(Zip Code)

(415) 539-3099
(Issuer's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one Class A ordinary share, \$0.0001 par value, and one-fifth of one redeemable warrant	DGNR.U	New York Stock Exchange LLC
Class A ordinary shares included as part of the units	DGNR	New York Stock Exchange LLC
Redeemable warrants included as part of the units, each whole warrant exercisable for one Class A ordinary share at an exercise price of \$11.50	DGNR WS	New York Stock Exchange LLC

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See definitions of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 23, 2021, there were 69,000,000 Class A ordinary shares, \$0.0001 par value and 17,250,000 Class B ordinary shares, \$0.0001 par value, issued and outstanding.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

Note 1 — Description of Organization and Business Operations

Dragoneer Growth Opportunities Corp. (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on July 3, 2020. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (a “Business Combination”).

The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of June 30, 2021, the Company had not commenced any operations. All activity for the period from July 3, 2020 (inception) through June 30, 2021 relates to the Company’s formation, the initial public offering (“Initial Public Offering”), which is described below, identifying a target company for a Business Combination and activities in connection with the proposed acquisition of Chariot Opportunity Merger Sub, Inc., a Delaware corporation (“Chariot Merger Sub”), and Cypress Holdings, Inc., a Delaware corporation (“CCC”) (see Note 6). The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company may generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The registration statement for the Company’s Initial Public Offering was declared effective on August 13, 2020. On August 18, 2020 the Company consummated the Initial Public Offering of 69,000,000 units (the “Units” and, with respect to the Class A ordinary shares included in the Units sold, the “Public Shares”), which includes the full exercise by the underwriters of their over-allotment option in the amount of 9,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$690,000,000 which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 15,800,000 warrants (the “Private Placement Warrants”) at a price of \$1.00 per Private Placement Warrant in a private placement to the Company’s sponsor, Dragoneer Growth Opportunities Holdings (the “Sponsor”), generating gross proceeds of \$15,800,000, which is described in Note 4. Private Placement Warrants together with the warrants included in the units sold (the “Public Warrants”) (the “Warrants”).

Transaction costs amounted to \$38,924,273, consisting of \$13,800,000 of underwriting fees, \$24,150,000 of deferred underwriting fee and \$974,273 of other offering costs.

Following the closing of the Initial Public Offering on August 18, 2020, an amount of \$690,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and a portion of the net proceeds from the sale of the Private Placement Warrants was placed in a non-interest bearing trust account (the “Trust Account”) which did not earn interest or was not invested until after January 1, 2021, after which the proceeds have been invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less, or in any open-ended investment company that holds itself out as a money market fund investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earliest of: (i) the completion of a Business Combination and (ii) the distribution of the funds in the Trust Account to the Company’s shareholders, as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The NYSE listing rules require that the Business Combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the Trust Account). The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. There is no assurance that the Company will be able to successfully effect a Business Combination.

The Company will provide the holders of the public shares (the “Public Shareholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of the Business Combination, either (i) in connection with a general meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their Public Shares, equal to the aggregate amount then on deposit in the Trust Account, calculated as of two business days prior to the consummation of the Business Combination (initially anticipated to be \$10.00 per Public Share), including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to certain limitations as described in the prospectus. The per-share amount to be distributed to the Public Shareholders who properly redeem their shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 6). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

The Company will proceed with a Business Combination only if the Company has net tangible assets of at least \$5,000,001 and, if the Company seeks shareholder approval, it receives an ordinary resolution under Cayman Islands law approving a Business Combination, which requires the affirmative vote of a majority of the shareholders who attend and vote in person or by proxy at a general meeting of the Company. If a shareholder vote is not required and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Memorandum and Articles of Association, conduct the redemptions pursuant to the tender offer rules of the Securities and Exchange Commission (“SEC”), and file tender offer documents containing substantially the same information as would be included in a proxy statement with the SEC prior to completing a Business Combination. If the Company seeks shareholder approval in connection with a Business Combination, the Company’s Sponsor has agreed to vote its Founder Shares (as defined in Note 5) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each Public Shareholder may elect to redeem their Public Shares, without voting, and if they do vote, irrespective of whether they vote for or against a proposed Business Combination.

Notwithstanding the foregoing, if the Company seeks shareholder approval of the Business Combination and the Company does not conduct redemptions pursuant to the tender offer rules, a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares without the Company’s prior written consent.

The Sponsor has agreed (a) to waive its redemption rights with respect to any Founder Shares and Public Shares held by it in connection with the completion of a Business Combination and (b) not to propose an amendment to the Amended and Restated Memorandum and Articles of Association (i) to modify the substance or timing of the Company’s obligation to allow redemption in connection with the Company’s initial Business Combination or to redeem 100% of the Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or (ii) with respect to any other provision relating to shareholders’ rights or pre-initial business combination activity, unless the Company provides the Public Shareholders with the opportunity to redeem their Public Shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding Public Shares.

The Company will have until August 18, 2022 (or November 18, 2022 if the Company has executed a letter of intent, agreement in principle or definitive agreement for a Business Combination by August 18, 2022 but has not completed a Business Combination by August 18, 2022) to consummate a Business Combination (the “Combination Period”). However, if the Company has not completed a Business Combination within the Combination Period as may be extended from time to time by the Company as a result of a shareholder vote to amend its Amended and Restated Memorandum and Articles of Association (an “Extension Period”), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding Public Shares, which redemption will completely extinguish the rights of the Public Shareholders as shareholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining Public Shareholders and its Board of Directors, liquidate and dissolve, subject in each case to the Company’s obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company’s warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period or any Extension Period.

