amended and restated memorandum and articles of association provide that under no circumstances will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001.

The Companies Law permits a company incorporated in the Cayman Islands to amend its memorandum and articles of association with the approval of a special resolution which requires the approval of the holders of at least two-thirds of such company's issued and outstanding ordinary shares who attend and vote at a general meeting or by way of unanimous written resolution. A company's articles of association may specify that the approval of a higher majority is required but, provided the approval of the required majority is obtained, any Cayman Islands exempted company may amend its memorandum and articles of association regardless of whether its memorandum and articles of association provide otherwise.

Accordingly, although we could amend any of the provisions relating to our proposed offering, structure and business plan which are contained in our amended and restated memorandum and articles of association, we view all of these provisions as binding obligations to our shareholders and neither we, nor our officers or directors, will take any action to amend or waive any of these provisions unless we provide dissenting public shareholders with the opportunity to redeem their public shares.

Anti-Money Laundering—Cayman Islands

If any person in the Cayman Islands knows or suspects or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or money laundering or is involved with terrorism or terrorist financing and property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (i) the Financial Reporting Authority of the Cayman Islands, pursuant to the Proceeds of Crime Law (2020 Revision) of the Cayman Islands if the disclosure relates to criminal conduct or money laundering or (ii) a police officer of the rank of constable or higher, or the Financial Reporting Authority, pursuant to the Terrorism Law (2018 Revision) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property. Such a report shall not be treated as a breach of confidence or of any restriction upon the disclosure of information imposed by any enactment or otherwise.

Data Protection—Cayman Islands

We have certain duties under the Data Protection Law, 2017 of the Cayman Islands (the “DPL”) based on internationally accepted principles of data privacy.

Privacy Notice

Introduction

This privacy notice puts our shareholders on notice that through your investment in the Company you will provide us with certain personal information which constitutes personal data within the meaning of the DPL (“personal data”). In the following discussion, the “company” refers to us and our affiliates and/or delegates, except where the context requires otherwise.

Investor Data

We will collect, use, disclose, retain and secure personal data to the extent reasonably required only and within the parameters that could be reasonably expected during the normal course of business. We will only process, disclose, transfer or retain personal data to the extent legitimately required to conduct our activities of on an ongoing basis or to comply with legal and regulatory obligations to which we are subject. We will only transfer personal data in accordance with the requirements of the DPL, and will apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of the personal data and against the accidental loss, destruction or damage to the personal data.

In our use of this personal data, we will be characterized as a “data controller” for the purposes of the DPL, while our affiliates and service providers who may receive this personal data from us in the conduct of our activities may either act as our “data processors” for the purposes of the DPL or may process personal information for their own lawful purposes in connection with services provided to us.

We may also obtain personal data from other public sources. Personal data includes, without limitation, the following information relating to a shareholder and/or any individuals connected with a shareholder as an investor: name, residential address, email address, contact details, corporate contact information, signature, nationality, place of birth, date of birth, tax identification, credit history, correspondence records, passport number, bank account details, source of funds details and details relating to the shareholder’s investment activity.

Who this Affects

If you are a natural person, this will affect you directly. If you are a corporate investor (including, for these purposes, legal arrangements such as trusts or exempted limited partnerships) that provides us with personal data on individuals connected to you for any reason in relation your investment in the company, this will be relevant for those individuals and you should transmit the content of this Privacy Notice to such individuals or otherwise advise them of its content.

How the Company May Use a Shareholder's Personal Data

The company, as the data controller, may collect, store and use personal data for lawful purposes, including, in particular:

- (a) where this is necessary for the performance of our rights and obligations under any purchase agreements;
- (b) where this is necessary for compliance with a legal and regulatory obligation to which we are subject (such as compliance with anti-money laundering and FATCA/CRS requirements); and/or
- (c) where this is necessary for the purposes of our legitimate interests and such interests are not overridden by your interests, fundamental rights or freedoms.

Should we wish to use personal data for other specific purposes (including, if applicable, any purpose that requires your consent), we will contact you.

Why We May Transfer Your Personal Data

In certain circumstances we may be legally obliged to share personal data and other information with respect to your shareholding with the relevant regulatory authorities such as the Cayman Islands Monetary Authority or the Tax Information Authority. They, in turn, may exchange this information with foreign authorities, including tax authorities.

We anticipate disclosing personal data to persons who provide services to us and their respective affiliates (which may include certain entities located outside the United States, the Cayman Islands or the European Economic Area), who will process your personal data on our behalf.

The Data Protection Measures We Take

Any transfer of personal data by us or our duly authorized affiliates and/or delegates outside of the Cayman Islands shall be in accordance with the requirements of the DPL.

We and our duly authorized affiliates and/or delegates shall apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of personal data, and against accidental loss or destruction of, or damage to, personal data.