The Sponsor has agreed to waive its rights to liquidating distributions from the Trust Account with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period or any Extension Period. However, if the Sponsor or any of its respective affiliates acquire Public Shares, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period or any Extension Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period or any Extension Period, and in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

In order to protect the amounts held in the Trust Account, the Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party (other than the Company’s independent auditors) for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below the lesser of (1) \$10.00 per Public Share and (2) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account if less than \$10.00 per Public Shares due to reductions in the value of trust assets, in each case net of the interest which may be withdrawn to pay taxes, provided that such liability will not apply to any claims by a third party or prospective target business that executed a waiver of any and all rights to seek access to the Trust Account nor will it apply to any claims under the Company’s

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”). In the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (other than the Company’s independent auditors), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Liquidity and Going Concern Consideration

As of June 30, 2021, the Company had \$1,441,976 in its operating bank account, and a working capital deficiency of approximately \$5,393,518.

The Company’s liquidity needs up to June 30, 2021 were satisfied through a contribution of \$25,000 from Sponsor to cover for certain expenses in exchange for the issuance of the Founder Shares, advances from related party of \$1,404,979 (see Note 5) and the proceeds from the consummation of the Private Placement not held in the Trust Account. The Company repaid the advanced from related party leaving a balance of \$2,330 as of June 30, 2021. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company’s officers and directors may, but are not obligated to, provide the Company Working Capital Loans (defined below, see Note 5). As of June 30, 2021, the Company had \$2,000,000 outstanding under the Working Capital Loans.

Management has determined that the Company has access to funds from the Sponsors, and the Sponsors have the financial wherewithal to fund the Company, that are sufficient to fund its working capital needs until the consummation of a Business Combination or for a minimum of one year from the date of issuance of the financial statements. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating a Business Combination (including the Pending Business Combination).

Note 2 — Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed interim financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company’s amended Annual Report on Form 10-K/A for the period ended December 31, 2020 filed with the SEC on May 13, 2021. The interim results for the three and six months ended June 30, 2021 are not necessarily indicative of the results to be expected for the period ending December 31, 2021 or for any future periods.

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies, including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

Use of Estimates

The preparation of unaudited condensed financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future events. One of the more significant accounting estimates included in these financial statements is the determination of the fair value of the warrant liability. Such estimates may be subject to change as more current information becomes available and accordingly the actual results could differ significantly from those estimates.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of June 30, 2021 and December 31, 2020.

Cash and Marketable Securities Held in Trust Account

At June 30, 2021 and December 31, 2020, the assets held in the Trust Account were held in mutual funds and cash, respectively.

Class A Ordinary shares subject to possible redemption

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Class A ordinary shares subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable ordinary shares (including ordinary shares that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) is classified as temporary equity. At all other times, ordinary shares are classified as shareholders’ equity. The Company’s ordinary shares features certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. Accordingly, as of June 30, 2021 and December 31, 2020, Class A ordinary shares subject to possible redemption are presented as temporary equity, outside of the shareholders’ equity section of the Company’s unaudited condensed balance sheets.

Offering Costs

Offering costs consist of underwriting, legal, accounting and other expenses incurred through the Initial Public Offering that are directly related to the Initial Public Offering. Offering costs amounting to \$37,773,402 were charged to shareholders’ equity upon the completion of the Initial Public Offering. Offering costs allocated to the warrant liabilities amounted to \$1,150,871, were expensed as of the date of the Initial Public Offering.

Warrant Liability

The Company accounts for the Warrants in accordance with the guidance contained in ASC 815-40 under which the Warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, the Company classifies the Warrants as liabilities at their fair value and adjusts the Warrants to fair value at each reporting period. This liability is subject to re-measurement at each balance sheet date until exercised, and any change in fair value is recognized in the statement of operations. The Public Warrants for periods where no observable traded price was available were valued using a barrier option simulation. For periods subsequent to the detachment of the Public Warrants from the Units, the Public Warrant quoted market price was used as the fair value as of each relevant date. The fair value of the Private Warrants was determined using a Black-Scholes option pricing model.

Income Taxes

The Company accounts for income taxes under ASC Topic 740, “Income Taxes,” which prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company’s management determined that the Cayman Islands is the Company’s major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of June 30, 2021 and December 31, 2020, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company is considered to be an exempted Cayman Islands company with no connection to any other taxable jurisdiction and is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States. As such, the Company’s tax provision was zero for the periods presented.

Net Income (Loss) Per Ordinary Share

Net income (loss) per share is computed by dividing net income (loss) by the weighted average number of ordinary shares outstanding for the period. The calculation of diluted loss per share does not consider the effect of the warrants issued in connection with the (i) Initial Public Offering, (ii) the exercise of the over-allotment option and (iii) Private Placement Warrants since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive. The warrants are exercisable to purchase 29,600,000 shares of Class A ordinary shares in the aggregate.

The Company’s statement of operations includes a presentation of income (loss) per share for ordinary shares subject to possible redemption in a manner similar to the two-class method of income (loss) per share. Net income per share, basic and diluted, for Class A redeemable ordinary shares is calculated by dividing the interest income earned on the Trust Account, by the weighted average number of Class A redeemable ordinary shares outstanding since original issuance. Net loss per share, basic and diluted, for Class B non-redeemable ordinary shares is calculated by dividing the net income (loss), adjusted for income attributable to Class A redeemable ordinary shares, by the weighted average number of Class B non-redeemable ordinary shares outstanding for the period. Class B non-redeemable ordinary shares includes the Founder Shares as these shares do not have any redemption features and do not participate in the income earned on the Trust Account.

The following table reflects the calculation of basic and diluted net income (loss) per ordinary share (in dollars, except per share amounts):

	<u>Three Months Ended June, 30 2021</u>	<u>Six Months Ended June 30, 2021</u>
Redeemable Class A Ordinary Shares		
Numerator: Earnings allocable to Redeemable Class A Ordinary Shares Interest Income earned on marketable securities held in Trust Account	\$ 15,703	\$ 21,942
Net Earnings	<u>\$ 15,703</u>	<u>\$ 21,942</u>
Denominator: Weighted Average Redeemable Class A Ordinary Shares Redeemable Class A Ordinary Shares, Basic and Diluted		
	<u>69,000,000</u>	<u>69,000,000</u>
Earnings/Basic and Diluted Redeemable Class A Ordinary Shares	<u>\$ 0.00</u>	<u>\$ 0.00</u>
Non-Redeemable Class B Ordinary Shares		
Numerator: Net Income (Loss) minus Redeemable Net Earnings		
Net Income (Loss)	\$(17,630,095)	\$142,994,465
Redeemable Net Earnings	(15,703)	(21,942)
Non-Redeemable Net Income (Loss)	<u>\$(17,645,798)</u>	<u>\$142,972,523</u>
Denominator: Weighted Average Non-Redeemable Class B Ordinary Shares		
Non-Redeemable Class B Ordinary Shares, Basic and Diluted	<u>17,250,000</u>	<u>17,250,000</u>
Earnings (loss)/Basic and Diluted Non-Redeemable Class B Ordinary Shares	<u>\$ (1.02)</u>	<u>\$ 8.29</u>

Note: As of June 30, 2021, basic and diluted shares are the same as there are no non-redeemable securities that are dilutive to the shareholders.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Fair Value Measurements

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, "Derivatives and Hedging". For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value on the issuance date and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date.

Recent Accounting Standards

In August 2020, the FASB issued ASU No. 2020-06, "Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity" ("ASU 2020-06"), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. ASU 2020-06 removes certain settlement conditions that are required for equity contracts to qualify for the derivative scope exception and it also simplifies the diluted earnings per share calculation in certain areas. ASU 2020-06 is effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years, with early adoption permitted. The Company adopted ASU 2020-06 effective as of January 1, 2021. The adoption of ASU 2020-06 did not have an impact on the Company's financial statements.

Management does not believe that any other recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the Company's unaudited condensed financial statements.

Note 3 — Initial Public Offering

Pursuant to the Initial Public Offering, the Company sold 69,000,000 Units, which includes the full exercise by the underwriters of their over-allotment option in the amount of 9,000,000 Units, at purchase price of \$10.00 per Unit. Each Unit consists of one Class A ordinary share and one-fifth of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at an exercise price of \$11.50 per whole share (see Note 7).

Note 4 — Private Placement

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 15,800,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$15,800,000. Each Private Placement Warrant is exercisable to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 7). A portion of the proceeds from the Private Placement Warrants were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period or any Extension Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

Note 5 — Related Party Transactions

Founder Shares

In July 2020, the Sponsor paid \$25,000 to cover certain offering and formation costs of the Company in consideration for 17,250,000 Class B ordinary shares (the “Founder Shares”). On July 23, 2020, the Sponsor transferred 75,000 Founder Shares to each of the Company’s directors. The Founder Shares included an aggregate of up to 2,250,000 shares that were subject to forfeiture depending on the extent to which the underwriters’ over-allotment option was exercised, so that the number of Founder Shares would equal, on an as-converted basis, 20% of the Company’s issued and outstanding ordinary shares after the Initial Public Offering. As a result of the underwriters’ election to fully exercise their over-allotment option, 2,250,000 Founder Shares are no longer subject to forfeiture.

Each of the Company’s initial shareholders has agreed, subject to limited exceptions, not to transfer, assign or sell any of its Founder Shares until the earliest of: (A) one year after the completion of a Business Combination and (B) subsequent to a Business Combination, (x) if the closing price of the Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share subdivisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 120 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, share exchange or other similar transaction that results in all of the Public Shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property.