We shall notify you of any personal data breach that is reasonably likely to result in a risk to your interests, fundamental rights or freedoms or those data subjects to whom the relevant personal data relates.

Certain Anti-Takeover Provisions of our Amended and Restated Memorandum and Articles of Association

Our amended and restated memorandum and articles of association provide that our board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual general meetings.

Our authorized but unissued Class A ordinary shares and preference shares will be available for future issuances without shareholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved Class A ordinary shares and preference shares could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Securities Eligible for Future Sale

We have 86,250,000 Class A ordinary shares issued and outstanding on an as-converted basis. Of these shares, the 69,000,000 Class A ordinary shares sold in our initial public offering are freely tradable without restriction or further registration under the Securities Act, except for any Class A ordinary shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the 17,250,000 outstanding founder shares and all of the 15,800,000 outstanding private placement warrants are restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering.

Upon the closing of the sale of the forward purchase units, all of the forward purchase shares, forward purchase warrants and Class A ordinary shares underlying the forward purchase warrants will be restricted securities under Rule 144.

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares or warrants for at least six months would be entitled to sell their securities *provided* that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the twelve months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of ordinary shares then-outstanding, which equals 862,500 shares; or
- the average weekly reported trading volume of the Class A ordinary shares during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding twelve months (or such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our sponsor will be able to sell its founder shares and private placement warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration and Shareholder Rights

The holders of the founder shares, private placement warrants and any warrants that may be issued upon conversion of working capital loans (and any Class A ordinary shares issuable upon the exercise of the private placement warrants and warrants that may be issued upon conversion of working capital loans) will be entitled to registration rights pursuant to a registration and shareholder rights agreement. The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination. However, the registration and shareholder rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lockup period, which occurs (i) in the case of the founder shares, as described in the following paragraph, and (ii) in the case of the private placement warrants and the respective Class A ordinary shares underlying such warrants, 30 days after the completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

Pursuant to the forward purchase agreements, we have agreed that we will use our commercially reasonable efforts to (i) within 30 days after the closing of the initial business combination, file a registration statement with the SEC for a secondary offering of (A) the forward purchase investors' forward purchase shares, (B) the Class A ordinary shares issuable upon exercise of the forward purchase investors' forward purchase warrants and (C) any other Class A ordinary shares acquired by the forward purchase investors, including any acquisitions after we complete our initial business combination, (ii) cause such registration statement to be declared effective promptly thereafter, but in no event later than 90 days after the closing of the initial business combination and (iii) maintain the effectiveness of such registration statement and to ensure the registration statement does not contain a material omission or misstatement, including by way of amendment or other update, as required, until the earlier of (A) the date on which a forward purchase investor ceases to hold the securities covered thereby and (B) the date all of the securities covered thereby can be sold publicly without restriction or limitation under Rule 144 under the Securities Act, and without the requirement to be in compliance with Rule 144(c)(1) under the Securities Act, subject to certain conditions and limitations set forth in the forward purchase agreements. We will bear the cost of registering these securities.

Except as described herein, our sponsor and our directors and executive officers have agreed not to transfer, assign or sell their founder shares until the earliest of (A) one year after the completion of our initial business combination and (B) subsequent to our initial business combination, (x) if the closing price of our Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 120 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, share exchange or other similar transaction that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property. Any permitted transferees will be subject to the same restrictions and other agreements of our sponsor with respect to any founder shares.

In addition, pursuant to the registration and shareholder rights agreement, our sponsor, upon and following consummation of an initial business combination, will be entitled to nominate three individuals for appointment to our board of directors, as long as the sponsor holds any securities covered by the registration and shareholder rights agreement.

Listing of Securities

Our units, Class A ordinary shares, and warrants are listed on the NYSE under the symbols "DGNR.U", "DGNR" and "DGNR WS," respectively. The units will automatically separate into their component parts and will not be traded following the completion of our initial business combination.

**Certification of Principal Executive Officer Pursuant to Exchange Act Rule 13a-14(a)/15d-14(a)
as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Marc Stad, certify that:

1. I have reviewed this Annual Report on Form 10-K for the year ended December 31, 2020 of Dragoneer Growth Opportunities Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. [Paragraph intentionally omitted in accordance with SEC Release Nos. 34-47986 and 34-54942];
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report), that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: March 29, 2021

Chief Executive Officer and Chairman
(Principal Executive Officer)

**Certification of Principal Executive Officer Pursuant to Exchange Act Rule 13a-14(a)/15d-14(a)
as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Pat Robertson, certify that:

1. I have reviewed this Annual Report on Form 10-K for the year ended December 31, 2020 of Dragoneer Growth Opportunities Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. [Paragraph intentionally omitted in accordance with SEC Release Nos. 34-47986 and 34-54942];
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report), that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