Advances from Related Party

An affiliate of the Sponsor advanced the Company an aggregate of \$1,404,979 to cover expenses related to the Initial Public Offering and for working capital purposes. The advances are non-interest bearing and due on demand. Advances in the aggregate amount of \$19,458 were repaid during the six months ended June 30, 2021 and \$1,383,191 were repaid during the year ended December 31, 2020. As of June 30, 2021 and December 31, 2020, advances in the aggregate amount of \$2,330 and \$17,703 are outstanding, respectively.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

Promissory Note – Related Party

On July 10, 2020, the Company issued an unsecured promissory note (the “Promissory Note”) to the Sponsor, pursuant to which the Company could borrow up to an aggregate principal amount of \$300,000. The Promissory Note was non-interest bearing and payable on the earlier of (i) December 31, 2020 and (ii) the completion of the Initial Public Offering. There were no outstanding borrowings under the Promissory Note as of June 30, 2021 and December 31, 2020.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company’s officers and directors may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”). Such Working Capital Loans would be evidenced by promissory notes. The notes may be repaid upon completion of a Business Combination, without interest, or, at the lender’s discretion, up to \$2,000,000 of notes may be converted upon completion of a Business Combination into warrants at a price of \$1.00 per warrant. Such warrants would be identical to the Private Placement Warrants. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. As of December 31, 2020, the Company had no outstanding borrowings under the Working Capital Loans.

On January 19, 2021, the Company entered into a Working Capital Loan with the Sponsor pursuant to which the Sponsor agreed to loan the Company up to an aggregate principal amount of \$2,000,000. The Working Capital Loan is non-interest bearing and due on the date on which the Company consummates a Business Combination. As of June 30, 2021, the outstanding balance under the Working Capital Loan amounted to \$2,000,000.

The Company assessed the provisions of the Working Capital Loan under ASC 815-15. The derivative component of the obligation is initially valued and classified as a derivative liability with an offset to debt discount. The Conversion Option was valued using a Black-Scholes Option Pricing Model, which is considered to be Level 3 fair value measurement (see Note 9).

The debt discount is being amortized to interest expense as a non-cash charge over the term of the Working Capital Loan, which is assumed to be June 2022, the Company’s initial expected Business Combination date. The Company initially recorded a debt discount, which is presented net of the Working Capital Loan on the accompanying condensed balance sheet, of \$2,000,000. During the three and six months ended June 30, 2021, the Company recorded \$1,000,000 and \$2,000,000, respectively, of interest expense related to the amortization of the debt discount.

Note 6 — Commitments and Contingencies

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company’s financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The unaudited condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Registration and Shareholder Rights

Pursuant to a registration rights agreement entered into on August 13, 2020, the holders of the Founder Shares, Private Placement Warrants and any warrants that may be issued upon exercise of the Forward Purchase Agreement and conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of the Working Capital Loans) will be entitled to registration rights pursuant to a registration and shareholder rights agreement. The holders of these securities will be entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. However, the registration and shareholder rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The underwriters were paid a cash underwriting discount of \$0.20 per Unit, or \$13,800,000 in the aggregate. In addition, the underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$24,150,000 in the aggregate. The deferred fee will be forfeited by the underwriters in the event that the Company fails to complete a Business Combination, subject to the terms of the underwriting agreement.

Forward Purchase Agreements

On July 24, 2020 and August 12, 2020, the Company entered into two respective forward purchase agreements which provide for the purchase by each of Dragoneer Funding LLC and entities managed by or associated with Willett Advisors LLC of up to a combined aggregate of 17,500,000 units (the “forward purchase units”), with each unit consisting of one Class A ordinary share and one-fifth of one warrant to purchase one Class A ordinary share for \$10.00 per unit, or \$175,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of a Business Combination.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

The obligations under the forward purchase agreements will not depend on whether any public shareholders elect to redeem their shares and provide a minimum funding level for the initial Business Combination. The forward purchase shares and forward purchase warrants will be identical to the Class A ordinary shares and warrants, respectively, included in the Units sold in the Initial Public Offering, except that they will be subject to certain registration rights.

Business Combination Agreement

On February 2, 2021, the Company entered into a business combination agreement (the “Business Combination Agreement”) as amended on April 22, 2021 by Amendment No. 1 to the Business Combination Agreement and on July 6, 2021 by Amendment No. 2 to Business Combination Agreement), by and among the Company, Chariot Merger Sub and CCC. The Domestication, the Merger and the other transactions contemplated by the Business Combination Agreement are hereinafter referred to as the “Business Combination”.

The Business Combination Agreement provides for, among other things, the following transactions on the closing date: (i) the Company will become a Delaware corporation (the “Domestication”) and, in connection with the Domestication, (A) the Company’s name will be changed as determined by CCC in its sole discretion, (B) each outstanding Class A ordinary share of the Company and each outstanding Class B ordinary share of the Company will become one share of common stock of the Company (the “Dragoneer Common Stock”), and (C) each outstanding whole warrant of the Company will become one warrant to purchase one share of Dragoneer Common Stock; and (ii) following the Domestication, Chariot Merger Sub will merge with and into CCC, with CCC as the surviving company in the merger and, after giving effect to such merger, continuing as a wholly owned subsidiary of the Company (the “Merger”).

Concurrently with the execution of the Business Combination Agreement, the Company entered into subscription agreements (the “Subscription Agreements”) with certain investors. Pursuant to the Subscription Agreements, each investor agreed to subscribe for and purchase, and the Company agreed to issue and sell to such investors, on the Closing Date (as defined in the Business Combination Agreement) immediately following the Closing (as defined in the Business Combination Agreement), an aggregate of 15,000,000 shares of Dragoneer Common Stock for a purchase price of \$10.00 per share, for aggregate gross proceeds of \$150,000,000.

Note 7 — Shareholders’ Equity

Preference Shares—The Company is authorized to issue 1,000,000 preference shares with a par value of \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. As of June 30, 2021 and December 31, 2020, there were no preference shares issued or outstanding.

Class A Ordinary Shares—The Company is authorized to issue 200,000,000 Class A ordinary shares, with a par value of \$0.0001 per share. Holders of Class A ordinary shares are entitled to one vote for each share. As of June 30, 2021 and December 31, 2020, there were zero and 24,893,689 Class A ordinary shares issued and outstanding, excluding 69,000,000 and 44,106,311 Class A ordinary shares subject to possible redemption, respectively.

Class B Ordinary Shares—The Company is authorized to issue 20,000,000 Class B ordinary shares, with a par value of \$0.0001 per share. Holders of the Class B ordinary shares are entitled to one vote for each share. As of June 30, 2021 and December 31, 2020, there were 17,250,000 Class B ordinary shares issued and outstanding.

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

Holders of Class A ordinary shares and Class B ordinary shares will vote together as a single class on all matters submitted to a vote of shareholders, except as required by law. Prior to the Business Combination, only holders of the Founder Shares will have the right to vote on the appointment of directors. Holders of the Public Shares will not be entitled to vote on the appointment of directors during such time. In addition, prior to the completion of a Business Combination, holders of a majority of the Founder Shares may remove a member of the board of directors for any reason.

The Class B ordinary shares will automatically convert into Class A ordinary shares at the time of a Business Combination or earlier at the option of the holders thereof at a ratio such that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of ordinary shares issued and outstanding upon completion of the Initial Public Offering, plus (ii) the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of a Business Combination, excluding any forward purchase securities and Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in a Business Combination and any Private Placement Warrants issued to the Sponsor, its affiliates or any member of the Company's management team upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one.

Note 8 — Warrant Liability

Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Initial Public Offering. The Public Warrants will expire five years from the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A ordinary shares underlying the warrant is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable and the Company will not be obligated to issue a Class A ordinary share upon exercise of a warrant unless the Class A ordinary share issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company has agreed that as soon as practicable, but in no event later than 20 business days after the closing of a Business Combination, it will use its commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants, and the Company will use its commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of the Business Combination, and to maintain the effectiveness of such registration statement and a current prospectus relating to those Class A ordinary shares until the warrant expire or are redeemed, as specified in the warrant agreement; provided that if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, but it will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th day after the closing of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption, but the Company will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00. Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted) on the trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00. Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described with respect to the Private Placement Warrants):

- in whole and not in part;

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

- at \$0.10 per warrant upon a minimum of 30 days’ prior written notice of redemption provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to an agreed table based on the redemption date and the fair market value of the Class A ordinary shares; and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$10.00 per public share (as adjusted) on the trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If the Company calls the Public Warrants for redemption, as described above, its management will have the option to require any holder that wishes to exercise the Public Warrants to do so on a “cashless basis,” as described in the warrant agreement. The exercise price and number of ordinary shares issuable upon exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, except as described below, the Public Warrants will not be adjusted for issuances of ordinary shares at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the Public Warrants. If the Company is unable to complete a Business Combination within the Combination Period or any Extension Period and the Company liquidates the funds held in the Trust Account, holders of Public Warrants will not receive any of such funds with respect to their Public Warrants, nor will they receive any distribution from the Company’s assets held outside of the Trust Account with respect to such Public Warrants. Accordingly, the Public Warrants may expire worthless.

In addition, if (x) the Company issues additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the Company’s board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of its Class A ordinary shares during the 20 trading day period starting on the trading day prior to the day on which the Company consummates its Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants and the Class A ordinary shares issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable, except as described above, so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

Note 9 — Fair Value Measurements

The fair value of the Company’s financial assets and liabilities reflects management’s estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

At December 31, 2020, assets held in the Trust Account were comprised of \$690,000,000 in cash. At June 30, 2021, assets held in the Trust Account were comprised of \$690,021,942 in money market funds. During the period ended June 30, 2021 and December 31, 2020, the Company did not withdraw any interest income from the Trust Account.

The following table presents information about the Company’s liabilities that are measured at fair value on a recurring basis at June 30, 2021 and December 31, 2020 and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value.

	<u>Level</u>	<u>June 30, 2021</u>	<u>December 31, 2020</u>
Assets – Assets Held in Trust Account	1	\$690,021,942	\$ —
Liabilities:			
Warrant Liability – Public Warrants	1	\$ 27,738,000	\$59,064,000
Warrant Liability – Private Placement Warrants	3	\$ 34,486,796	\$90,856,186
Warrant Liability – Conversion option on working capital loan	3	\$ 2,365,417	\$ —
FPA Liability	2	\$ 6,830,624	\$69,874,782

The Warrants were accounted for as liabilities in accordance with ASC 815-40 and are presented within warrant liabilities on the accompanying balance sheets. The warrant liabilities are measured at fair value at inception and on a recurring basis, with changes in fair value presented within the change in fair value of warrant liabilities in the statement of operations.

The Private Placement Warrants are valued using a Modified Black Scholes Option Pricing Model, which is considered to be a Level 3 fair value measurement. The Modified Black Scholes model's primary unobservable input utilized in determining the fair value of the Private Placement Warrants is the expected volatility of the common stock. The expected volatility as of the Initial Public Offering date was derived from observable public warrant pricing on comparable 'blank-check' companies without an identified target. The expected volatility as of subsequent valuation dates was implied from the Company's own Public Warrant pricing. The Public Warrants for periods where no observable traded price was available are valued using a barrier option simulation. For periods subsequent to the detachment of the Public Warrants from the Units, the Public Warrant quoted market price was used as the fair value as of each relevant date.

The following table presents the changes in the fair value of Level 3 warrant liabilities:

	Private Placement
Fair value as of January 1, 2021	\$ 90,856,186
Change in fair value	(56,369,390)
Fair value as of June 30, 2021	<u>\$ 34,486,796</u>

Conversion Option On Working Capital Loan Liability

The liability for the conversion option was valued using a Black-Scholes Option Pricing Model, which is considered to be a Level 3 fair value measurement. The Black Scholes model's primary unobservable input utilized in determining the fair value of the conversion option is the expected volatility of the common stock. The expected volatility was implied from the Company's own Public Warrant pricing.

The following table presents the changes in the fair value of the conversion option liability:

	Conversion Option Liability
Fair value as of January 1, 2021	\$ —
Initial classification of conversion option liability	8,480,557
Change in fair value	(6,115,140)
Fair value as of June 30, 2021	<u>\$ 2,365,417</u>

FPA Liability

The liability for the FPAs were valued using an adjusted net assets method, which is considered to be a Level 2 fair value measurement. Under the net assets method utilized, the aggregate commitment of \$175 million pursuant to the FPAs is discounted to present value and compared to the fair value of the common stock and warrants to be issued pursuant to the FPAs. The fair value of the common stock and warrants to be issued under the FPAs are based on the public trading price of the Units issued in the Company's IPO. The excess (liability) or deficit (asset) of the fair value of the common stock and warrants to be issued compared to the \$175 million fixed commitment..

DRAGONEER GROWTH OPPORTUNITIES CORP.
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(Unaudited)

The subsequent measurement of the FPA as of June 30, 2021 is classified as Level 2 due to the use of an observable market quote in an active market and the subsequent measurement of the FPA as June 30, 2021 is classified Level 2 due to no longer using the unobservable inputs.

The following table presents a summary of the changes in the fair value of the FPA liability, a Level 2 liability, measured on a recurring basis:

	<u>FPA Liability</u>
Fair value as of January 1, 2021	\$ 69,874,782
Change in fair value	<u>(63,044,158)</u>
Fair value as of June 30, 2021	<u>\$ 6,830,624</u>

There were no other transfers between levels for the six months ended June 30, 2021.

Note 10 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the unaudited condensed financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the unaudited condensed financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References in this report (the "Quarterly Report") to "we," "us" or the "Company" refer to Dragoneer Growth Opportunities Corp. References to our "management" or our "management team" refer to our officers and directors, references to the "Sponsor" refer to Dragoneer Growth Opportunities Holdings. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Special Note Regarding Forward-Looking Statements

This Quarterly Report includes "forward-looking statements" that are not historical facts and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Quarterly Report including, without limitation, statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as "expect," "believe," "anticipate," "intend," "estimate," "seek" and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management's current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company's Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (the "SEC"). The Company's securities filings can be accessed on the EDGAR section of the SEC's website at www.sec.gov. Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

Overview

We are a blank check company incorporated on July 3, 2020 as a Cayman Islands exempted company for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities. We intend to effectuate our initial Business Combination using cash from the proceeds of our Initial Public Offering and the sale of the private placement warrants, our shares, debt or a combination of cash, equity and debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete a Business Combination will be successful.

Recent Developments

Merger Agreement

On February 2, 2021, the Company, Chariot Merger Sub, and CCC entered into the Business Combination Agreement (as amended on April 22, 2021 by Amendment No. 1 to the Business Combination Agreement and on July 6, 2021 by Amendment No. 2 to Business Combination Agreement), pursuant to which on the closing date, among other things and subject to the terms and conditions contained therein:

- (i) the Domestication will occur, and, in connection with the Domestication, (A) the Company's name will be changed as determined by CCC in its sole discretion, (B) each outstanding Class A ordinary share of Dragoneer and each outstanding Class B ordinary share of the Company will become one share of Dragoneer Common Stock, and (C) each outstanding whole warrant of Dragoneer will become one warrant to purchase one share of Dragoneer Common Stock; and
- (ii) the Merger.

In accordance with the terms and subject to the conditions of the Business Combination Agreement, all outstanding shares, together with all outstanding equity awards, of CCC will be exchanged for shares of Dragoneer Common Stock or comparable equity awards that are settled or are exercisable for shares of Dragoneer Common Stock, as applicable, based on an implied CCC equity value of \$5,740,750,000, subject to adjustment in accordance with the Business Combination Agreement. Additionally, the current CCC equityholders and the sponsor each have an earn out tied to the trading price of shares of the combined company after the closing of the Merger.

Under the Business Combination Agreement, the obligations of the parties to consummate the transactions contemplated thereby are subject to a number of closing conditions, including, but not limited to, (i) the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, (ii) the approval of the Company's shareholders, (iii) the approval of CCC's shareholders, (iv) the Company having at least \$5,000,001 of net tangible assets (as determined in accordance with Rule 3a51-1(g)(1) of the Securities Exchange Act of 1934, as amended) remaining after the closing of the Proposed Business Combination and (v) the aggregate cash proceeds from the Company's trust account equaling no less than \$207,000,000 (after deducting any amounts paid to the Company's shareholders that exercise their redemption rights in connection with the Proposed Business Combination and net of the Company's unpaid transaction expenses and the Company's unpaid liabilities).

In addition, the obligation of CCC to consummate the Proposed Business Combination is subject to the fulfillment of other closing conditions, including, but not limited to, (i) the approval by the NYSE of the Company's initial listing application in connection with the Proposed Business Combination, (ii) the aggregate cash proceeds from the Company's forward purchase agreements equaling no less than \$175,000,000, at least \$150,000,000 of which shall be provided by the sponsor, (iii) the consummation of the Domestication and (iv) the Company having made all necessary arrangements to cause the trustee to release the funds from the Company's trust account available to the Company.

[Table of Contents](#)

The Business Combination Agreement is targeted to close on July 30, 2021. The Business Combination Agreement may be terminated at any time prior to the closing of the Proposed Business Combination by mutual written consent of the Company and CCC and, among other things, if the Proposed Business Combination is not consummated by August 5, 2021. As such, the closing of the Proposed Business Combination cannot be assured.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities from inception to June 30, 2021 were organizational activities, those necessary to prepare for the Initial Public Offering, identifying a target company for a Business Combination and activities in connection with the proposed acquisition of CCC. We do not expect to generate any operating revenues until after the completion of our Business Combination. We may generate non-operating income in the form of interest income on marketable securities held in the Trust Account. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses in connection with completing a Business Combination.

For the three months ended June 30, 2021, we had a net loss of \$17,630,095, which consisted of the change in the value of our warrant, conversion option liability and FPA liabilities of \$15,647,109 offset by operating costs of \$998,689 and a non-cash interest expense attributable to the amortization of debt discount of \$1,000,000 and interest earned on the marketable securities of \$15,703.

For the six months ended June 30, 2021, we had a net income of \$142,994,465, which consisted of the change in the value of our warrant, conversion option liability and FPA liabilities of \$150,374,131 offset by operating costs of \$5,401,608 and a non-cash interest expense attributable to the amortization of debt discount of \$2,000,000 and interest earned on the marketable securities of \$21,942.

Liquidity and Capital Resources

On August 18, 2020, we consummated the Initial Public Offering of 69,000,000 Units, which included the full exercise by the underwriters of the over-allotment option to purchase an additional 9,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$690,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of an aggregate of 15,800,000 Private Placement Warrants to our Sponsor at a price of \$1.00 per warrant, generating gross proceeds of \$15,800,000.

Following the Initial Public Offering, the exercise of the over-allotment option and the sale of the Private Placement Warrants, a total of \$690,000,000 was placed in the Trust Account. We incurred \$38,924,273 in transaction costs, including \$13,800,000 of underwriting fees, \$24,150,000 of deferred underwriting fees and \$974,273 of other offering costs in connection with the Initial Public Offering and the sale of the Private Placement Warrants.

[Table of Contents](#)

For the six months ended June 30, 2021, cash used in operating activities was \$1,147,660. Net income of \$142,994,465 was offset by a non-cash charge for the change in the fair value of warrant, conversion option liability and FPA liabilities of \$150,374,131 and interest earned on marketable securities held in the Trust Account of \$21,942 in addition to non-cash interest expense attributable to the amortization of debt discount of \$2,000,000. Changes in operating assets and liabilities provided \$4,253,948 of cash from operating activities.

As of June 30, 2021, we had money market funds held in the Trust Account of \$690,021,942. We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less taxes payable (if applicable) and deferred underwriting commissions) and the proceeds from the sale of the forward purchase units to complete our Business Combination. To the extent that our shares or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the post-Business Combination entity, make other acquisitions and pursue our growth strategies.

As of June 30, 2021, we had cash of \$1,441,976 held outside of the Trust Account. We intend to use the funds held outside the Trust Account primarily to cover professional services, travel to and from the offices, properties or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, our Sponsor or an affiliate of our Sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete a Business Combination, we would repay such loaned amounts. In the event that a Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$2,000,000 of such loans may be convertible into warrants identical to the Private Placement Warrants, at a price of \$1.00 per warrant at the option of the lender.

On January 19, 2021, we entered into a Working Capital Loan with the Sponsor pursuant to which the Sponsor agreed to loan us up to an aggregate principal amount of \$2,000,000.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating and consummating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our public shares upon consummation of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our Business Combination. If we are unable to complete our Business Combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. In addition, following our Business Combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Off-Balance Sheet Financing Arrangements

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of June 30, 2021. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual Obligations

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than as described below.

We have an agreement to pay the underwriters a deferred fee of \$24,150,000 in the aggregate, which will become payable to them from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement. We entered into a forward purchase agreements which provides for the purchase by each of Dragoneer Funding LLC (“Dragoneer Funding”) and entities managed by or associated with Willett Advisors LLC (the “Willett Purchasers”) of up to an aggregate of 17,500,000 units (the “forward purchase units”), with each unit consisting of one Class A ordinary share and one-fifth of one warrant to purchase one Class A ordinary share for \$10.00 per unit, or \$175,000,000 in the aggregate, in a private placement to close substantially concurrently with the closing of our initial Business Combination.

Critical Accounting Policies

The preparation of unaudited condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

[Table of Contents](#)

Warrant Liability

We account for the Warrants in accordance with the guidance contained in ASC 815-40 under which the Warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, we classify the Warrants as liabilities at their fair value and adjust the Warrants to fair value at each reporting period. This liability is subject to re-measurement at each balance sheet date until exercised, and any change in fair value is recognized in our statement of operations. The Public Warrants for periods where no observable traded price was available are valued using a barrier option simulation. For periods subsequent to the detachment of the Public Warrants from the Units, the Public Warrant quoted market price was used as the fair value as of each relevant date. The fair value of Private Warrants was determined using a Black-Scholes option pricing model.

Derivative Financial Instruments

We evaluate our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, “Derivatives and Hedging”. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value on the issuance date and is then revalued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date.

Class A Ordinary Shares Subject to Possible Redemption

We account for our Class A ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Class A ordinary shares subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable ordinary shares (including ordinary shares that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, ordinary shares are classified as shareholders’ equity. Our ordinary shares feature certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, Class A ordinary shares subject to possible redemption is presented as temporary equity, outside of the shareholders’ equity section of our unaudited condensed balance sheets.

Net Income (Loss) Per Ordinary Share

We apply the two-class method in calculating earnings per share. Net income per ordinary share, basic and diluted for Class A redeemable ordinary shares is calculated by dividing the interest income earned on the Trust Account by the weighted average number of Class A redeemable ordinary shares outstanding since original issuance. Net loss per common share, basic and diluted for Class B non-redeemable ordinary shares is calculated by dividing the net income (loss), less income attributable to Class A redeemable ordinary shares, by the weighted average number of Class B non-redeemable ordinary shares outstanding for the periods presented.

Recent Accounting Standards

In August 2020, the FASB issued ASU No. 2020-06, “Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity” (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. ASU 2020-06 removes certain settlement conditions that are required for equity contracts to qualify for the derivative scope exception and it also simplifies the diluted earnings per share calculation in certain areas. ASU 2020-06 is effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years, with early adoption permitted. We adopted ASU 2020-06 effective as of January 1, 2021. The adoption of ASU 2020-06 did not have an impact on our financial statements.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our unaudited condensed financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

[Table of Contents](#)

Evaluation of Disclosure Controls and Procedures

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2021. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15 (e) and 15d-15 (e) under the Exchange Act) were not effective due to a material weakness in internal controls over financial reporting related to inaccurate accounting for warrants issued in connection with our initial public offering and private placement.

Changes in Internal Control Over Financial Reporting

During the fiscal quarter ended June 30, 2021, other than described below, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Management has identified a material weakness in internal controls related to the accounting for warrants issued in connection with our Initial Public Offering, as described above. While we have processes to identify and appropriately apply applicable accounting requirements, the Company has addressed this material weakness by enhancing its processes to identify and appropriately apply applicable accounting requirements to better evaluate its research and understanding of the nuances of the complex accounting standards that apply to its financial statements. The Company's current plans include providing enhanced access to accounting literature, research materials and documents and increased communication among its personnel and third-party professionals with whom it consults regarding complex accounting applications. The Company has also retained the services of a valuation expert to assist in valuation analysis of the Warrants on a quarterly basis.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

None.

ITEM 1A. RISK FACTORS.

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in our amended Annual Report on Form 10-K/A filed with the SEC on May 13, 2021. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. As of the date of this Quarterly Report, there have been no material changes to the risk factors disclosed in our amended Annual Report on Form 10-K/A filed with the SEC on May 13, 2021. We may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On August 18, 2020, we consummated our Initial Public Offering of 69,000,000 Units, inclusive of 9,000,000 Units sold to the underwriters exercising their over-allotment option in full. The Units were sold at an offering price of \$10.00 per Unit, generating total gross proceeds of \$690,000,000. Each Unit consisted of one Class A ordinary share of the Company, par value \$0.0001 per share, and one-fifth of one redeemable warrant of the Company. Citigroup Global Markets Inc., Goldman Sachs & Co. LLC and J.P. Morgan Securities LLC acted as book-running managers of the offering. The securities sold in the offering were registered under the Securities Act on a registration statement on Form S-1 (No. 333-240078). The SEC declared the registration statement effective on August 13, 2020.

Simultaneously with the consummation of the Initial Public Offering, we consummated a private placement of 15,800,000 Private Placement Warrants to our Sponsor at a price of \$1.00 per Private Placement Warrant, generating total proceeds of \$15,800,000. Such securities were issued pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

The Private Placement Warrants are the same as the warrants underlying the Units sold in the Initial Public Offering, except that Private Placement Warrants are not transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants are exercisable on a cashless basis and are non-redeemable so long as they are held by the initial purchasers or their permitted transferees.

Of the gross proceeds received from the Initial Public Offering and the Private Placement Warrants, \$690,000,000 was placed in the Trust Account.

We paid a total of \$13,800,000 underwriting discounts and commissions and \$974,273 for other costs and expenses related to the Initial Public Offering. In addition, the underwriters agreed to defer \$24,150,000 in underwriting discounts and commissions.

For a description of the use of the proceeds generated in our Initial Public Offering, see Part I, Item 2 of this Quarterly Report.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.

CERTIFICATIONS

I, Marc Stad, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Dragoneer Growth Opportunities Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
